(57) **CLAIM**

The ornamental design for a thin articulating arm assembly for display mount, as shown and described.

DESCRIPTION

FIG. 1 is a front isometric view of a thin articulating arm assembly for display mount according to the invention; FIG. 2 is a front elevation view of the thin articulating arm assembly for display mount depicted in FIG. 1; FIG. 3 is a side elevation view of the thin articulating arm assembly for display mount depicted in FIG. 1; FIG. 4 is an opposing side elevation view of the thin articulating arm assembly for display mount depicted in FIG. 1; FIG. 5 is a top plan view of the thin articulating arm assembly for display mount depicted in FIG. 1; and, FIG. 6 is a bottom plan view of the thin articulating arm assembly for display mount depicted in FIG. 1.

The rear elevations of the mounts depicted in FIGS. 1-6 are not claimed, and hence are not depicted.
