(57) **CLAIM**

The ornamental design for a pair of open-toe dance socks with foot pads, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the right sock of a pair of open-toe dance socks with foot pads showing my design while worn;

FIG. 2 is a bottom plan view thereof;

FIG. 3 is a top plan view shown lying flat;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a bottom view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a toe end elevational view thereof; and,

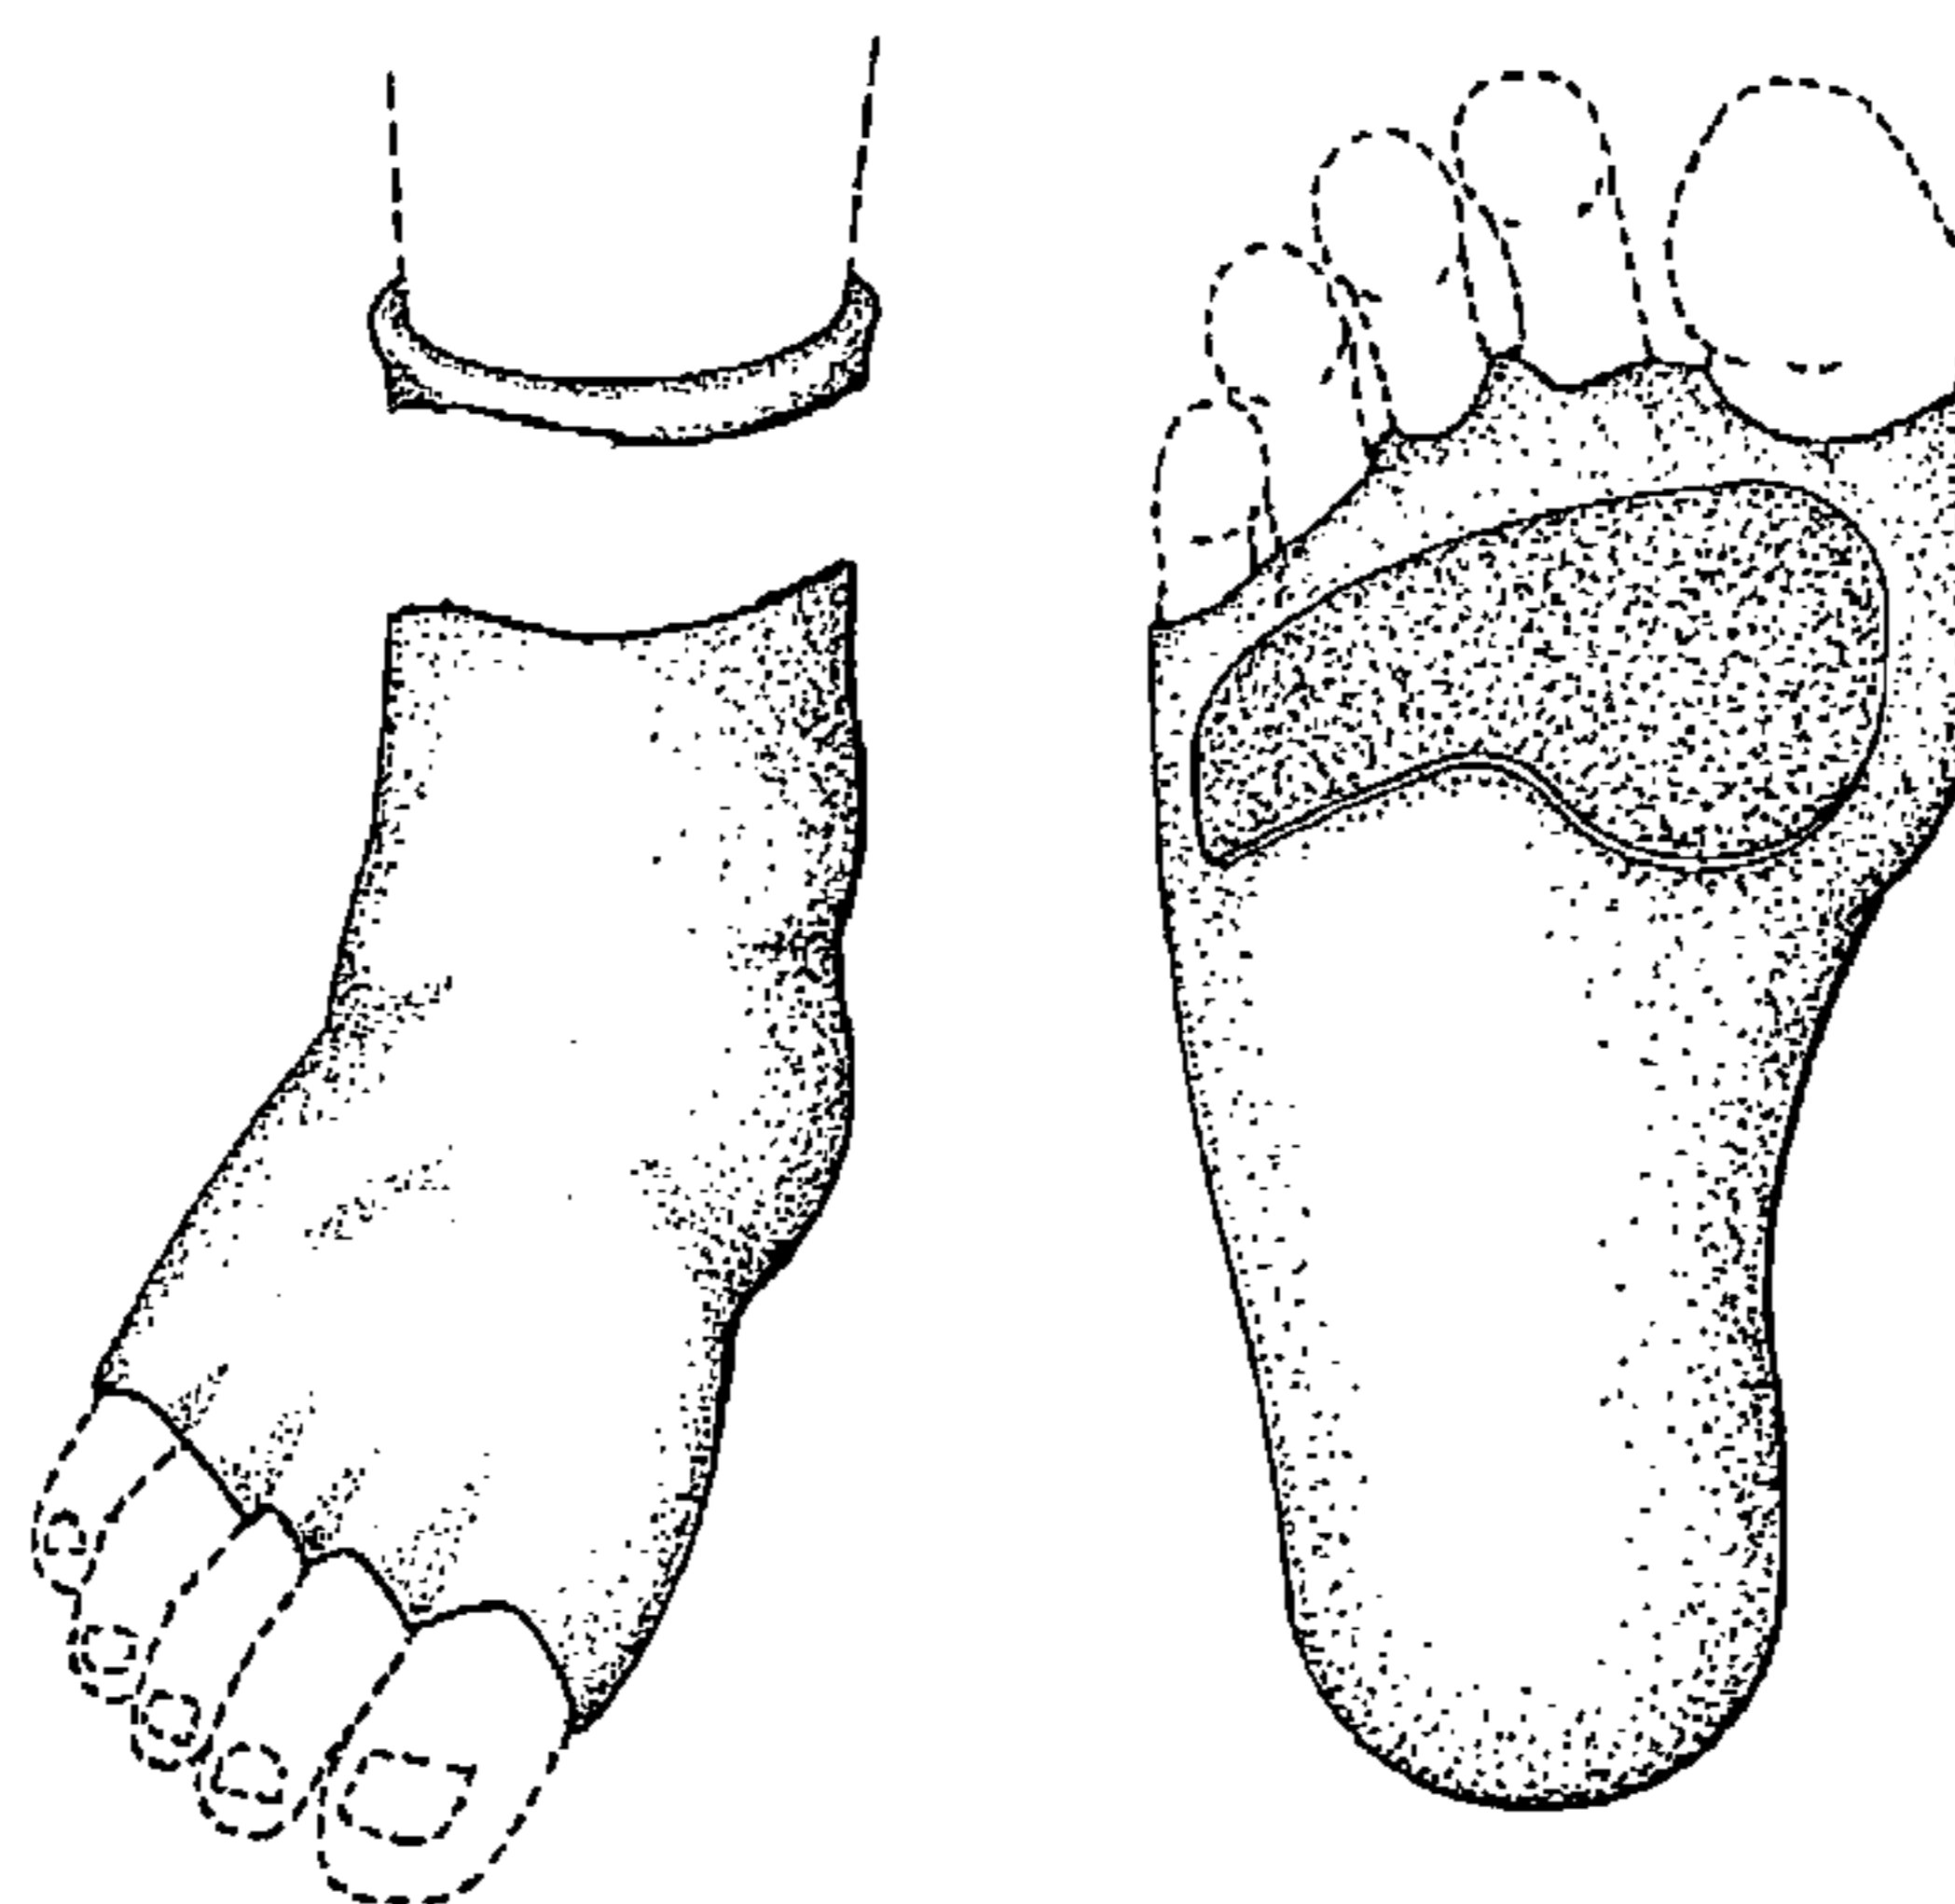

FIG. 8 is an opening end elevational view thereof.

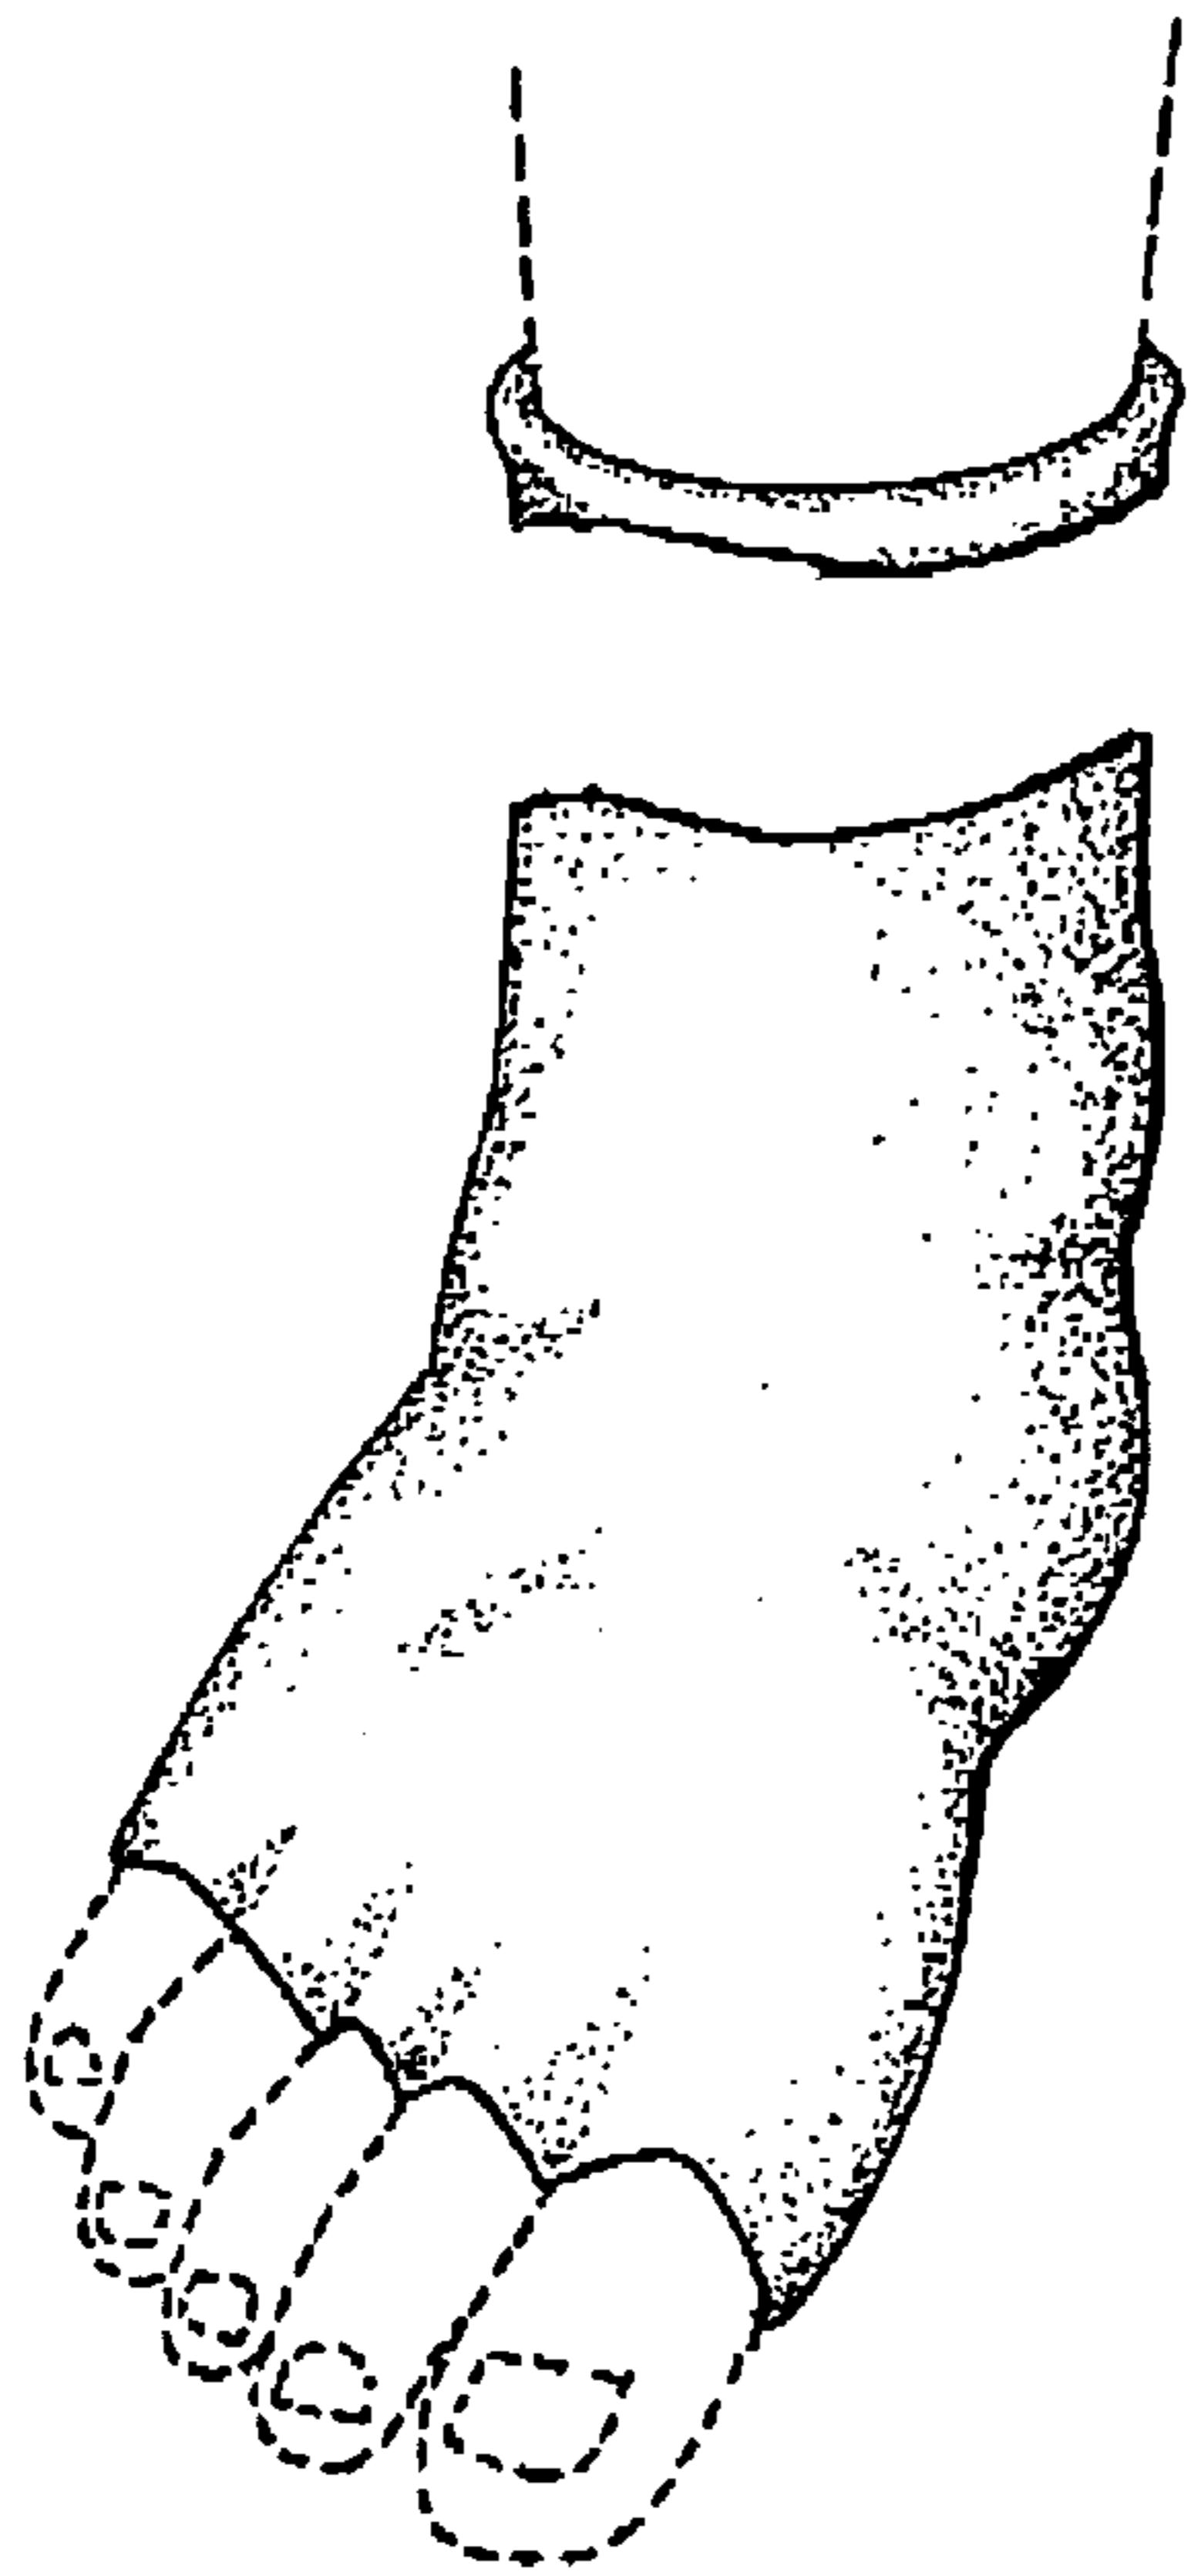

It is understood that the broken line showing of a leg and toes in FIGS. 1 and 2 is included for the purpose of showing environmental structure that forms no part of the claimed design.

Additionally, it is understood that the pair of open-toe dance socks with foot pads is shown broken in order to indicate that this portion of the sock has no specific length.

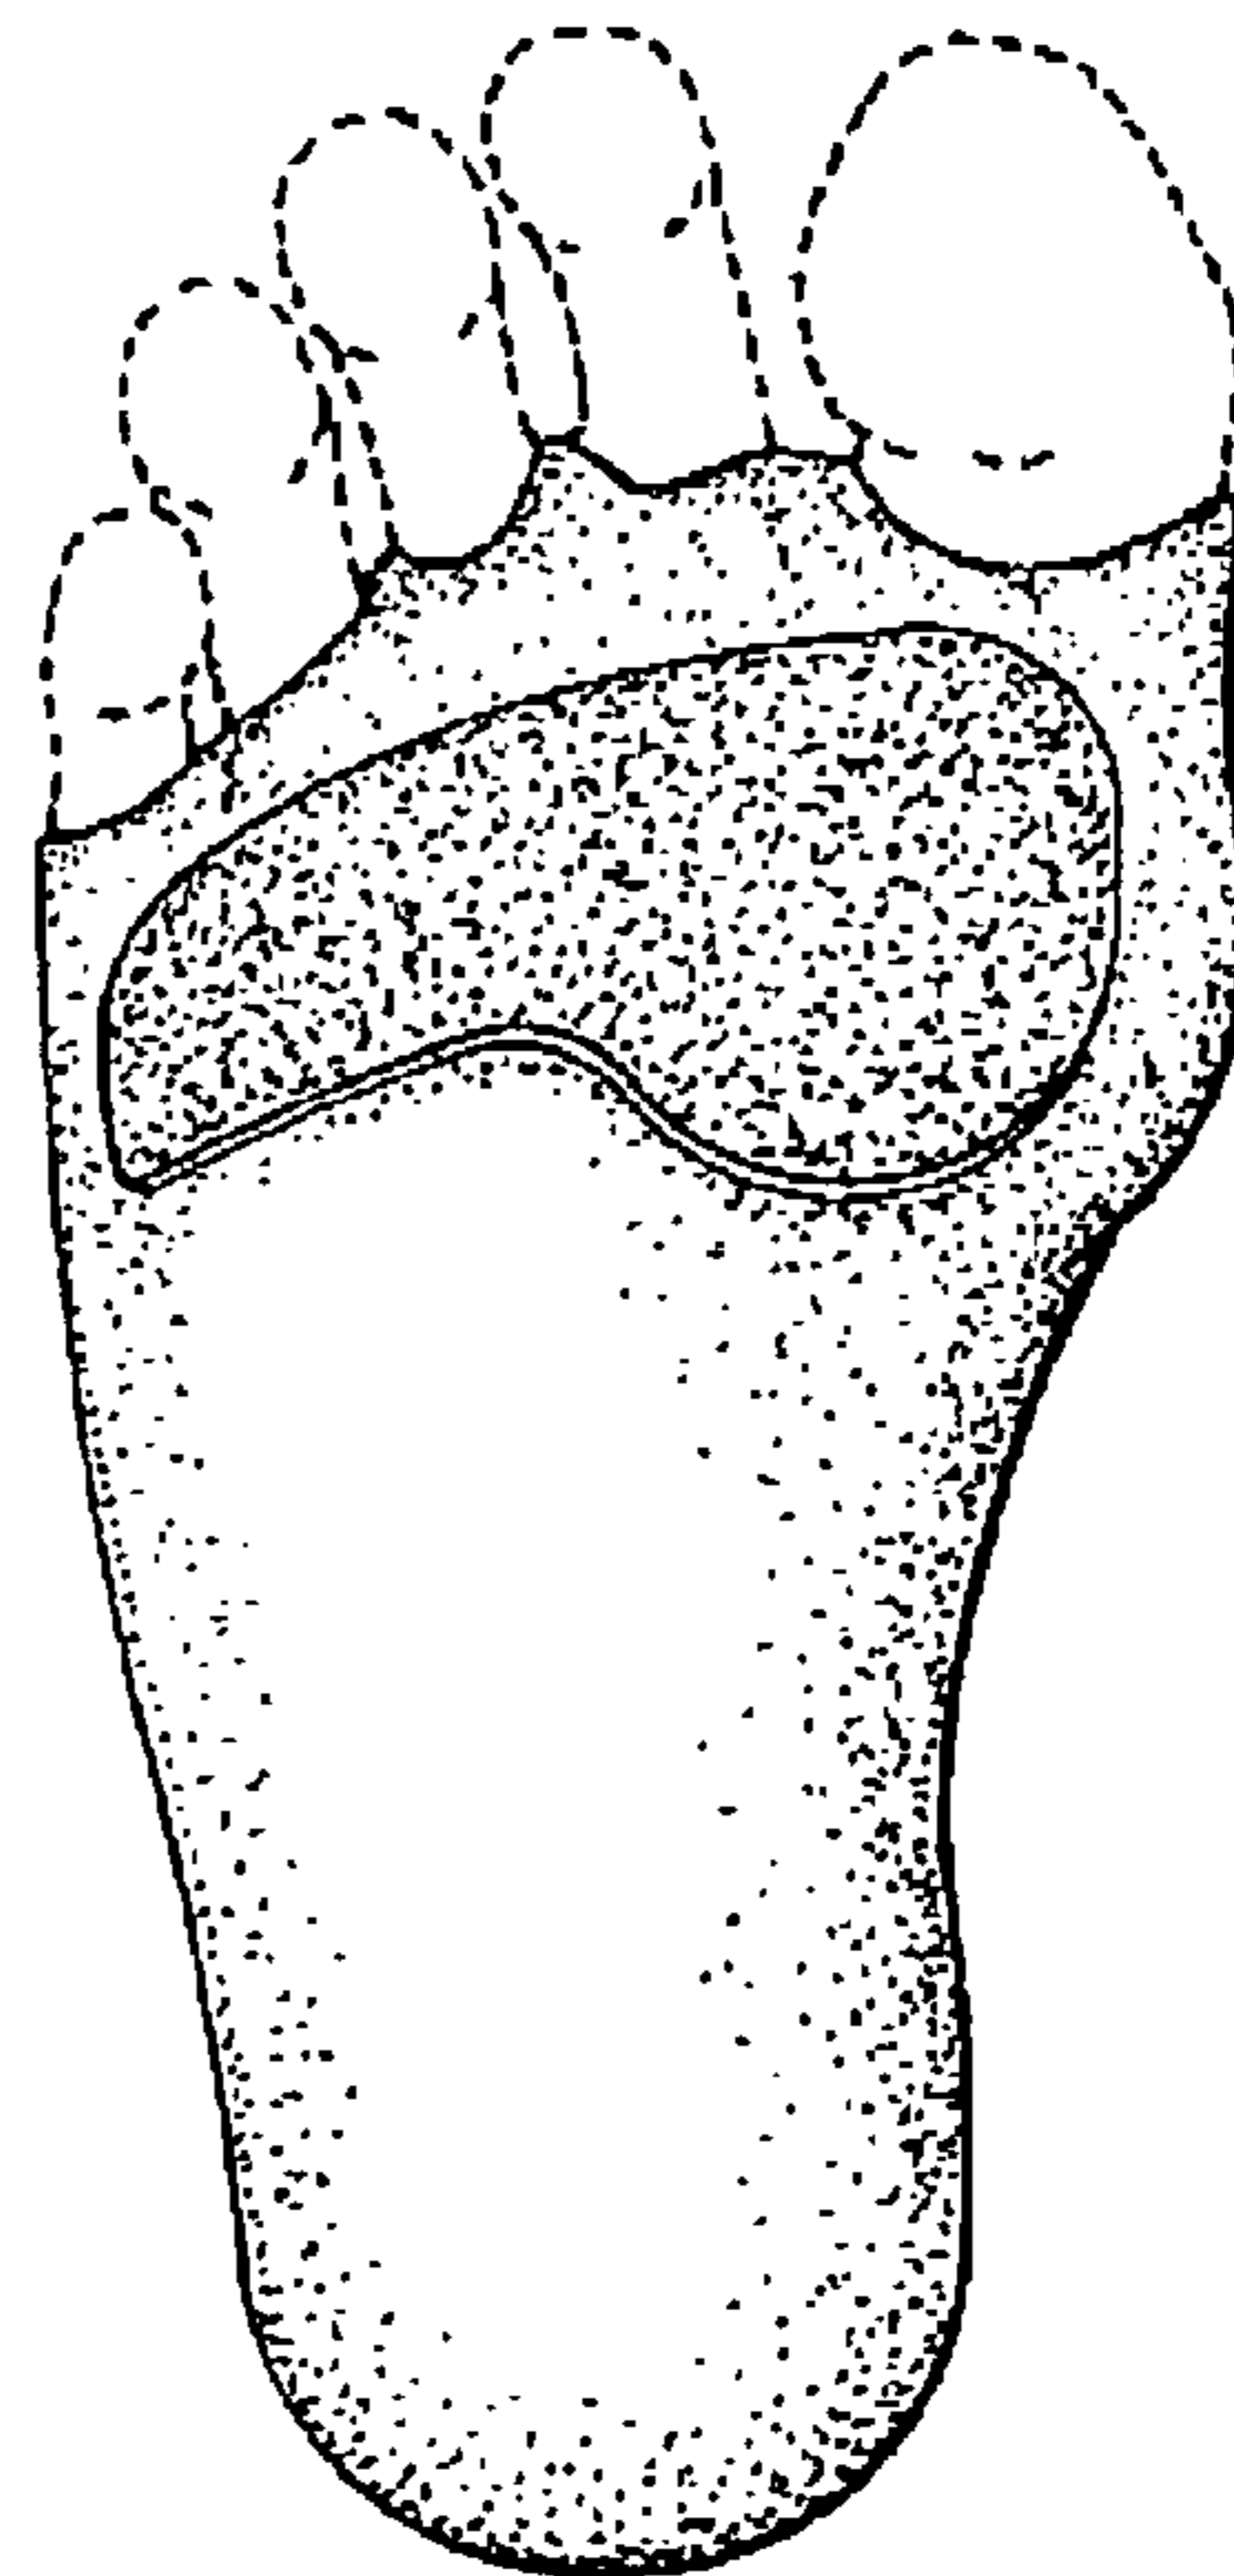

While only a right foot sock has been illustrated, it is understood that the left foot sock is the mirror image of FIGS. 1-8 and that a pair of such socks is part of the claimed design.
