(57) **CLAIM**

The ornamental design for a hitch-mountable carrier for lacrosse stick, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a hitch-mountable carrier for lacrosse stick showing the new design;

FIG. 2 is a rear perspective view thereof, shown in its hitch-mounted position of use, where features shown in dashed phantom lines of a lacrosse stick inserted therein, a vehicle tailgate with license plate, and a hitch for mounting thereof, are shown for environmental purposes and form no part of the claimed design;

FIG. 3 is a left side elevational view thereof, showing a vertical tubular member and a horizontal tubular member, each said tubular members with end caps;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a front elevational view thereof; and,

FIG. 6 is a top plan view thereof.

In the drawings, surfaces of tubular members are marked with oblique lining to indicate transparency. End caps are stippled to indicate opacity and are not intended to be illustrative of texture or color. The structures depicted by means of dashed phantom lines in the drawings have been shown for informational purposes only and form no part of the claimed design.
