(57) **CLAIM**

We claim the ornamental design for a multi functional hand tool, as shown and described.

DESCRIPTION

FIG. 1 is a right side, front perspective view of the tool in its fully closed position

FIG. 2 is a right side view of the tool in its fully closed position

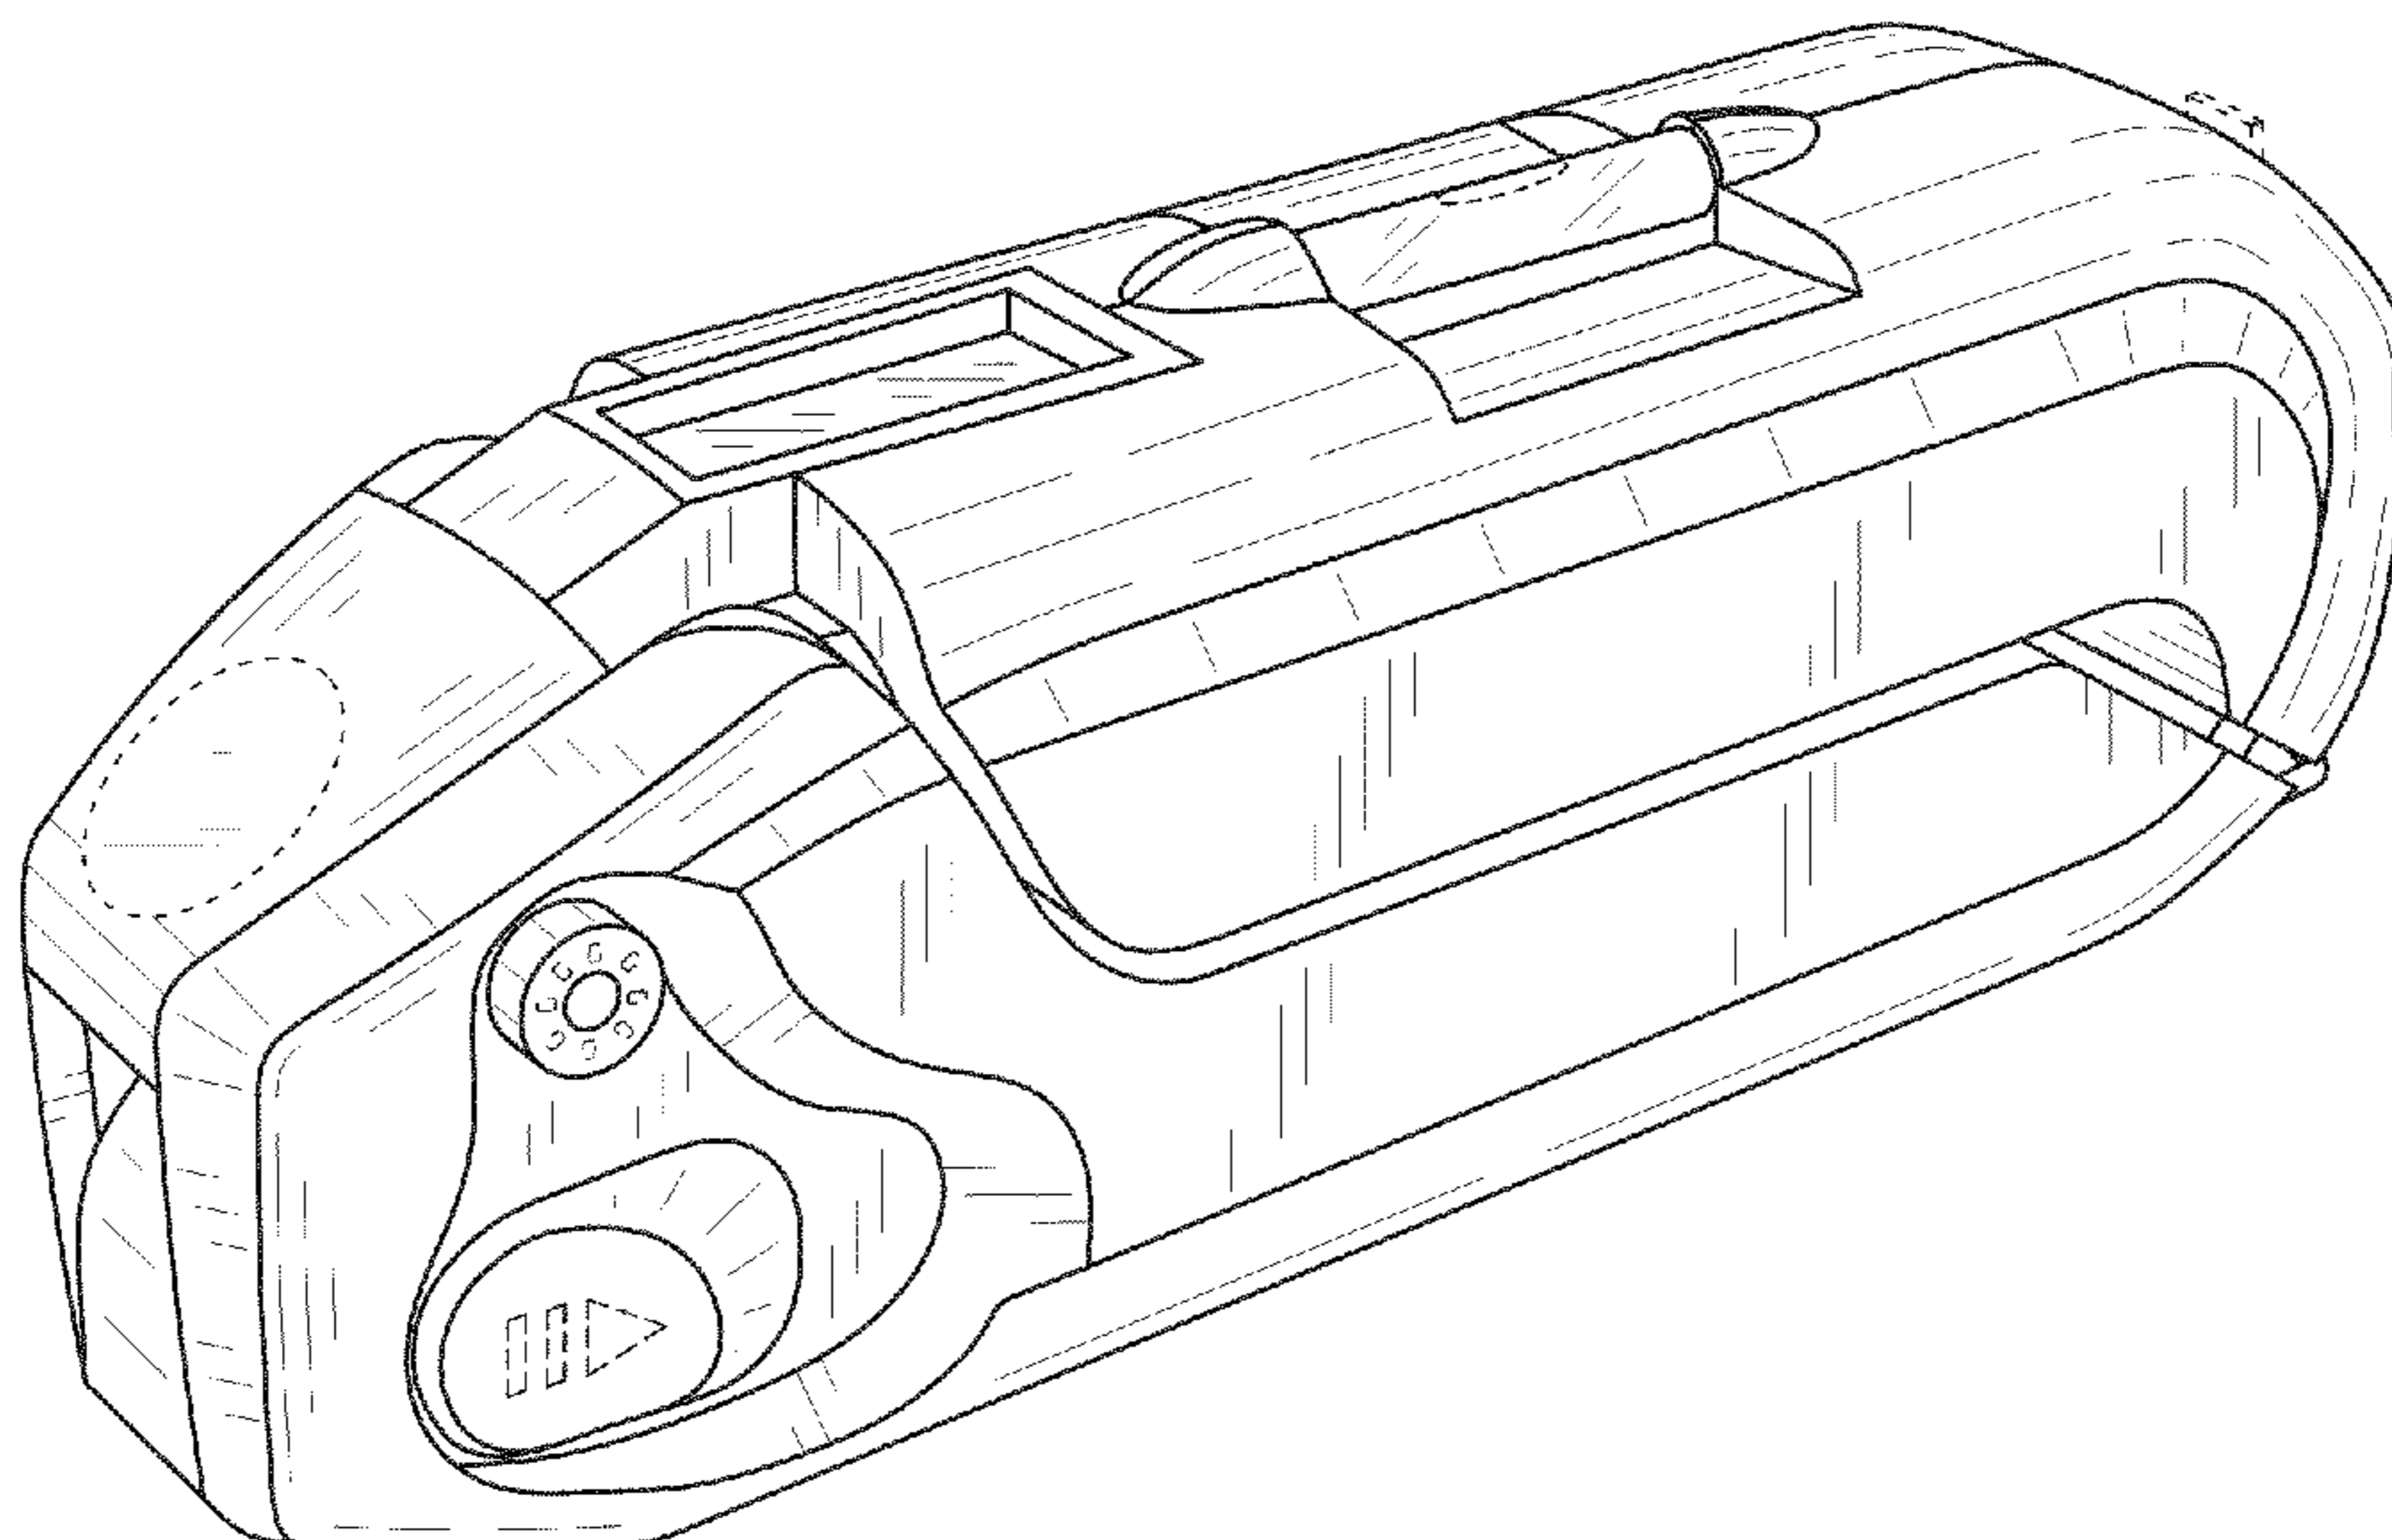

FIG. 3 is a left side view of the tool in its fully closed position

FIG. 4 is a top view of the tool in its fully closed position; and,

FIG. 5 is a right side, perspective view of the tool with the bit extender fully open and the bit storage cover fully open showing storage for 15 additional screwdriver bits.

The broken lines shown in the drawings represent portions of the multi functional hand tool that form no part of the claimed design.
