(57) **CLAIM**

The ornamental design for a light-emitting diode, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, right perspective view of a light-emitting diode in an array showing our new design, the diode; and, FIG. 2 is a front elevational view of the light-emitting diode in the array, the rear thereof being flat and unornamented. The broken lines are for showing environmental structure and are not a part of the claimed invention. The diode is a unbroken surface.
