(57) **CLAIM**

The ornamental design for a vaporizer heating assembly, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective downward-looking top view of a vaporizer heating assembly according to the present invention;

FIG. 2 is a perspective bottom view of the vaporizer heating assembly of FIG. 1 according to the present invention;

FIG. 3 is top plan view of the vaporizer heating assembly of FIG. 1 according to the present invention;

FIG. 4 is bottom plan view of the vaporizer heating assembly of FIG. 1 according to the present invention;

FIG. 5 is a front elevational view of the vaporizer heating assembly of FIG. 1 according to the present invention;

FIG. 6 is a rear elevational view of the vaporizer heating assembly of FIG. 1 according to the present invention; and,

FIG. 7 is a side elevational view of the vaporizer heating assembly of FIG. 1, showing the opposite side of the device from that shown in FIGS. 1 and 2, according to the present invention.

The broken lines showing function buttons and display characters on the top surface forms no part of the claimed design. The broken lines showing air-intake holes, screws, and a power input on the rear surface and the broken line showing an interior of the air-output hole on the front surface forms no part of the claimed design.
