(57) **CLAIM**

The ornamental design for a femoral prosthesis sizing tool, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a femoral prosthesis sizing tool shown in an environment illustrating our new design;

FIG. 2 is a front end elevation view of the femoral prosthesis sizing tool shown removed from its environment in order to show aspects of the design that are not apparent in the perspective view;

FIG. 3 is a rear end elevation view thereof;

FIG. 4 is a left side elevation view thereof;

FIG. 5 is a right side elevation view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof; and,

FIG. 8 is a perspective view thereof.

The evenly spaced broken lines shown that are immediately adjacent the shaded areas, and define unshaded regions, represent unclaimed boundaries while the remaining evenly spaced broken lines and the dot-dash broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
