See application file for complete search history.

FIG. 1 is a bottom perspective view of an OLED luminaire showing our new design;  
FIG. 2 is a bottom plan view thereof;  
FIG. 3 is a left side elevational view thereof, the right side being a mirror image;  
FIG. 4 is a top plan view thereof;  
FIG. 5 is a rear elevational view thereof; and  
FIG. 6 is a front elevational view.  
FIG. 7 is a bottom perspective view of an alternate embodiment of an OLED luminaire showing our new design;  
FIG. 8 is a bottom plan view thereof;  
FIG. 9 is a left side elevational view thereof, the right side being a mirror image;  
FIG. 10 is a top plan view thereof;  
FIG. 11 is a rear elevational view thereof; and,  
FIG. 12 is a front elevational view.

The term "OLED" refers to an organic light-emitting diode. The characteristic features of the design resides in the overall shape of the OLED luminaire and a pattern of OLED panels on the bottom of the luminaire. The body of the OLED luminaire can be transparent, translucent or opaque, or different portions of the OLED luminaire body can be transparent, translucent or opaque, while other portions have a different transparent, translucent or opaque characteristic.
