(57) **CLAIM**

The ornamental design for a brim with light attachment, as shown and described.

**DESCRIPTION**

FIG. 1 is an underside, perspective view of brim with light attachment with the light attachment shown in the closed position. The baseball-style cap shown in broken lines illustrates the environment in which the design is used and forms no part of the claim.

FIG. 2 is an underside, perspective view thereof, except with the light attachment shown in the open position.

FIG. 3 is a bottom plan view with the light attachment shown in the open position.

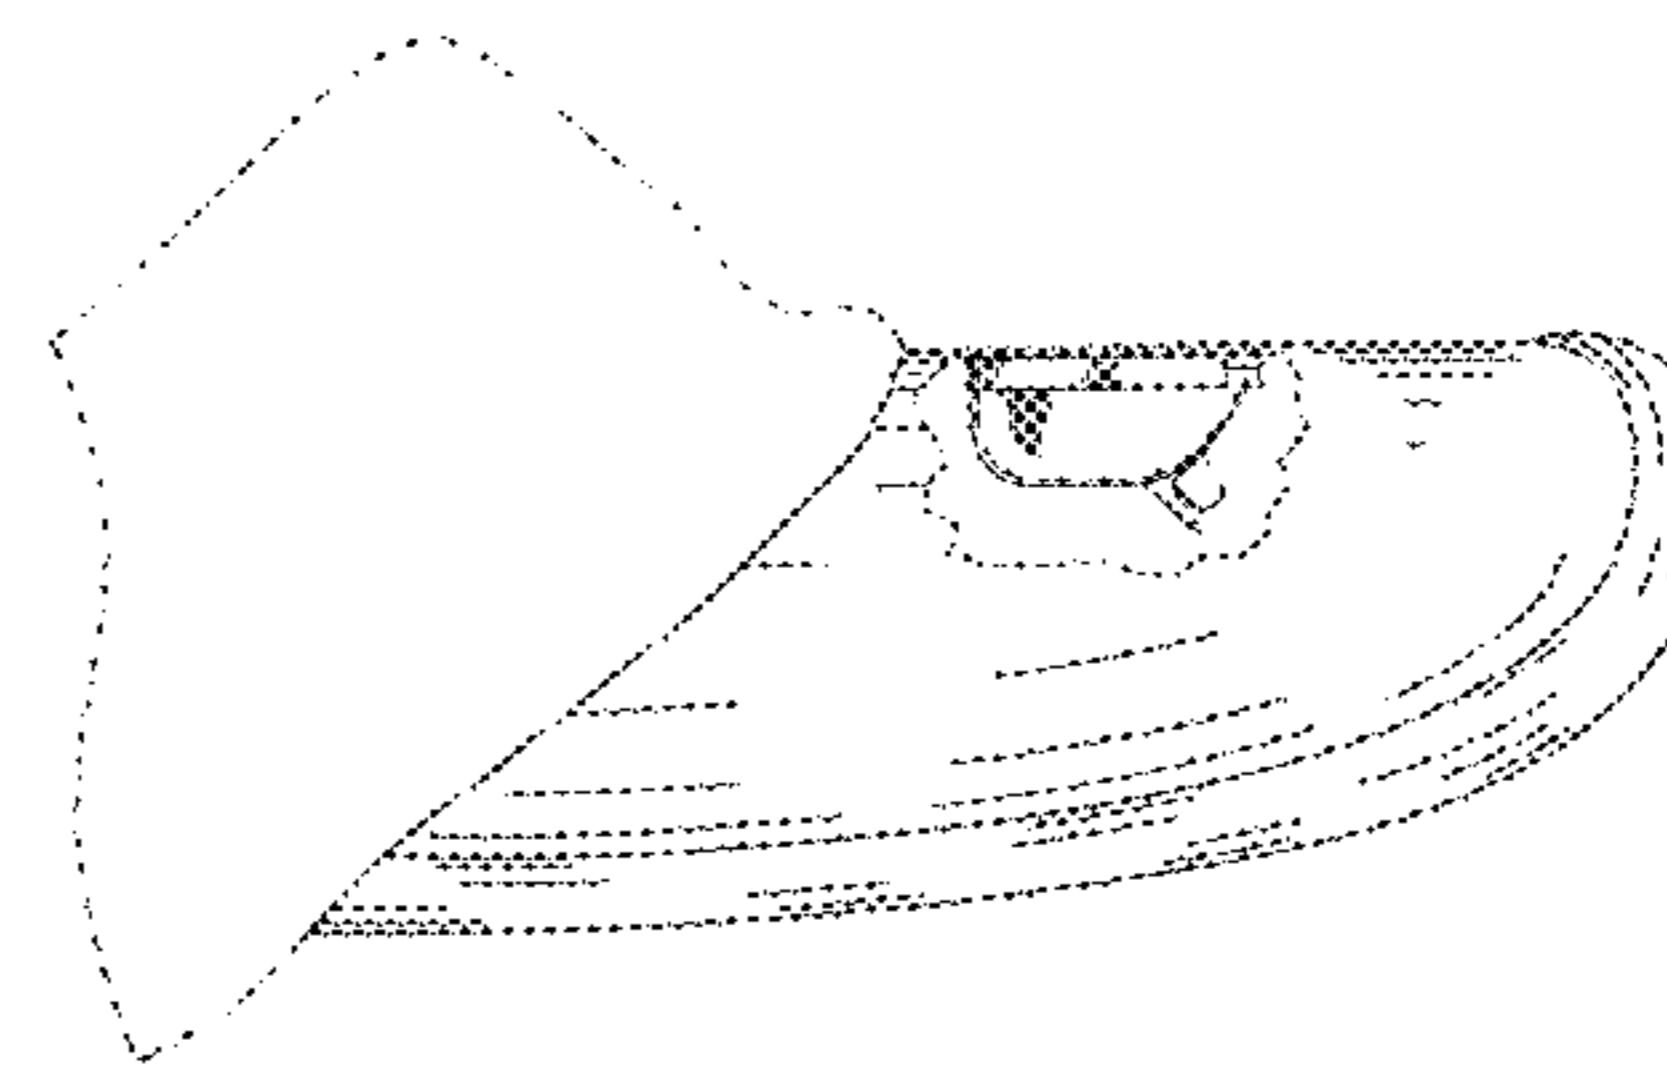

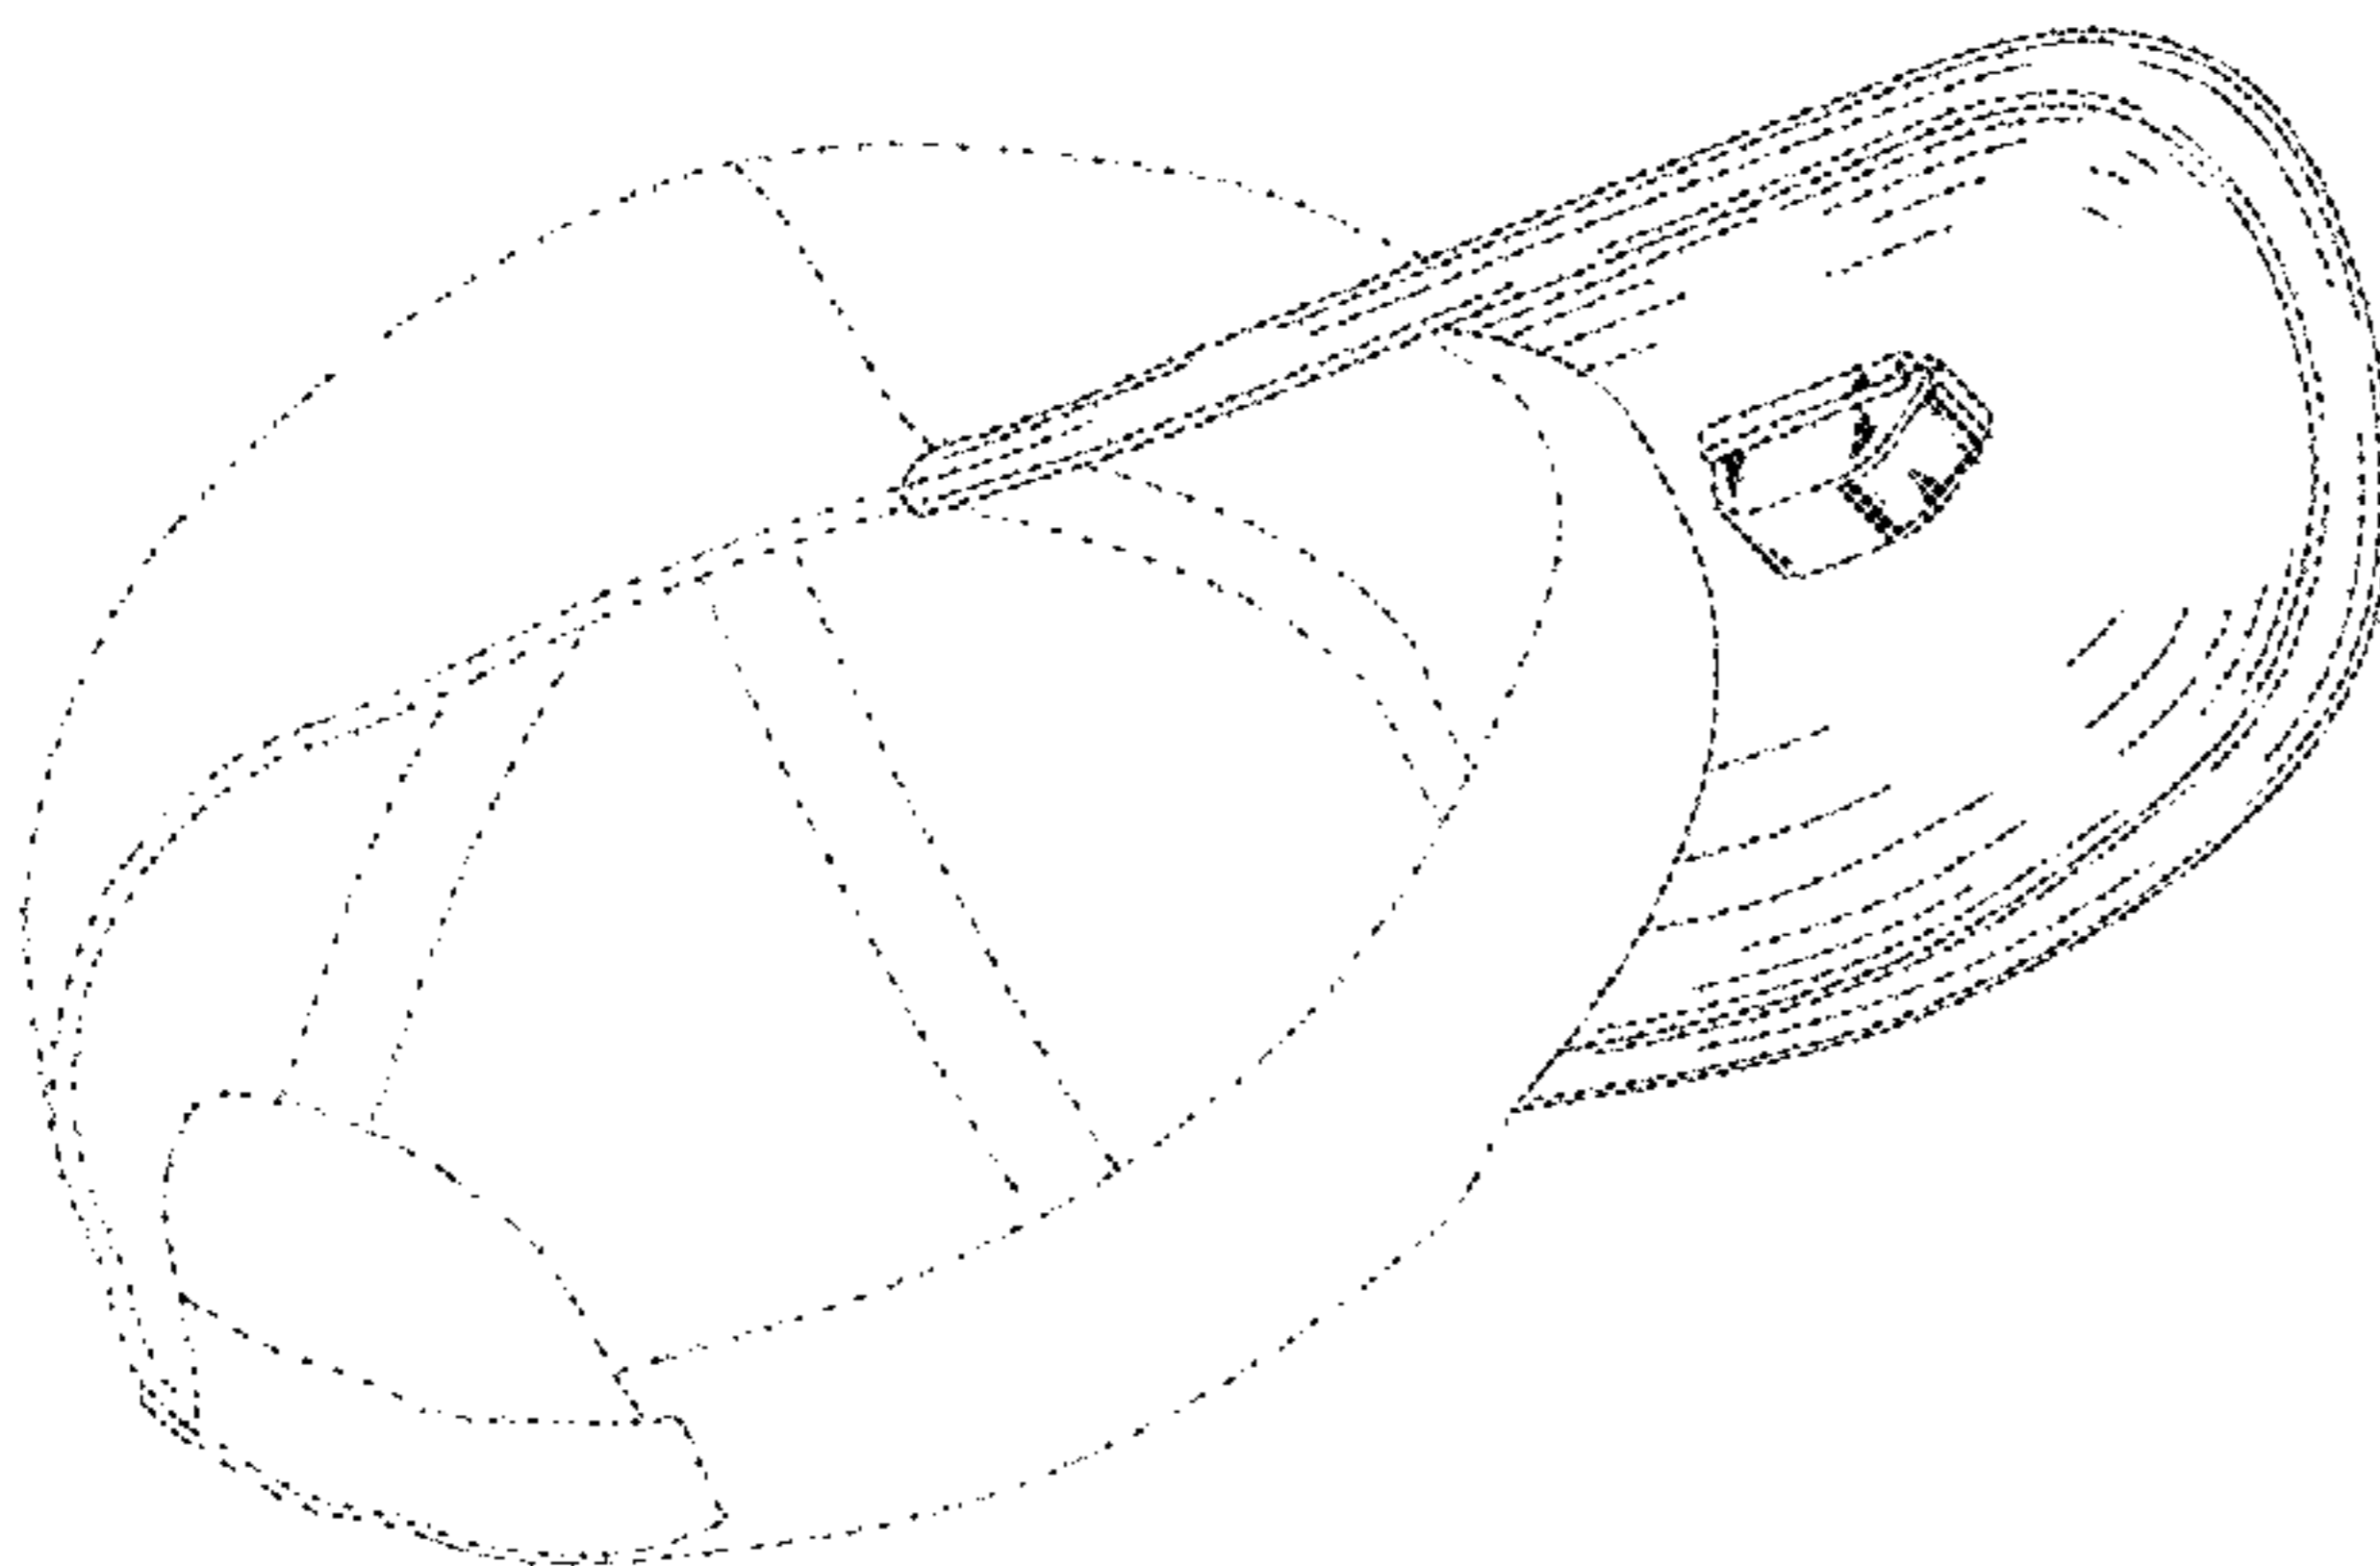

FIG. 4 is a right-side elevation view with a cross-section of the brim taken along line 4-4 in FIG. 3, showing the light attachment in the open position. The cutaway in the brim shown in broken lines is for clarity of illustration. None of the broken-line subject matter forms a part of the claim.

FIG. 5 is a left-side elevation view thereof, except with a cross-section of the brim taken along line 5-5 in FIG. 3.

FIG. 6 is a front elevation view of brim with light attachment; and,

FIG. 7 is a rear elevation view of brim with light attachment.
