The ornamental design for a multi-purpose monitor attachment comprising vent protecting element and supply tray, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a new design for a multi-purpose monitor attachment comprising a vent protecting element attached to a supply tray.

FIG. 2 is a front perspective view of the vent protecting element of the multi-purpose monitor attachment, shown separately for clarity of illustration.

FIG. 3 is a side orthogonal view of the vent protecting element of the multi-purpose monitor attachment, shown separately for clarity of illustration.

FIG. 4 is a bottom orthogonal view of the vent protecting element of the multi-purpose monitor attachment, shown separately for clarity of illustration.

FIG. 5 is a top orthogonal view of the vent protecting element of the multi-purpose monitor attachment, shown separately for clarity of illustration.

FIG. 6 is a front perspective view of the supply tray, shown in FIG. 1, shown separately for clarity of illustration.

FIG. 7 is a top orthogonal view of the supply tray, shown separately for clarity of illustration.

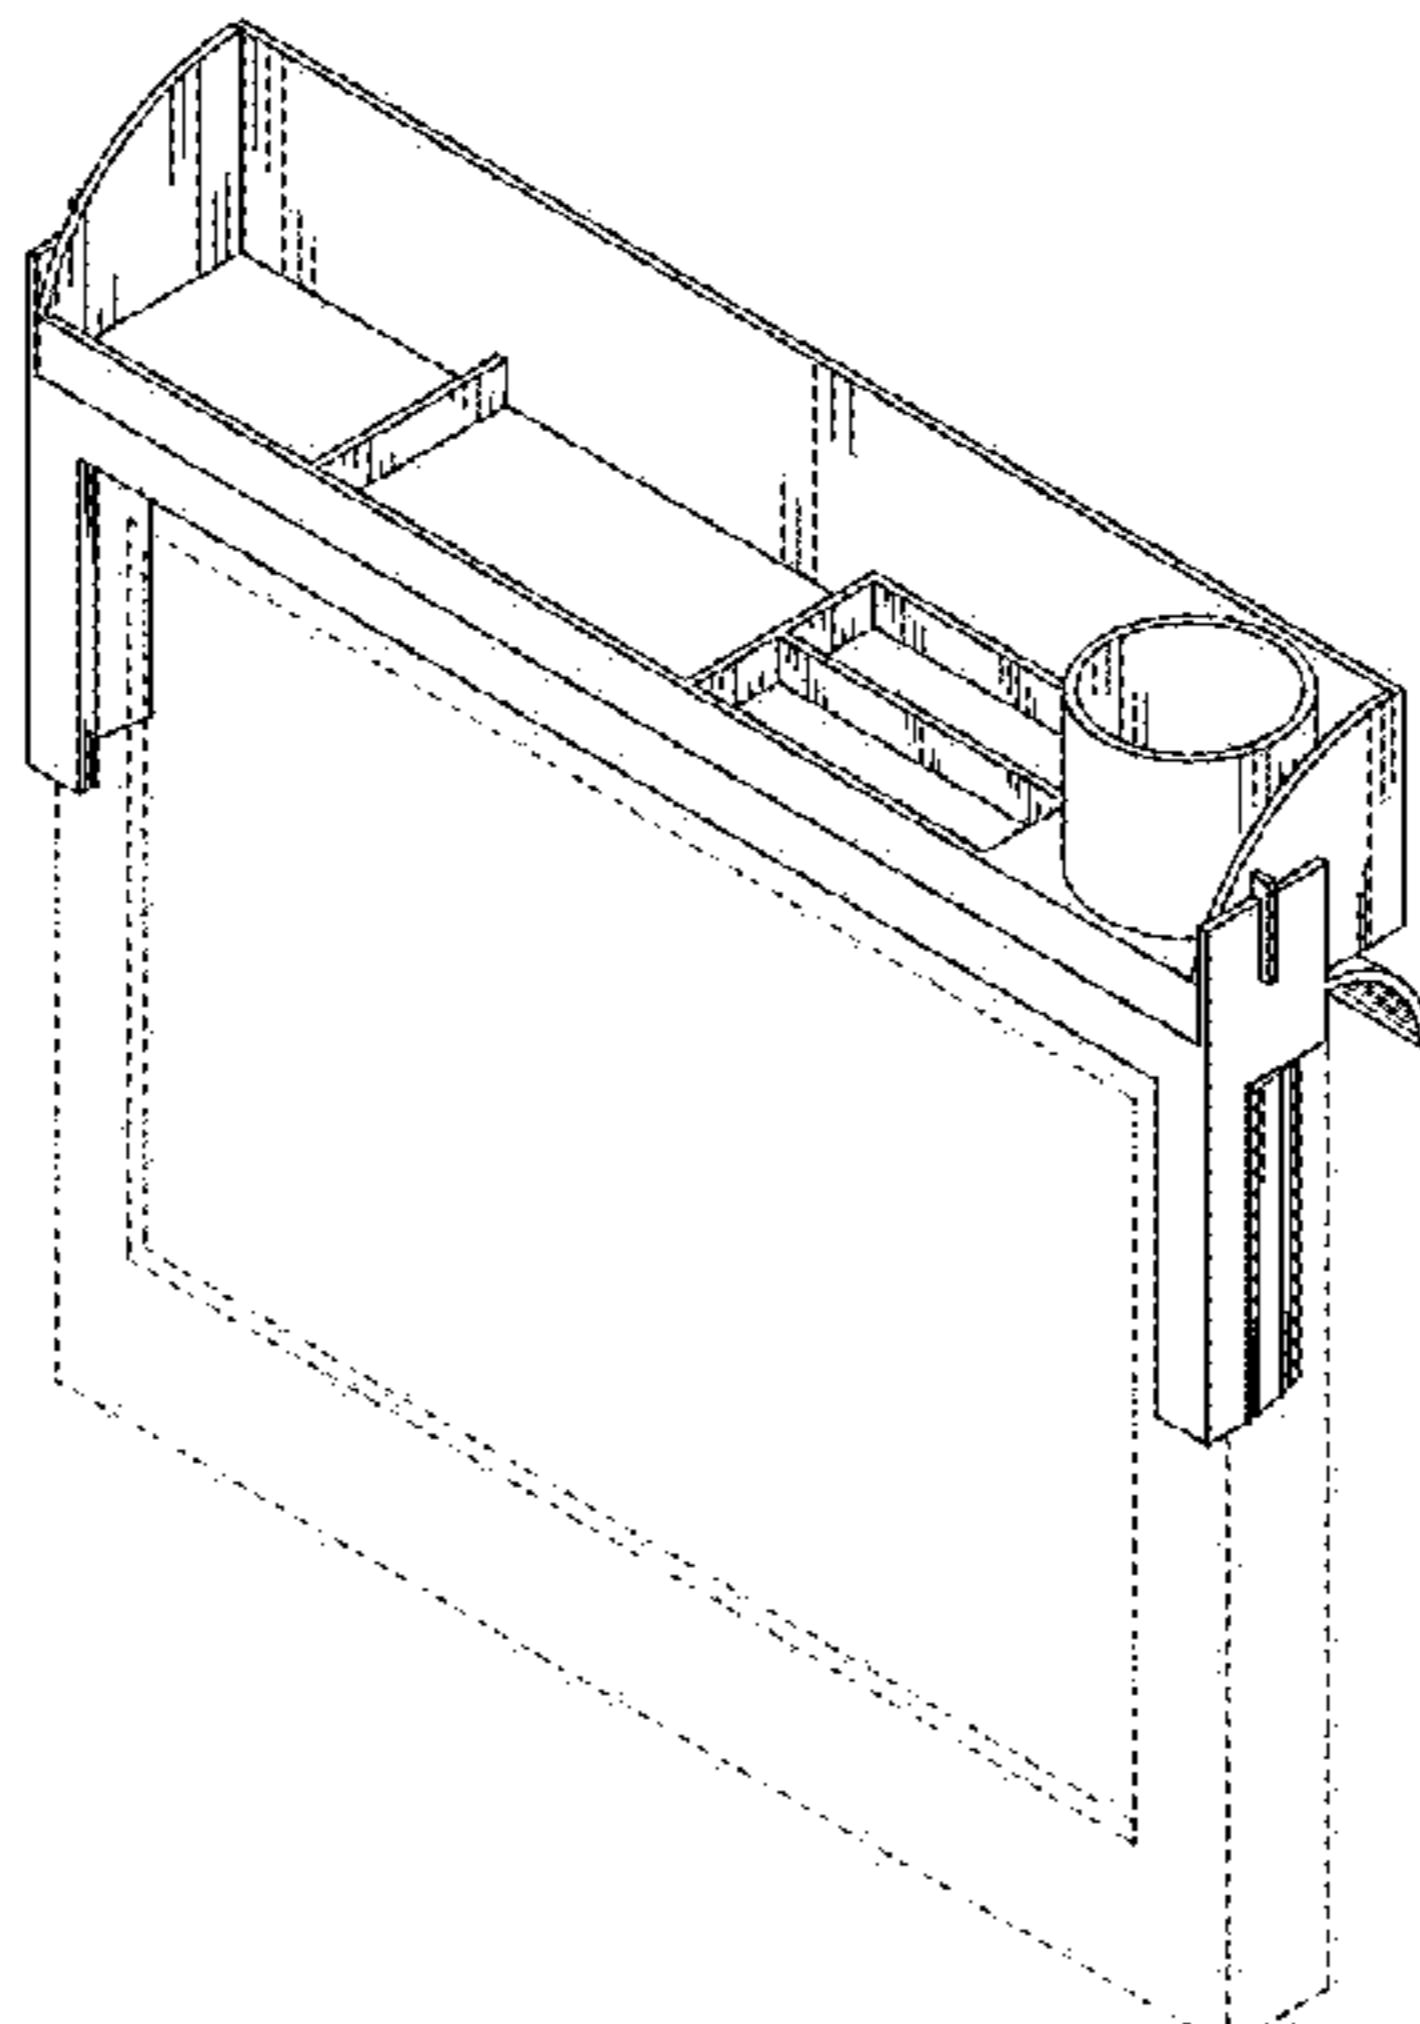

FIG. 8 is a bottom orthogonal view of the supply tray, shown separately for clarity of illustration.

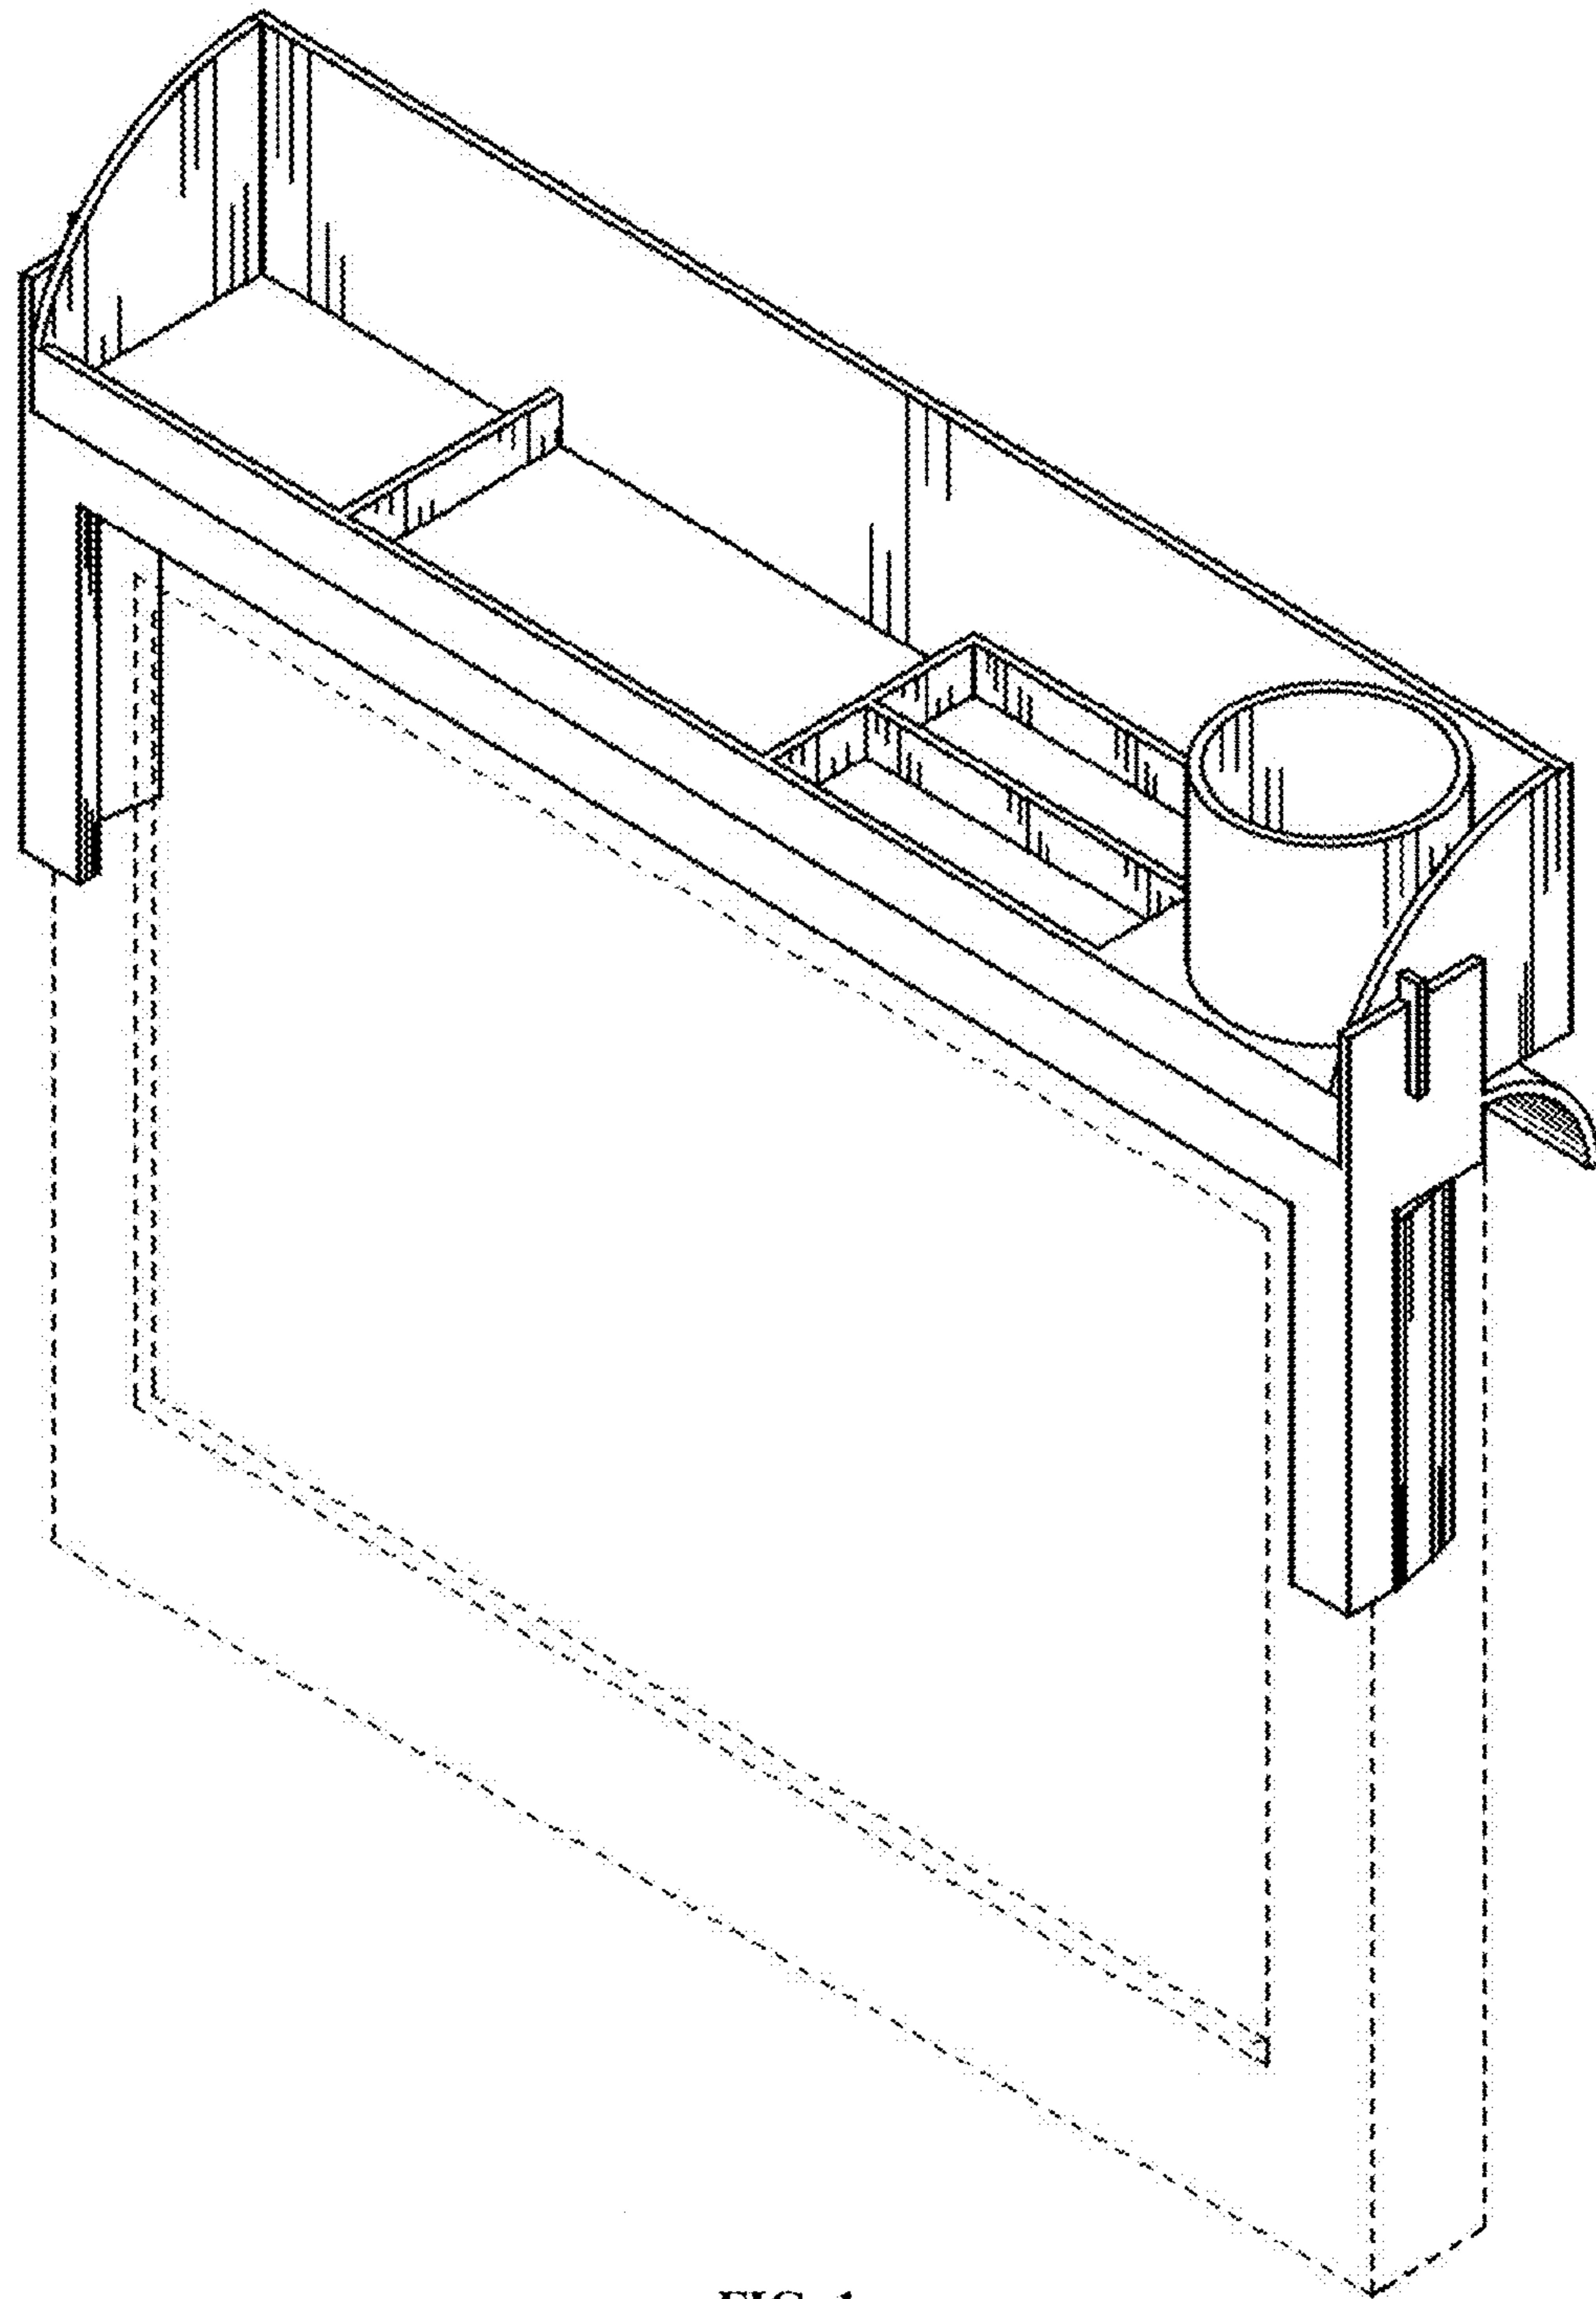

FIG. 9 is a side orthogonal view of the new design for the multi-purpose monitor attachment and supply tray mounted on an electronic device; and,

FIG. 10 is a rear perspective view of the new design for the multi-purpose monitor attachment and supply tray mounted on an electronic device.

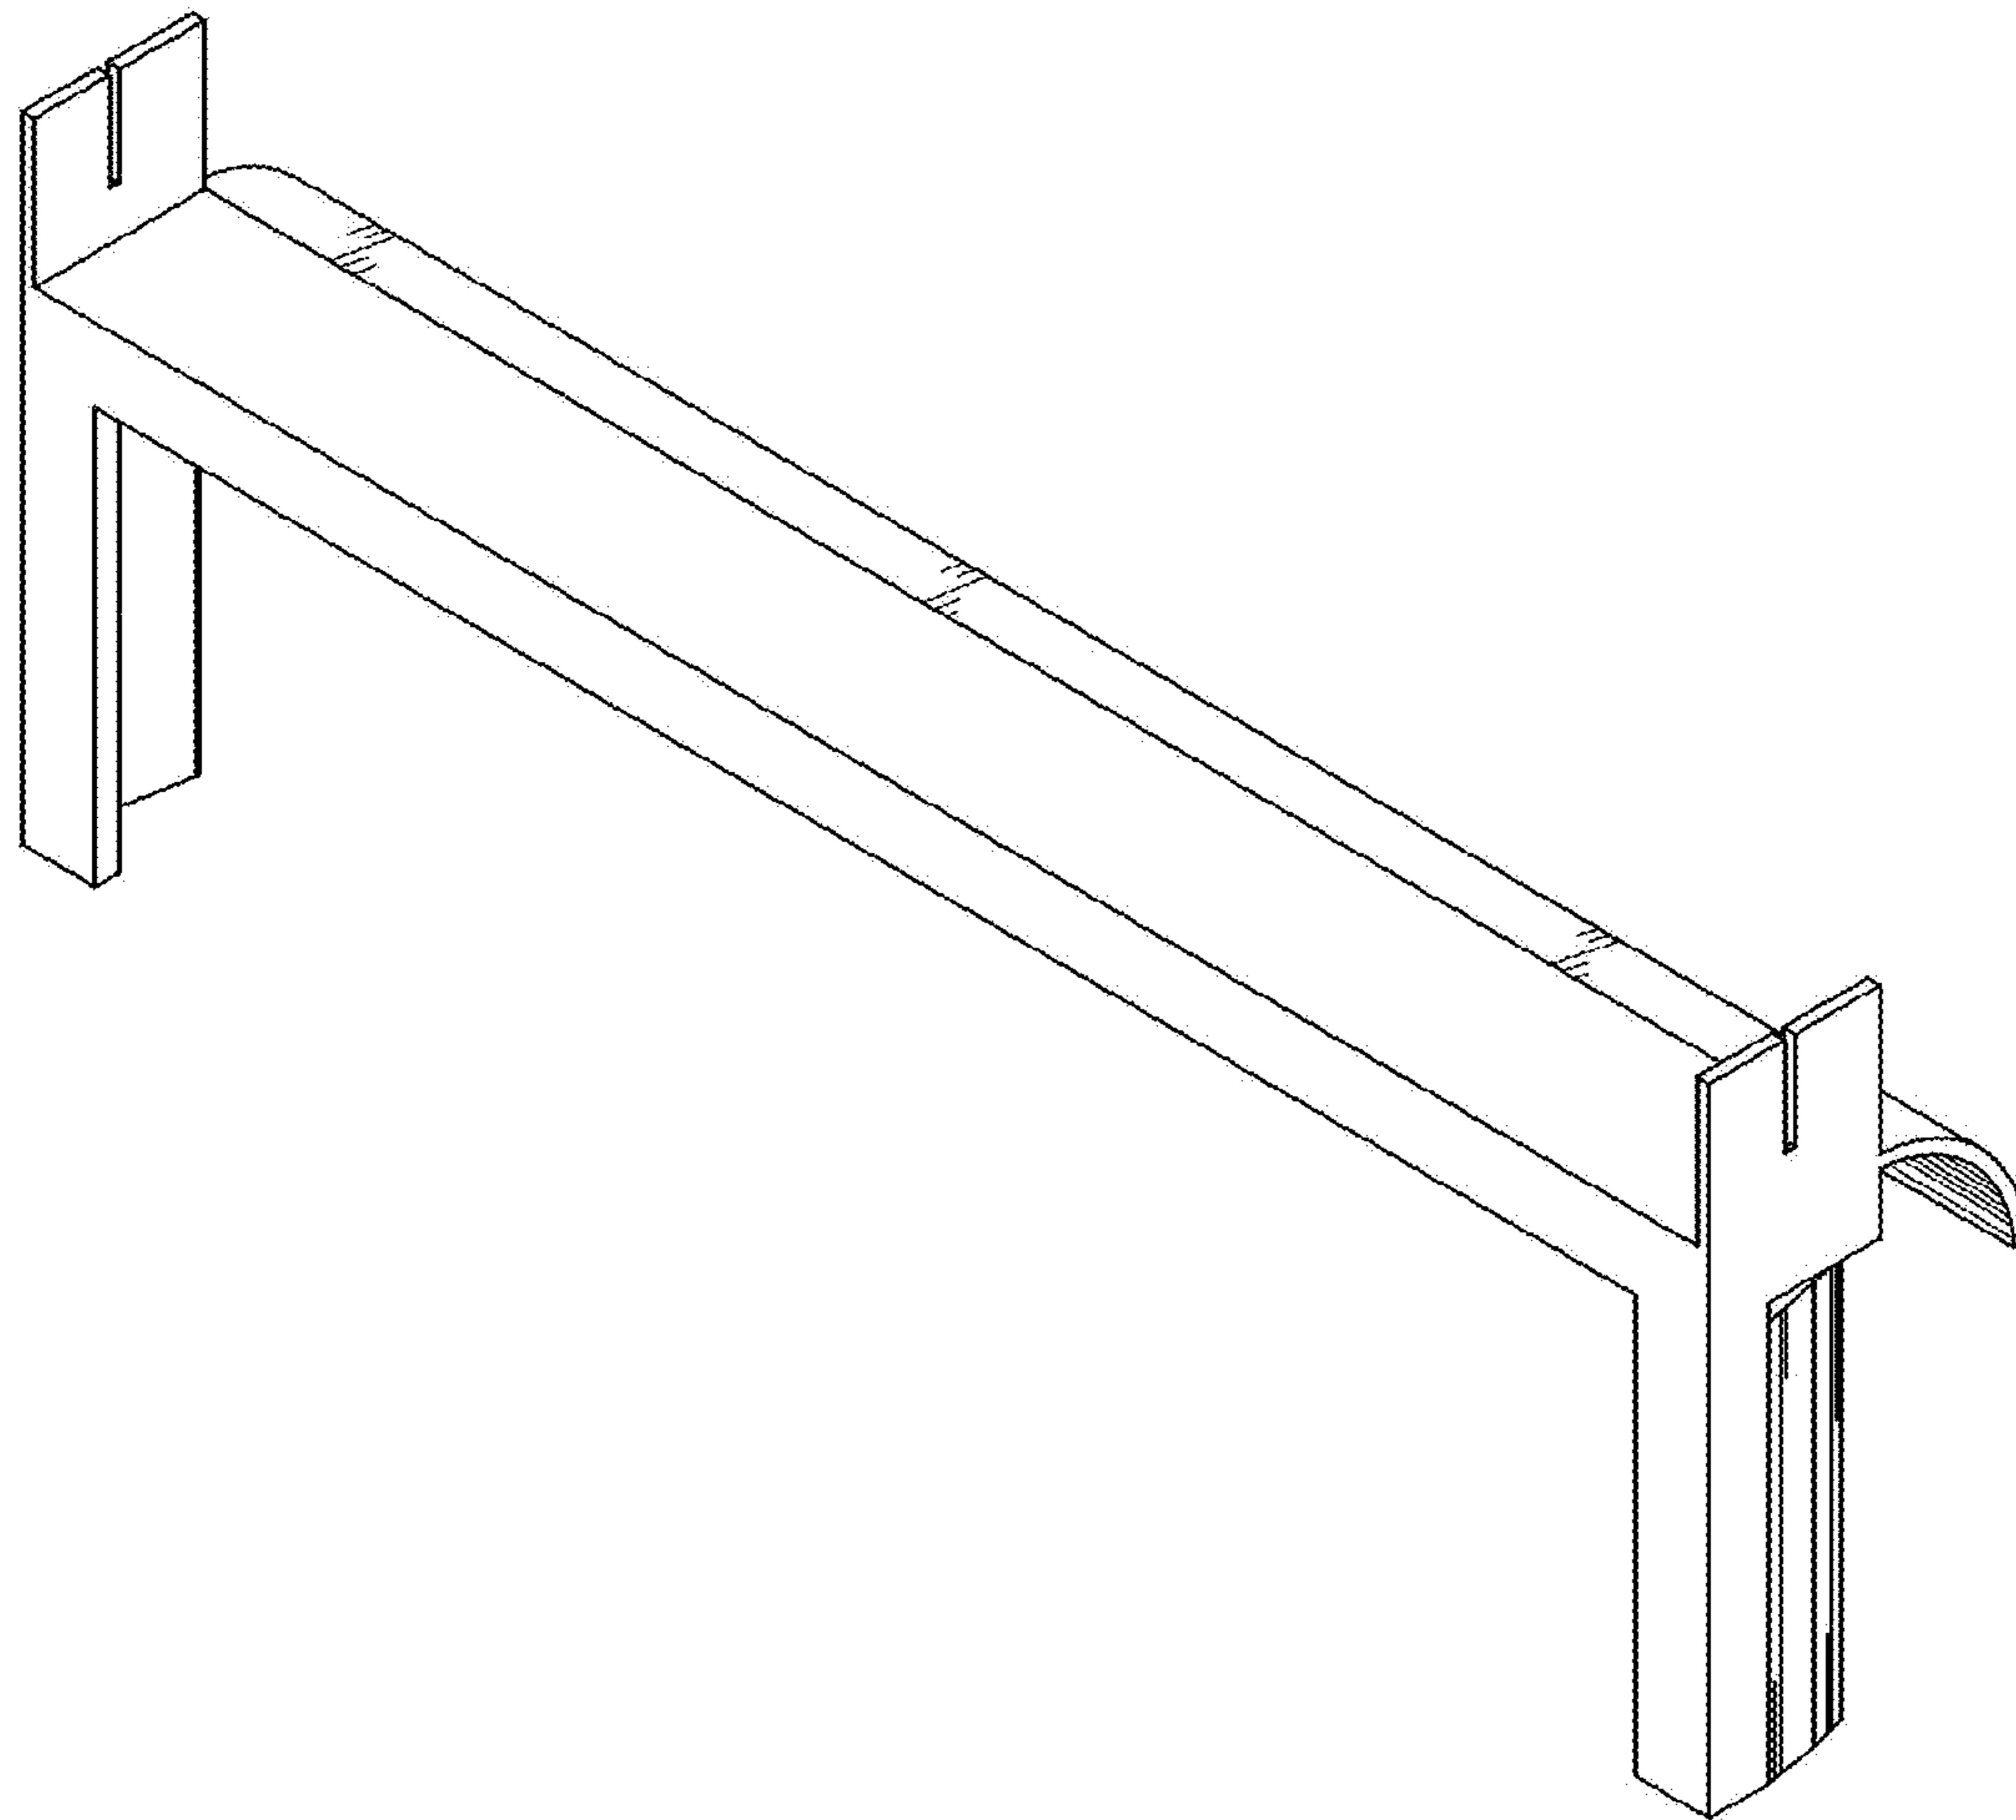

The broken line showing of a monitor is included for the purpose of illustrating environment and forms no part of the claimed design.

The broken line showing of an electronic device is included for the purpose of illustrating environment and forms no part of the claimed design.
