(57) **CLAIM**

I claim the ornamental design for ballast carrier, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a ballast carrier according to an embodiment of the invention, the ballast carrier being worn by an individual.

FIG. 2 is a perspective view of a ballast carrier according to an embodiment of the invention.

FIG. 3 is a rear elevational view of a ballast carrier according to an embodiment of the invention.

FIG. 4 is a front elevational view of a ballast carrier according to an embodiment of the invention.

FIG. 5 is a first side elevational view of a ballast carrier according to an embodiment of the invention.

FIG. 6 is a second side elevational view of a ballast carrier according to an embodiment of the invention.

FIG. 7 is a top view of a ballast carrier according to an embodiment of the invention. The broken line circular structure near the interior bottom center of the design depicts a portion of the ballast carrier that forms no part of the claimed design; and,

FIG. 8 is a bottom view of a ballast carrier according to one embodiment of the invention. The broken line circular structure near the bottom center of the design depicts a portion of the ballast carrier that forms no part of the claimed design.

The broken dash/dot lines in FIG. 1 depict environment in the form of an individual figure that forms no part of the claimed design. The dashed lines in the drawings are stitching, which form a part of the claim.
