(57) **CLAIM**

The ornamental design for a femoral cut guide, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a femoral cut guide shown in an environment illustrating our new design; FIG. 2 is a bottom plan view of the femoral cut guide shown removed from its environment in order to show aspects of the design that are not apparent in the perspective view; FIG. 3 is a top plan view thereof; FIG. 4 is a left side elevation view thereof; FIG. 5 is a right side elevation view thereof; FIG. 6 is a front end elevation view thereof; and, FIG. 7 is a rear end elevation view thereof. The evenly spaced broken lines shown that are immediately adjacent the shaded areas, and define unshaded regions, represent unclaimed boundaries while the remaining evenly spaced broken lines and the dot-dash broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
