(57) **CLAIM**

The ornamental design for a light strip for railings, as shown and described.

DESCRIPTION

FIG. 1 is a rear perspective view of our light strip for railings; FIG. 2 is a right side view thereof, the left side view being a mirror image thereof; FIG. 3 is a top view thereof; FIG. 4 is a bottom view thereof; FIG. 5 is a rear view thereof; FIG. 6 is a front view thereof; and, FIG. 7 is a rear perspective view similar to FIG. 1 showing one end of a strip of LED lights in broken lines that has been inserted into the light strip for railings. The broken lines shown in FIG. 7 illustrate a strip of LED lights that forms no part of the claimed design. The stippling indicates an opaque material, the remaining portion being a light transmissive material. The light strip is shown broken away in FIGS. 1 and 2-7 to indicate the design has no specific length.

1 Claim, 4 Drawing Sheets
