(57) **CLAIM**

The ornamental design for a multi-band antenna, as shown and described.

DESCRIPTION

The FIGURE is a front elevation view of a multi-band antenna showing our new design. All elements of the design are flat and coplanar with each other. The design is so thin that it is barely discernible in top, bottom and side views. The contiguous shaded area is the only area that is claimed. The broken line portion of the figure is included to show unclaimed subject matter only and forms no part of the claimed design.

1 Claim, 1 Drawing Sheet
