(57) **CLAIM**

The ornamental design for multi-prong fluidic connector, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, left side perspective view of a multi-prong fluidic connector;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a right side elevational view thereof, the left side view being a mirror image;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a top, front, left side perspective view of the male connector of the multi-prong fluidic connector, shown separately for clarity of illustration;

FIG. 8 is a front elevational view of FIG. 7;

FIG. 9 is a rear elevational view of FIG. 7;

FIG. 10 is a right side elevational view of FIG. 7, the left side view being a mirror image;

FIG. 11 is a top plan view of FIG. 7;

FIG. 12 is a bottom plan view of FIG. 7;

FIG. 13 is a top, front, left side perspective view of the female connector of the multi-prong fluidic connector, shown separately for clarity of illustration;

FIG. 14 is a front elevational view of FIG. 13;

FIG. 15 is a rear elevational view of FIG. 13;

FIG. 16 is a right side elevational view of FIG. 13, the left side view being a mirror image;

FIG. 17 is a top plan view of FIG. 13; and,

FIG. 18 is a bottom plan view of FIG. 13.

The broken line showing on the drawing disclosure is for illustrative purposes only and forms no part of the claimed design.
