(57) **CLAIM**

The ornamental design for a display for a tire gauge, as shown and described.

DESCRIPTION

FIG. 1 is a top view of a display for a tire gauge showing our new design, according to an embodiment of the invention; FIG. 2 is a top view of a display for a tire gauge showing our new design, according to another embodiment of the invention; FIG. 3 is a top view of a display for a tire gauge showing our new design, according to another embodiment of the invention; FIG. 4 is a top view of a display for a tire gauge showing our new design, according to another embodiment of the invention; FIG. 5 is a top view of a tire gauge showing our new design, according to another embodiment of the invention; FIG. 6 is a top view of a tire gauge showing our new design, according to another embodiment of the invention; and, FIG. 7 is a top view of a tire gauge showing our new design, according to another embodiment of the invention.

The characteristic feature of the design according to each embodiment of the present invention includes a display screen having a plurality of indicators, for example, a generally linear arrangement of lights.

The matter shown in dashed lines is environmental structure and forms no part of the claimed design.
