(57) **CLAIM**

The ornamental design for a lunch purse, as shown and described.

DESCRIPTION

FIG. **1** is a top, front, right side perspective view of a lunch purse showing my new design;
FIG. **2** is a front elevation view thereof;
FIG. **3** is a rear elevation view thereof;
FIG. **4** is a left side elevation view thereof;
FIG. **5** is a right side elevation view thereof;
FIG. **6** is a top plan view thereof;
FIG. **7** is a bottom plan view thereof; and,
FIG. **8** is a top, front, right side exploded view thereof, showing the unclaimed ice pack, water bottle and drawstring sack.

The broken lines in the drawings showing the interior elements of the lunch purse illustrate the portions of the design that form no part of the claim. The broken lines applied to the handle strap of the lunch purse in FIGS. **1-4**, **6** & **8** have been applied at a break in the structure to indicate indeterminate length, with the understanding that the "indeterminate length" portion of the article not shown forms no part of the claim design. Patentability is based only on those portions of the article that are present in the drawings and shown in solid lines.
