(57) **CLAIM**

The ornamental design for a female communication connector of an automation device, as shown and described.

**DESCRIPTION**

FIG. 1 is a left side perspective view of a female communication connector of an automation device showing our new design;

FIG. 2 is a right perspective view thereof; and,

FIG. 3 is a front elevational view thereof.

The even-broken line shown in the figure drawings is included for the purpose of illustrating environment and forms no part of the claimed design. The dash-dot broken line represents the boundary of the claimed design.
