(57) **CLAIM**

The ornamental design for a suction cup apparatus holder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a suction cup apparatus holder; FIG. 2 is a rear view of the suction cup apparatus holder shown in FIG. 1, FIG. 3 is a right side view of the suction cup apparatus holder shown in FIG. 2, FIG. 4 is a front view of the suction cup apparatus holder shown in FIG. 2, FIG. 5 is a left side view of the suction cup apparatus holder shown in FIG. 2, FIG. 6 is a top view of the suction cup apparatus holder shown in FIG. 2; and, FIG. 7 is a bottom view of the suction cup apparatus holder shown in FIG. 2.

The suction cup apparatus holder is used for supporting an apparatus holder on a flat smooth surface for holding an adapter engaging an apparatus such as a cellular phone or a GPS for example, or an apparatus directly if it is designed to be directly engaged by the retaining structure on the apparatus holders support surface.
