(57) **CLAIM**

The ornamental design for an impression tray orientation device, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an impression tray orientation device showing my new design, it being understood that the bottom plan view is a mirror image;

FIG. 2 is a front view thereof, it being understood the rear view is a mirror image; and,

FIG. 3 is side view thereof, it being understood the opposite side is a mirror image.
