(57) **CLAIM**

The ornamental design for a display screen portion with an animated image, as shown and described.

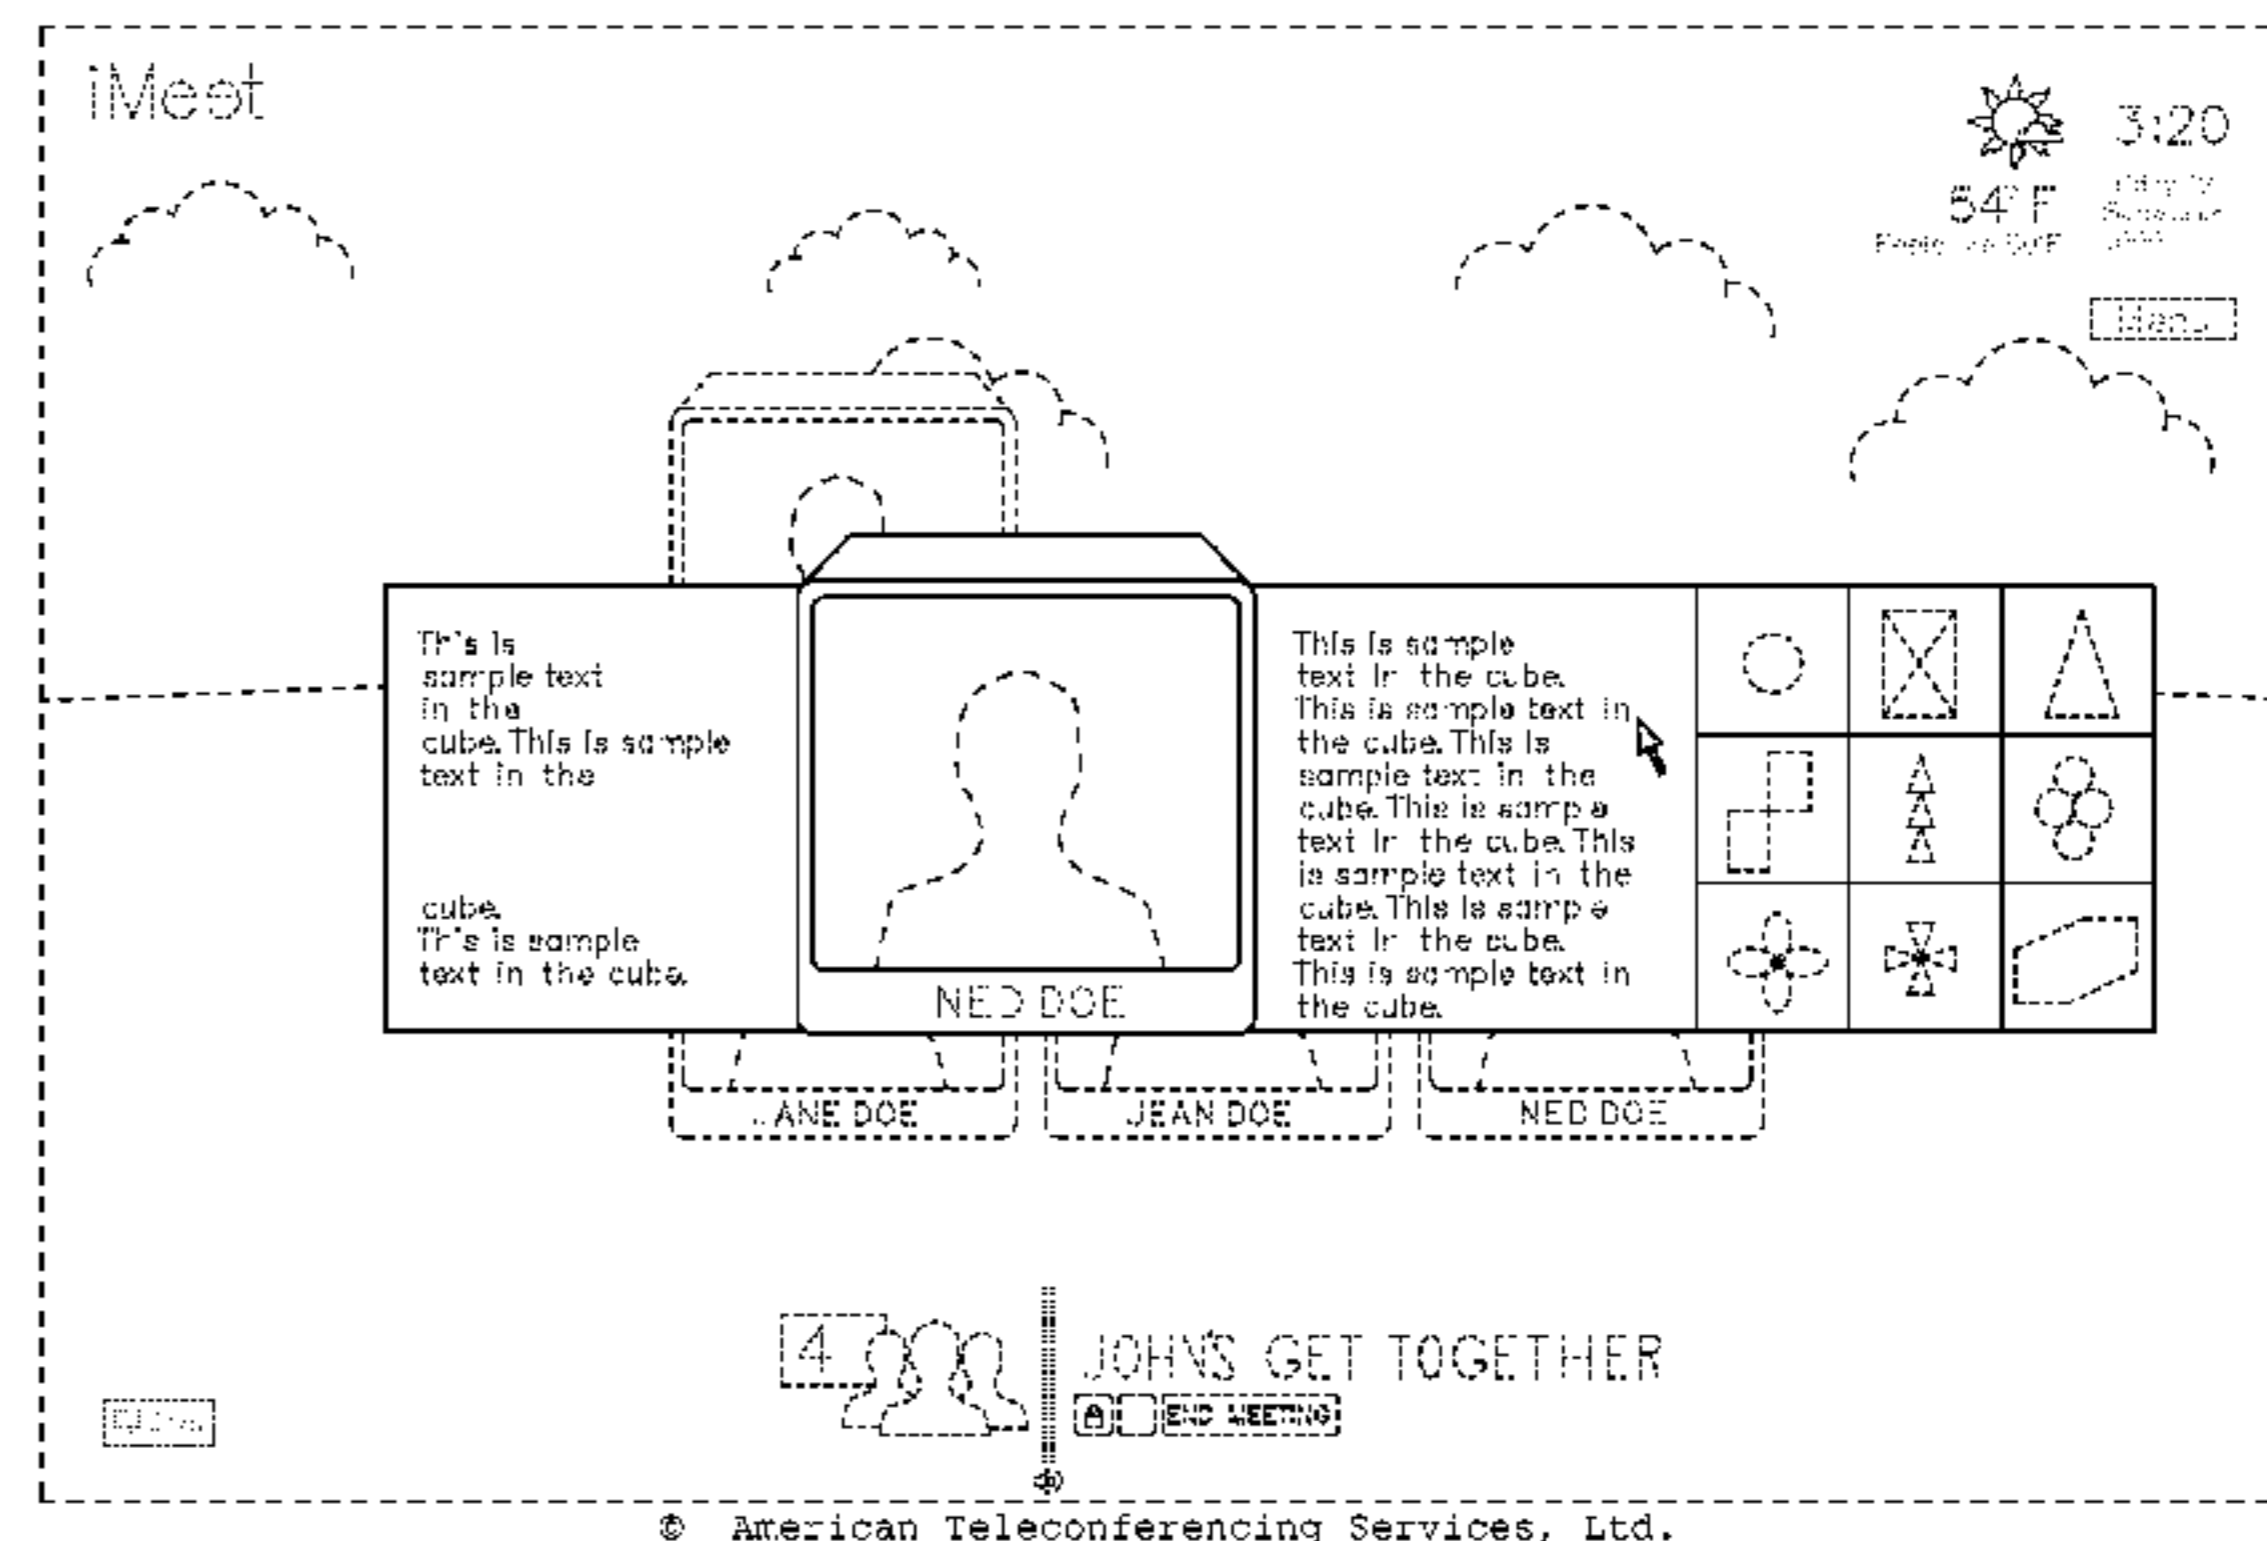

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a first image in the sequence for a display screen portion with an animated image showing our new design; FIG. 2 is the second image thereof; FIG. 3 is the third image thereof; and, FIG. 4 is the fourth image thereof.

The claimed design is an integral and active component in the operation of a computer-programmed device displaying the design. The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of the display screen and the broken line showing of the portions of the user interface are included for the purpose of illustrating unclaimed environment and form no part of the claimed design.
