(57) **CLAIM**

I claim the ornamental design for a model kit of a brain, as shown and described.

DESCRIPTION

FIG. **1** is a front perspective view of an assembled model kit of a brain showing my new design;
FIG. **2** is a plan perspective view thereof;
FIG. **3** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **4** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **5** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **6** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **7** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **8** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **9** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **10** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **11** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **12** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **13** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **14** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **15** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**;
FIG. **16** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**; and
FIG. **17** is a top plan view of a section of the model kit of a brain of the design of FIG. **1**.

The claim is directed toward the invention shown in FIGS. **1** and **2**, which depict the design of my invention by showing the thicknesses of the pieces of the model kit of a brain in accordance with my design.

The views of FIGS. **3** through **17** are flat depictions of surfaces of pieces of FIGS. **1** and **2** and are shown separately to clarify aspects of the design not shown in FIGS. **1** and **2**. The round design elements within the outlines of FIGS. **3-17** are through holes; certain of the through holes illustrated in FIG. **7** are hexagonal or rectangular in shape and are surrounded by rounded areas indented from the surrounding surface of the piece depicted in FIG. **7**.
