(57) **CLAIM**

The ornamental design for a rack for wheeled vehicles and the like, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front and left perspective view of the rack for wheeled vehicles and the like with light beams emitted by an internal light emitting diode and having holes of alternate sizes, showing my new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a top, front and left perspective view of a second embodiment of my new design having holes of equal sizes;

FIG. 8 is a top plan view of a second embodiment of my new design;

FIG. 9 is a front elevational view thereof;

FIG. 10 is a left side elevational view thereof;

FIG. 11 is a right side elevational view thereof;

FIG. 12 is a bottom plan view thereof; and,

FIG. 13 is a top, front and left perspective view of a third embodiment of my new design without a light emitting diode and having holes of alternate sizes, the top plan view, the front elevational view, the left and right side elevational views and a bottom plan view being substantially the same as in FIGS. 1-6 but without a light emitting diode.

The broken lines in FIGS. 1, 7, and 13 showing relevant parts of the wheeled vehicle and environment form no part of the claimed design. The broken lines in FIGS. 1 and 7 showing the light emitting diode and light beams emitting therefrom form no part of the claimed design.
