(57) **CLAIM**

The ornamental design for the airless dispenser, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the airless dispenser showing our new design with the actuator recessed within the collar, and the collar is aligned with the underlying shoulder and bottle portions;

FIG. 2 is a perspective view showing our design with the collar rotated approximately forty-five (45) degrees relative to FIG. 1, and with the actuator slightly raised from the collar;

FIG. 3 is a perspective view showing our design with the collar rotated approximately forty-five (45) degrees relative to FIG. 2, and with the actuator further raised from the collar;

FIG. 4 is a front view of FIG. 3;

FIG. 5 is a rear view of FIG. 3;

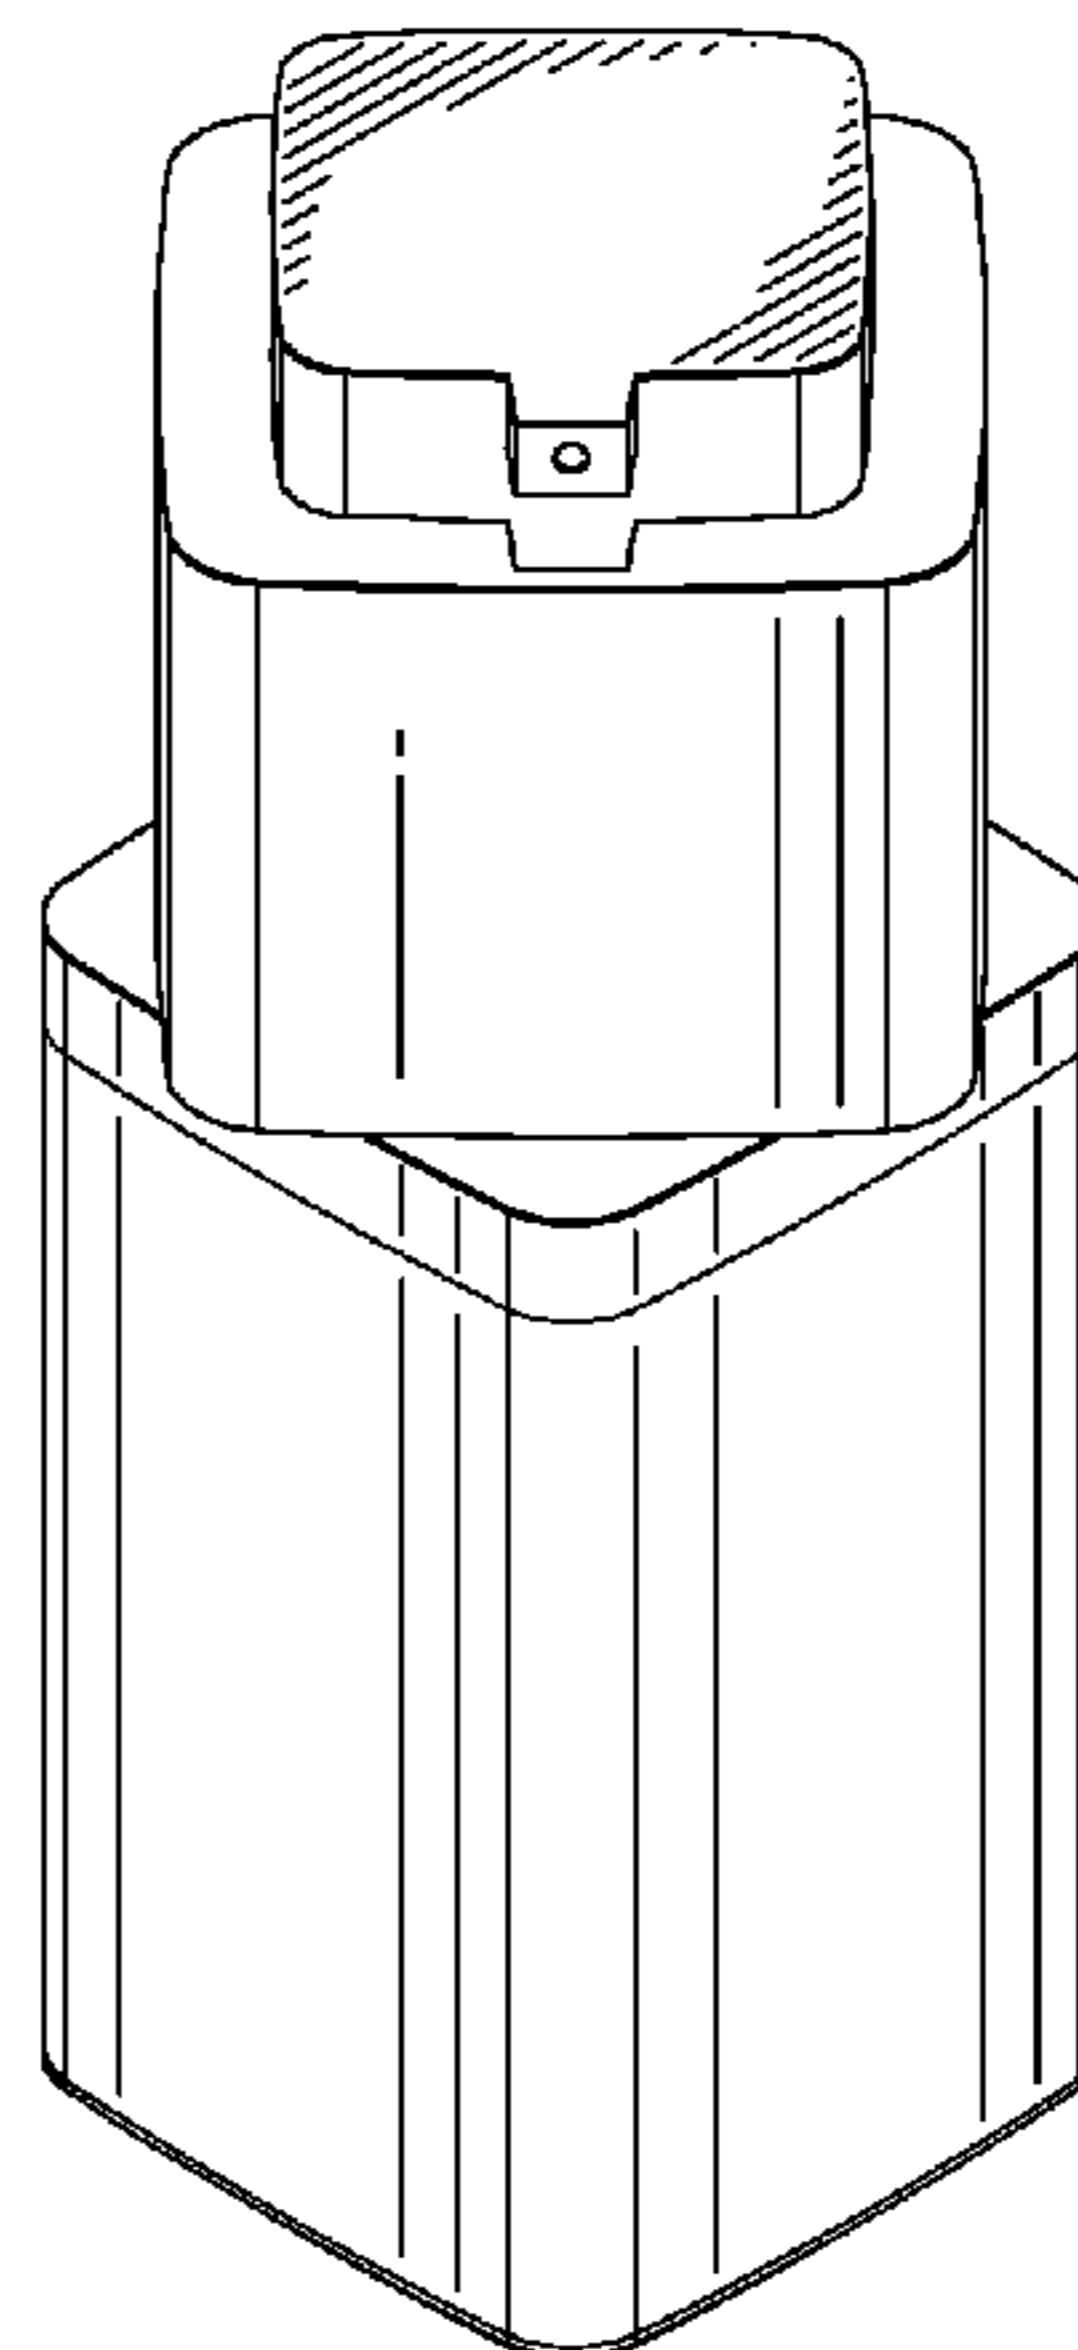

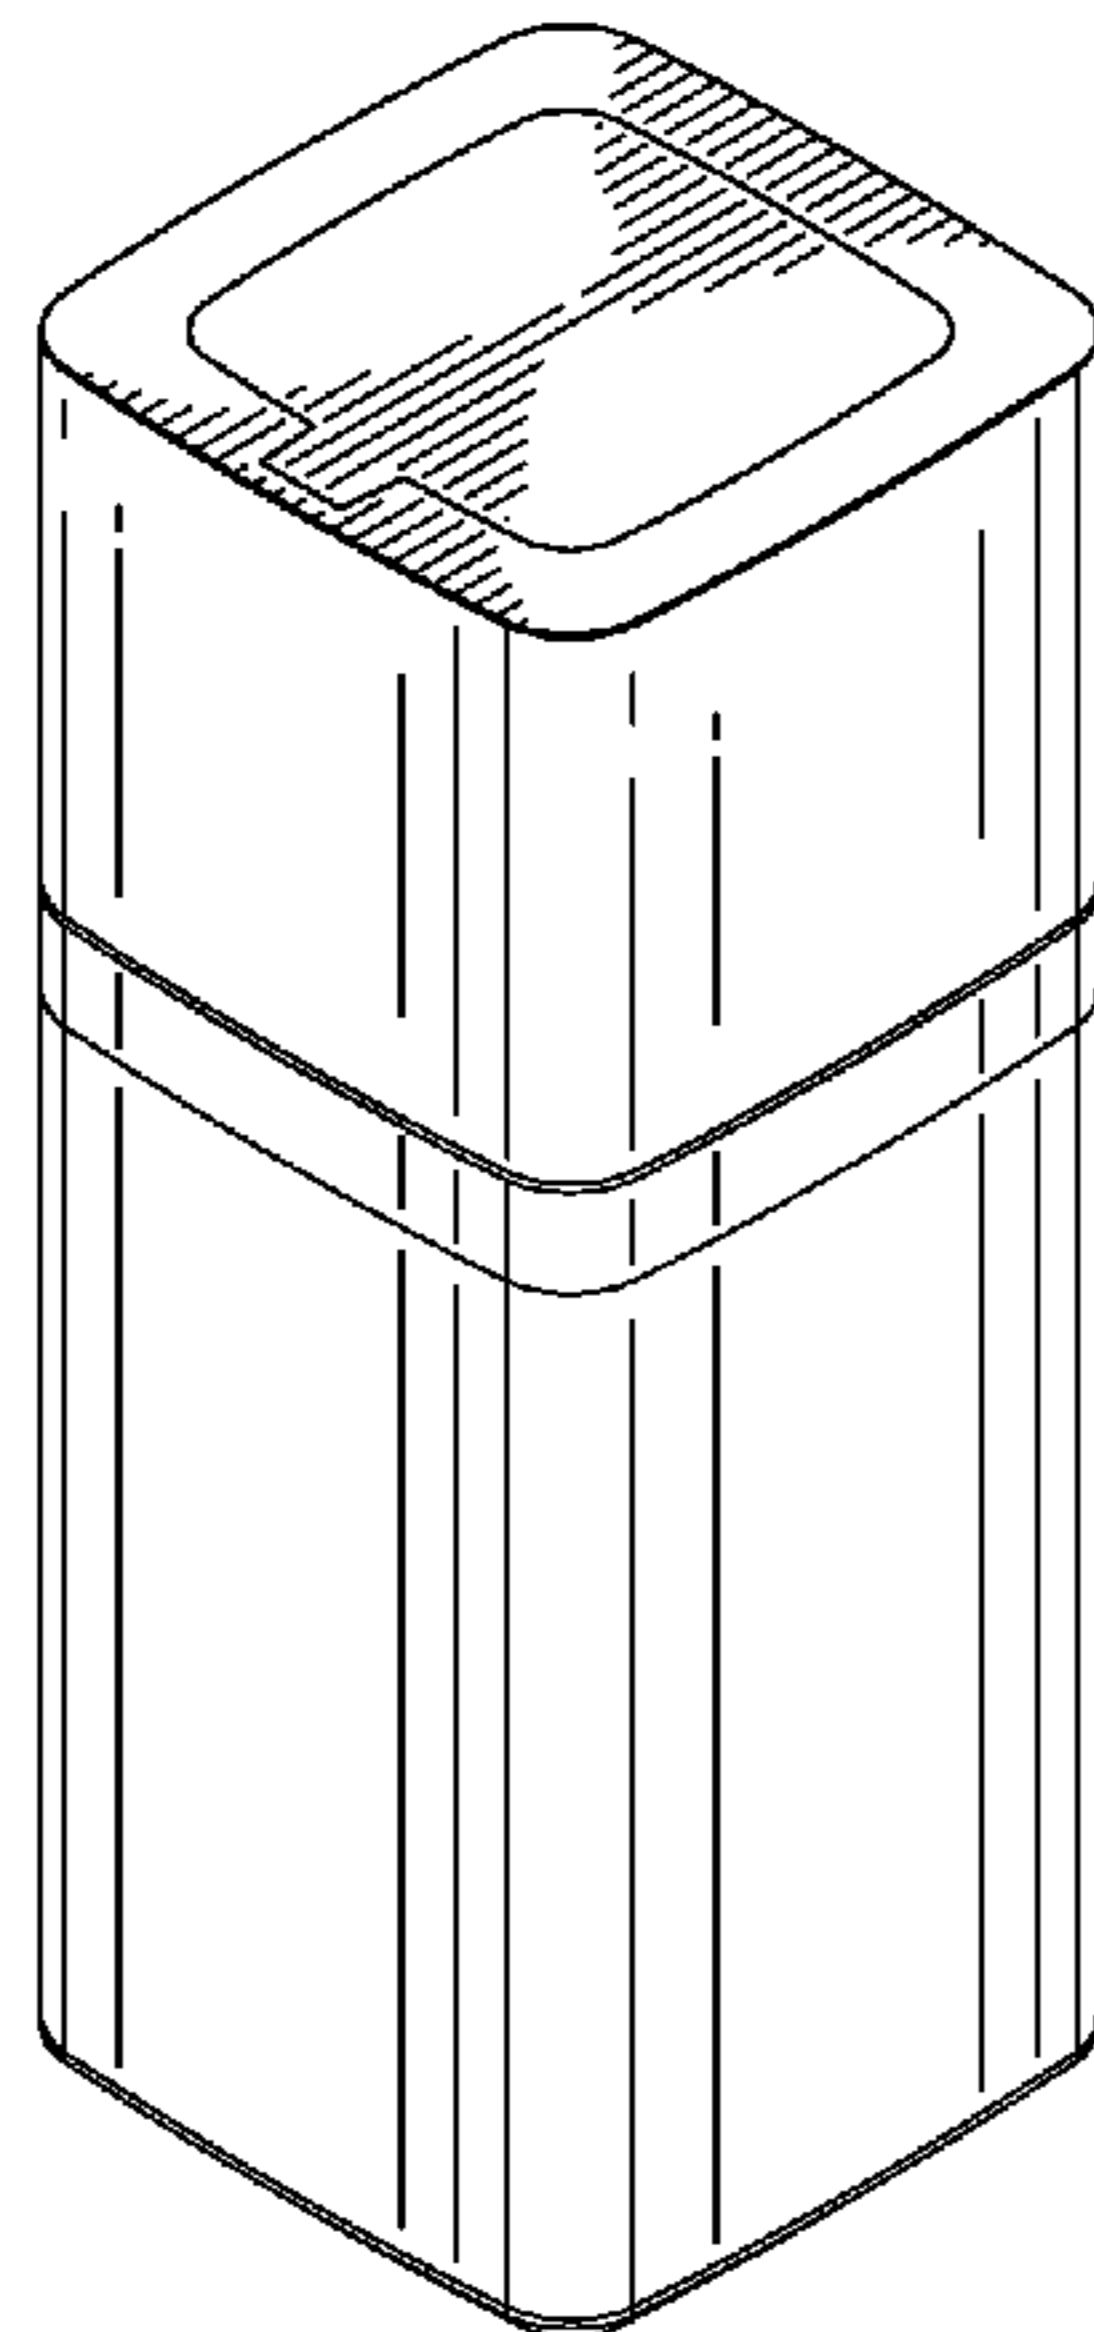

FIG. 6 is a left side view of FIG. 3;

FIG. 7 is a right side view of FIG. 3;

FIG. 8 is a top view of FIGS. 1 and 3; and,

FIG. 9 is a bottom view of FIGS. 1 and 3.
