(57) **CLAIM**

The ornamental design for a portion of a shoe upper, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a portion of a shoe upper according to a first representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 2 is a rear elevational view of the portion of a shoe upper according to a first representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 3 is a top plan view of the portion of a shoe upper according to a first representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 4 is a right side elevational view of the portion of a shoe upper according to a first representative embodiment of the present invention, said portion having the illustrated pattern. FIG. 5 is a left side elevational view of the portion of a shoe upper according to a first representative embodiment of the present invention, said portion having the illustrated pattern. FIG. 6 is a front elevational view of a portion of a shoe upper on an unclaimed shoe according to a second representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 7 is a rear elevational view of the portion of a shoe upper according to a second representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 8 is a top plan view of the portion of a shoe upper according to a second representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 9 is a right side elevational view of the portion of a shoe upper (showing the inner side, given that the present example pertains to a left shoe) according to a second representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 10 is a left side elevational view of the portion of a shoe upper (showing the outer side, given that the present example pertains to a left shoe) according to a second representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 11 is a front elevational view of a portion of a shoe upper on an unclaimed shoe according to a third representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 12 is a rear elevational view of the portion of a shoe upper according to a third representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 13 is a top plan view of the portion of a shoe upper according to a third representative embodiment of the present invention, said portion having the illustrated pattern.

FIG. 14 is a right side elevational view of the portion of a shoe upper according to a third representative embodiment of the present invention, said portion having the illustrated pattern; and,

FIG. 15 is a left side elevational view of the portion of a shoe upper according to a third representative embodiment of the present invention, said portion having the illustrated pattern. The portions shown in broken lines are solely for the purpose of illustrating context and form no part of the claimed design.
