(57) **CLAIM**

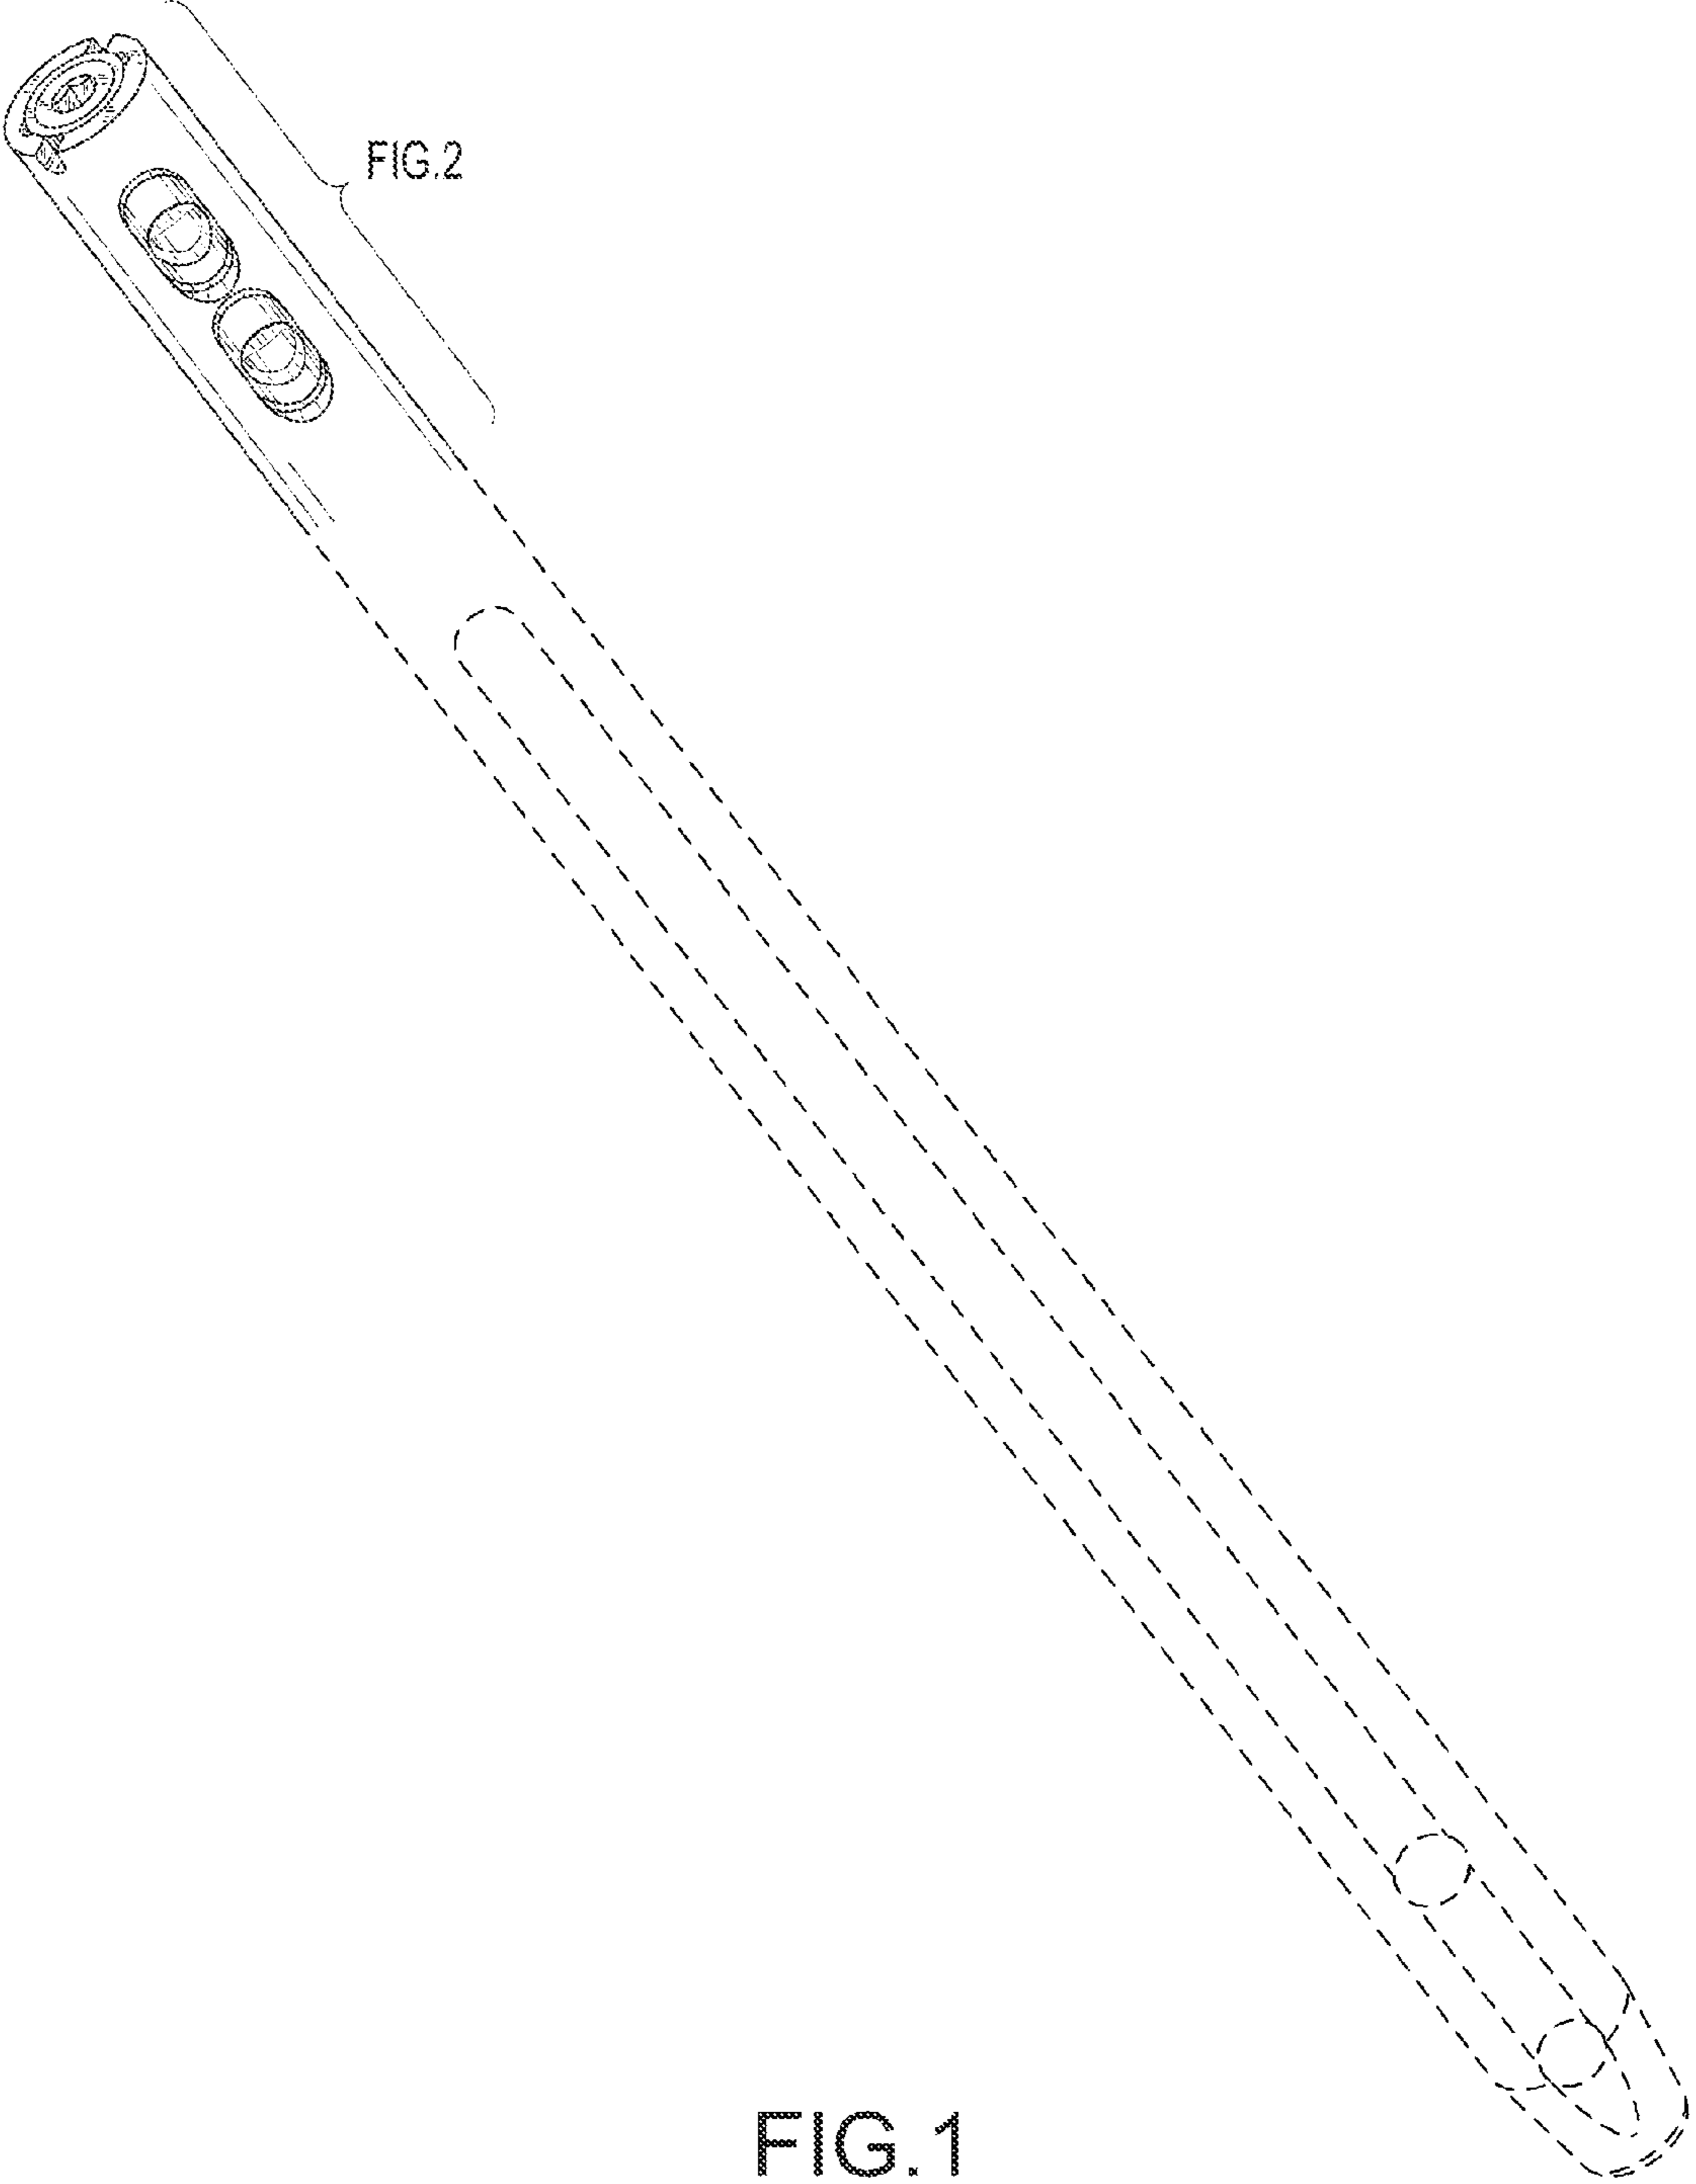

The ornamental design for an intramedullary medical device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a new design for an intramedullary medical device;
FIG. 2 is an enlarged fragmentary perspective view of the proximal region thereof taken from "FIG. 2" in FIG. 1;
FIG. 3 is a front side view thereof, the rear side view thereof being identical in appearance;
FIG. 4 is a right side view thereof, the left side view thereof being identical in appearance;
FIG. 5 is an enlarged bottom view thereof; and,
FIG. 6 is an enlarged top view thereof.
The broken line showing portion of the intramedullary medical device is included for illustrating environmental structure and forms no part of the claimed design.
