(57) **CLAIM**

The ornamental design for a messenger bag, as shown and described.

DESCRIPTION

FIG. 1 is an elevation view of a first preferred embodiment of our design, as it would appear on the front of a man when worn;

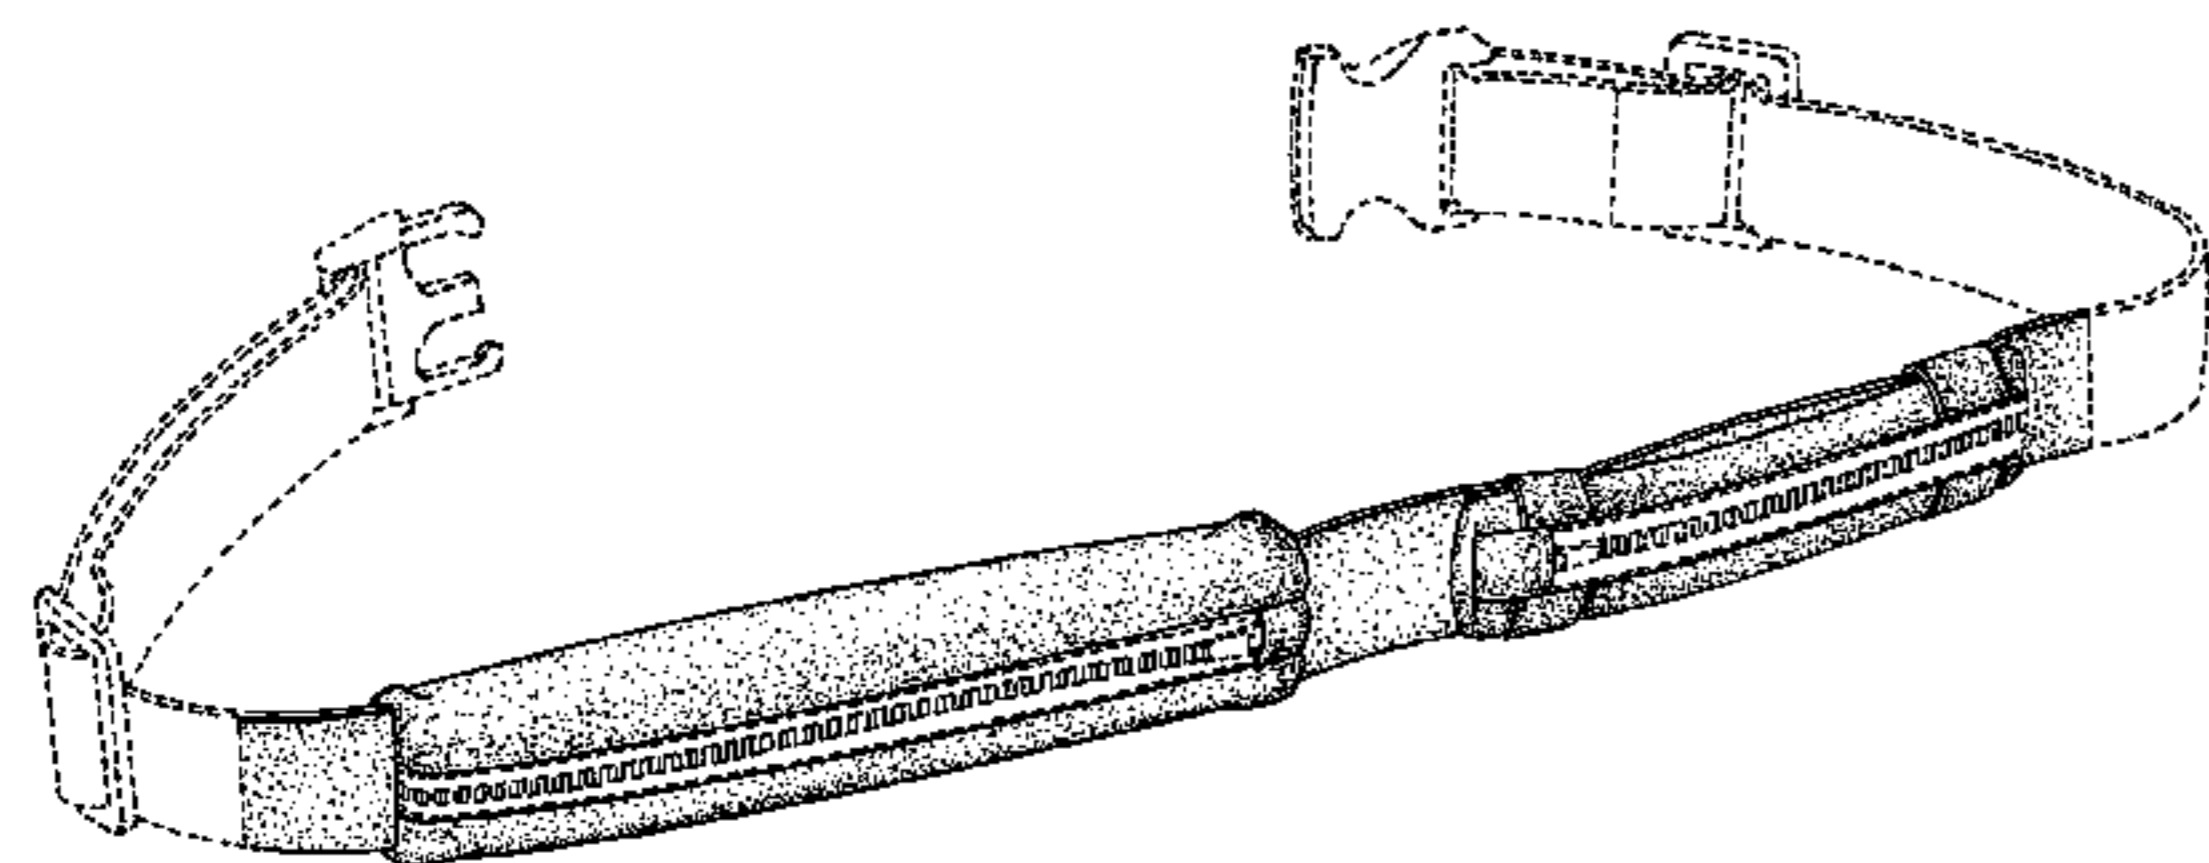

FIG. 2 is an elevation view of the first preferred embodiment of our design, as it would appear on the back of a man when worn;

FIG. 3 is a front perspective view of the first preferred embodiment of our design;

FIG. 4 is a rear elevation view of the first preferred embodiment of our design;

FIG. 5 is a front elevation view of the first preferred embodiment of our design;

FIG. 6 is a top elevation view of the first preferred embodiment of our design;

FIG. 7 is a bottom elevation view of the first preferred embodiment of our design;

FIG. 8 is an elevation view of the first preferred embodiment of our design, showing one side thereof;

FIG. 9 is an elevation view of the first preferred embodiment of our design, showing the other side thereof;

FIG. 10 is an elevation view of a second preferred embodiment of our design, as it would appear on the front of a man when worn;

FIG. 11 is an elevation view of the second preferred embodiment of our design, as it would appear on the back of a man when worn;

FIG. 12 is a front perspective view of the second preferred embodiment of our design;

FIG. 13 is a rear elevation view of the second preferred embodiment of our design;

FIG. 14 is a front elevation view of the second preferred embodiment of our design;

FIG. 15 is a top elevation view of the second preferred embodiment of our design;

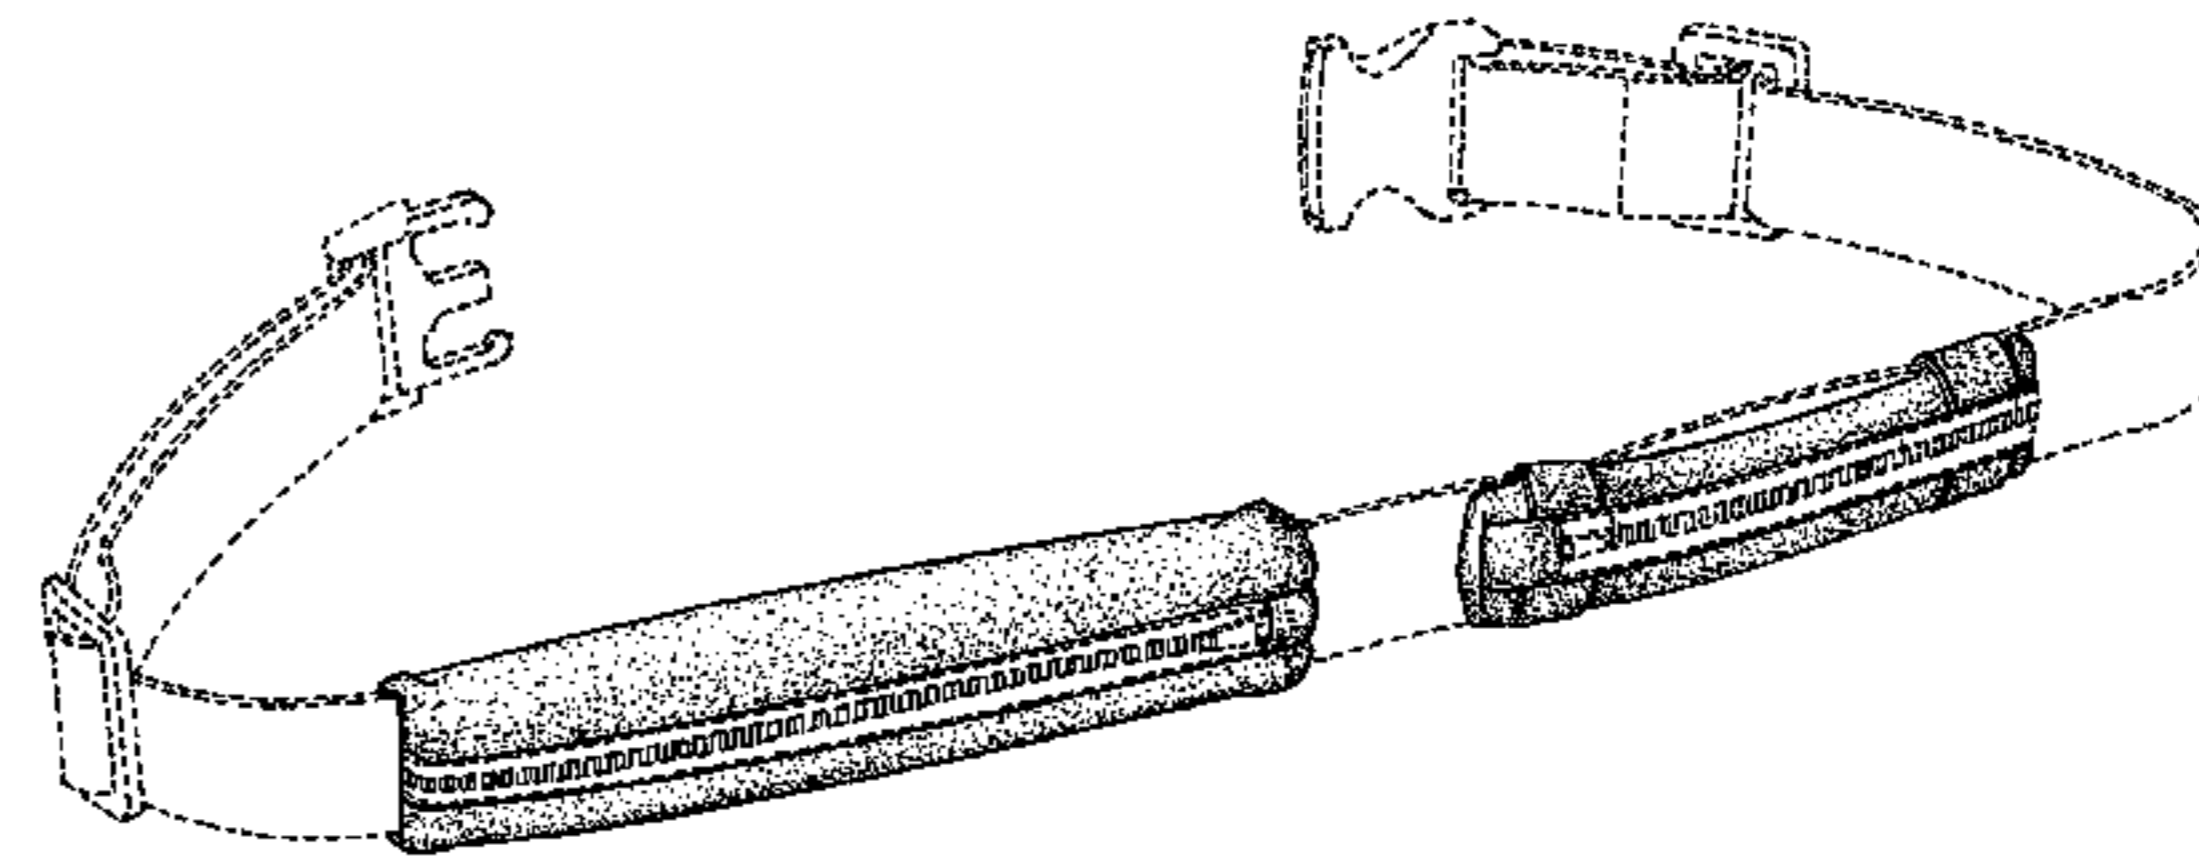

FIG. 16 is a bottom elevation view of the second preferred embodiment of our design;

FIG. 17 is an elevation view of the second preferred embodiment of our design, showing one side thereof; and,

FIG. 18 is an elevation view of the second preferred embodiment of our design, showing the other side thereof.

The broken lines showing a human figure, and portions of the belt are for the purposes of illustrating environment and form no part of the claimed design.
