DESCRIPTION

FIG. 1 is a perspective view of a first variant of the corner. FIG. 2 is a top view and a bottom view of the corner of FIG. 1.

FIG. 3 is a side view of a first side of the corner of FIG. 1. FIG. 4 is a side view of a second side of the corner of FIG. 1, the second side being at a right angle with the first side. FIG. 5 is a side view of a third and fourth side of the corner of FIG. 1, which are respectively opposite to the first and second sides.

FIG. 6 is a perspective view of a second variant of the corner. FIG. 7 is a top view and a bottom view of the corner of FIG. 6.

FIG. 8 is a side view of a first side of the corner of FIG. 6. FIG. 9 is a side view of a second side of the corner of FIG. 6, the second side being at a right angle with the first side; and, FIG. 10 is a side view of a third and fourth side of the corner of FIG. 6, which are respectively opposite to the first and second sides.

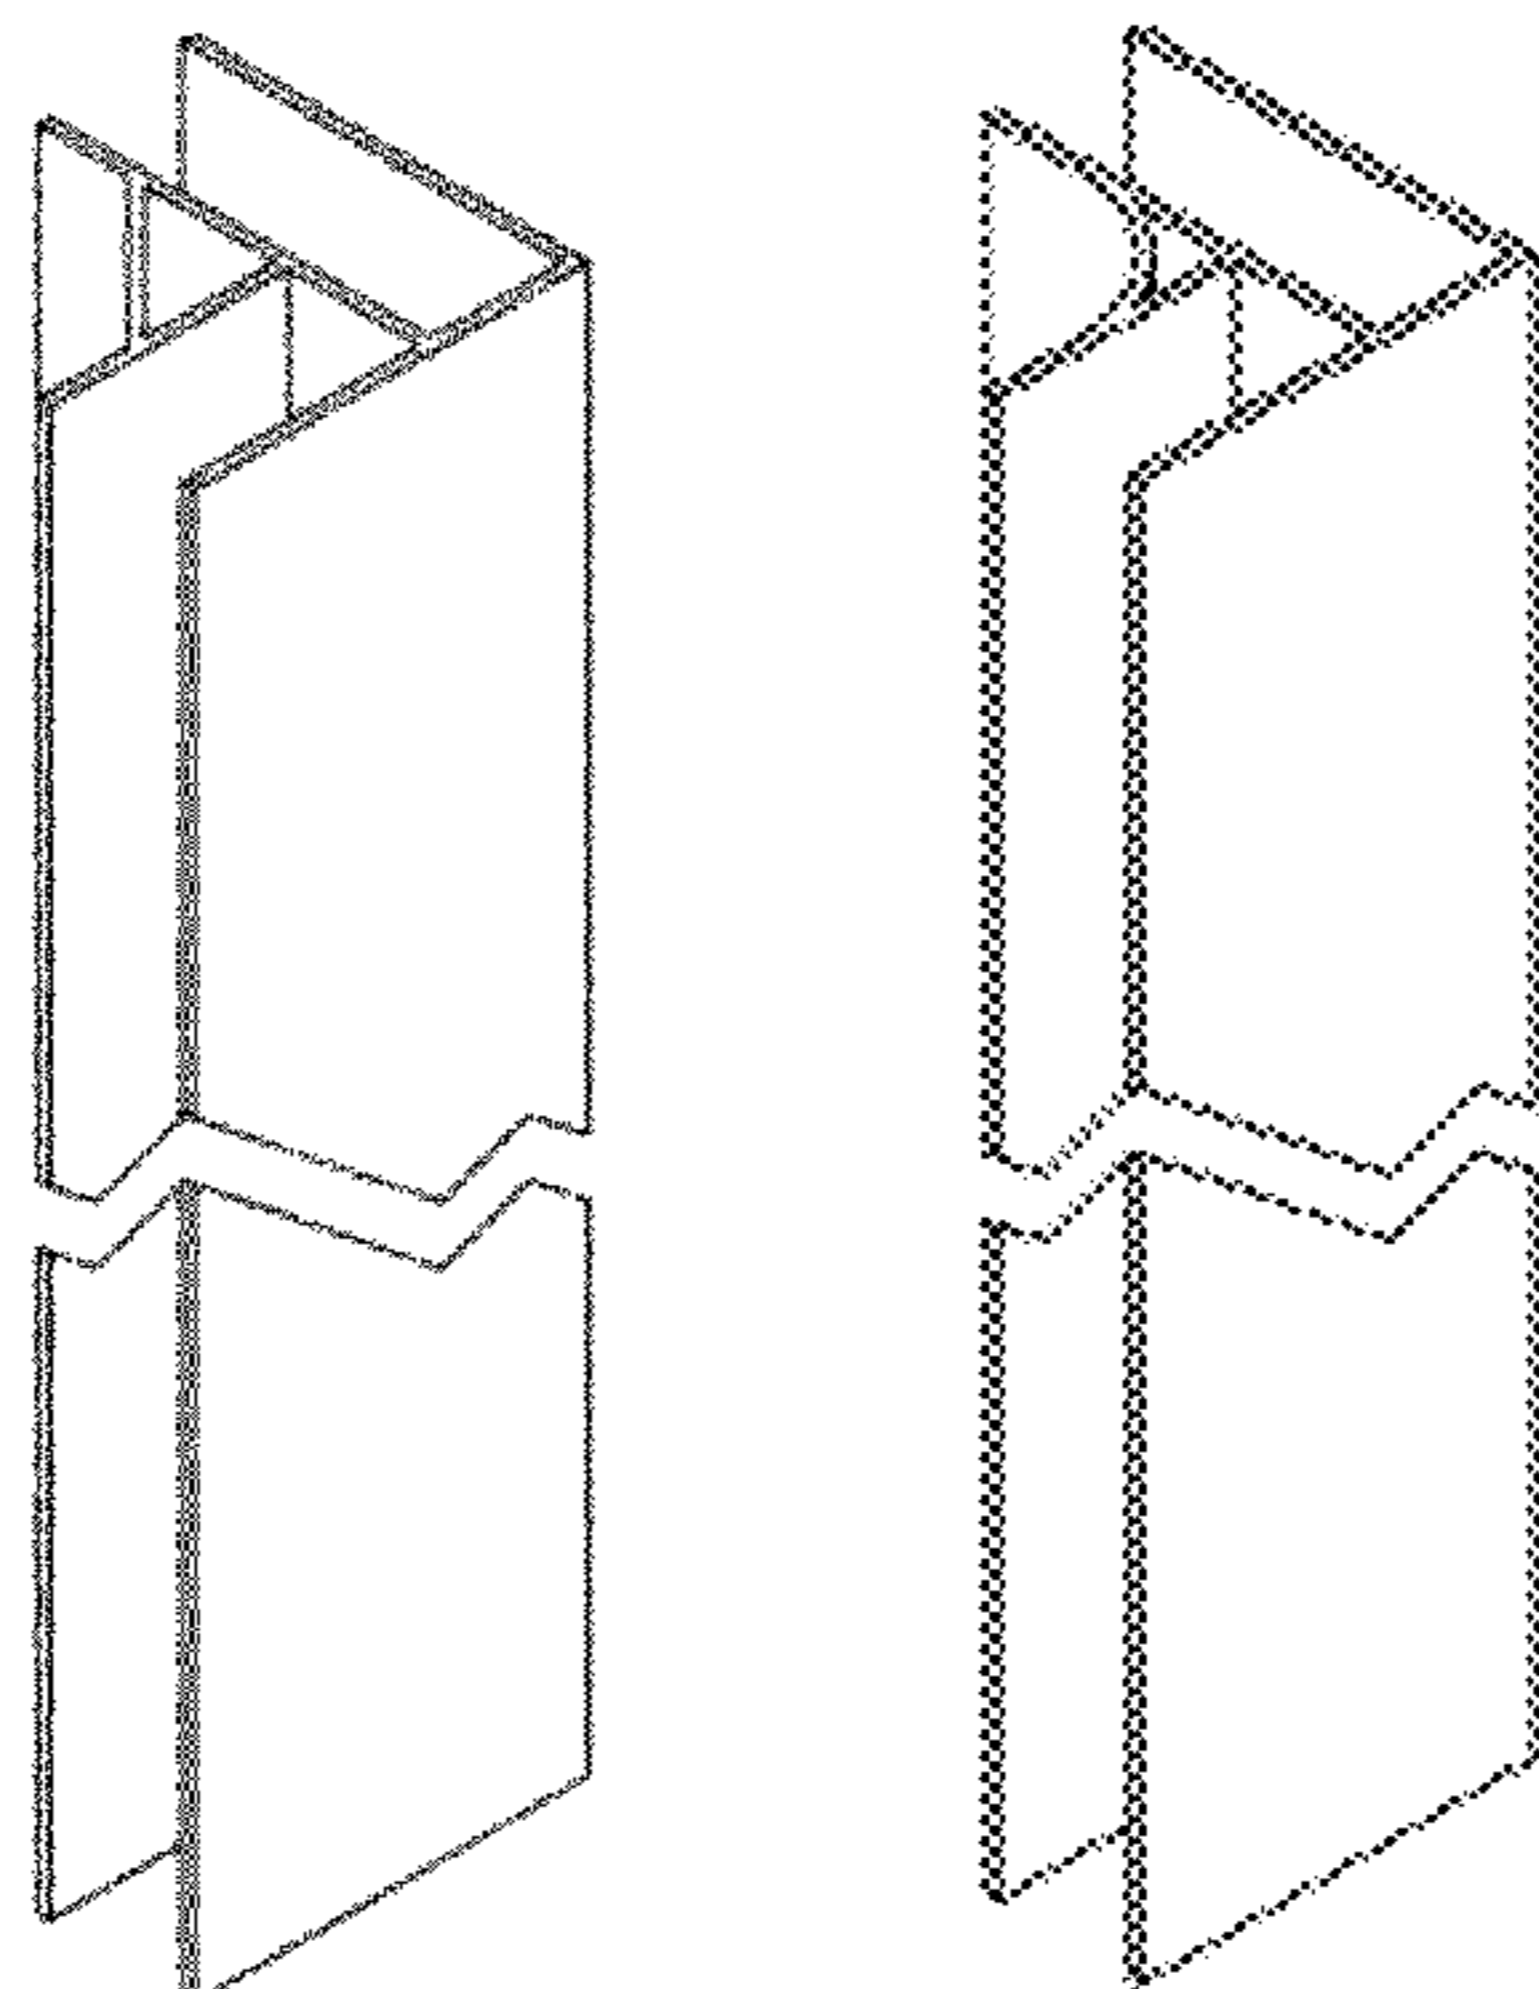

The broken lines indicate that the corner is of indefinite length as shown in the drawings.
