FIG. 1 is a top perspective view of a bag refill unit for waste-disposal device showing my new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a side elevational view, with the side opposite, front, and rear being identical in appearance; and,

FIG. 4 is an additional side elevational view thereof.

The broken-line disclosure adjacent to the claimed surfaces in the views is understood to represent portions of the article in which the claimed design is embodied, but which forms no part of the claimed design, and the broken-line disclosure within the claimed surfaces is understood to represent an unclaimed boundary between claimed surface and unclaimed disclosure.
