(57) **CLAIM**

The ornamental design for a basketball shooting training aid, as shown and described

**DESCRIPTION**

FIG. 1 is a perspective view showing our new design for a basketball shooting training aid;

FIG. 2 is a perspective view similar to FIG. 1 but showing the two wristlet components of the design in a partially engaged configuration;

FIG. 3 is an elevation view showing the two components of the design in a fully engaged configuration, the opposing elevation view being a mirror image thereof;

FIG. 4 is a plan view showing the two components of the design in another disengaged configuration, the opposing plan view being a mirror image thereof;

FIG. 5 is an inner end view of one wristlet component seen in the direction of arrows 5 in FIG. 4;

FIG. 6 is an inner end view of the other wristlet component seen in the direction of arrows 6 in FIG. 4;

FIG. 7 is an outer end view thereof;

FIG. 8 is a perspective view showing the design as it appears when worn and with the two components in a disengaged configuration; and,

FIG. 9 is a perspective view similar to FIG. 8 but showing the two components in an engaged configuration.

The broken lines showing the human form in FIGS. 8 and 9 are included for the purpose of illustrating the intended use of the basketball shooting training aid; and form no part of the claimed design.
