(57) **CLAIM**

The ornamental design for a modular forend system for fire-
arms, as shown and described.

DESCRIPTION

FIG. 1 illustrates a perspective, side view of a new design for
a modular forend system for rifles;

FIG. 2 illustrates a right side view of a new design for a
modular forend system for rifles;

FIG. 3 illustrates a left side view of a new design for a modular
forend system for rifles;

FIG. 4 illustrates a rear view of a new design for a modular
forend system for rifles;

FIG. 5 illustrates a front view of a new design for a modular
forend system for rifles;

FIG. 6 illustrates a bottom view of a new design for a modular
forend system for rifles;

FIG. 7 illustrates a top view of a new design for a modular
forend system for rifles;

FIG. 8 illustrates another right side view of a new design for
a modular forend system for rifles; and,

FIG. 9 illustrates another bottom view of a new design for a
modular forend system for rifles.

The broken, dashed lines shown in the various figures depict-
ing embodiments of the invention are included for the pur-
pose of illustrating environment and do not form any part of
the claimed design.
