(57) **CLAIM**

The ornamental design for an angle measuring tool, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of an angle measuring tool showing my new design;  
 FIG. 2 is an exploded top perspective view thereof;  
 FIG. 3 is a top plan view of the lower arm;  
 FIG. 4 is a right side elevational view of the lower arm thereof; the left side being a mirror image;  
 FIG. 5 is front end elevational view of the lower arm thereof; and,  
 FIG. 6 is a rear end elevational view of the lower arm thereof. FIGS. 1-4 are broken away to indicate indeterminate length. The broken line showing of the transparent upper arm of the angle measuring tool and the pivot knob for holding the upper and lower arms of the angle measuring tool together in FIGS. 1-3 is for illustrative purposes only and forms no part of the claimed design. The annular shaded area shown in FIGS. 1-3 is an annual contrasting area on the lower arm of the angle measuring tool, which can be opaque, semi-transparent or transparent and which can be of any color or no color.
