DESCRIPTION

FIG. 1 is a perspective view of a removable open top wire basket lined with a fabric filter material for use within a storm sewer under a grate to facilitate removal of accumulated sediment showing my new design;

FIG. 2 is a side view thereof, the opposite side view being a mirror image;

FIG. 3 is a top view thereof; and,

FIG. 4 is a bottom view thereof.

The cross-line pattern, which is partially shown for ease of illustration, represents a conventional fabric and is understood to repeat uniformly throughout the indicated area.
