(57) **CLAIM**

The ornamental design for a perforated hexagonal screen, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a perforated hexagonal screen according to the new design, the rear elevational view being identical thereto;
 FIG. 2 is a top plan view thereof, the bottom plan view being identical thereto;
 FIG. 3 is a right side elevational view thereof, the left side elevational view being identical thereto;
 FIG. 4 is an enlarged cross-sectional view of the perforated hexagonal screen taken along line 4-4 in FIG. 1;
 FIG. 5 shows an enlarged portion of the cross-sectional view of the perforated hexagonal screen as indicated along line 5-5 in FIG. 4;
 FIG. 6 shows a cross-sectional view of the perforated hexagonal screen in a state of use, surrounding a releasing roll in a resin coat releasing machine; and
 FIG. 7 shows an enlarged fragmentary perspective view of a portion of the perforated hexagonal screen shown in rectangle 7 in FIG. 2, viewing from the inner surface thereof.
 The broken lines are for illustrative purposes only and form no part of the claimed design.
