(57) **CLAIM**

The ornamental design for a portable magnifier camera, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the portable magnifier camera of the present invention;  
 FIG. 2 is a front elevational view of the portable magnifier camera of the present invention;  
 FIG. 3 is a right side elevational view of the portable magnifier camera of the present invention;  
 FIG. 4 is a rear elevational view of the portable magnifier camera of the present invention;  
 FIG. 5 is a left side elevational view of the portable magnifier camera of the present invention;  
 FIG. 6 is a top plan view of the portable magnifier camera of the present invention;  
 FIG. 7 a bottom plan view of the portable magnifier camera of the present invention;  
 FIG. 8 is perspective view of the portable magnifier camera in a folded orientation.  
 FIG. 9 is front elevational view of the portable magnifier camera in a folded orientation.  
 FIG. 10 is right side elevational view of the portable magnifier camera in a folded orientation.  
 FIG. 11 is a rear elevational view of the portable magnifier camera in a folded orientation;  
 FIG. 12 is left side elevational view of the portable magnifier camera in a folded orientation.  
 FIG. 13 is a top plan view of the portable magnifier camera in a folded orientation; and,  
 FIG. 14 is a bottom plan view of the portable magnifier camera in a folded orientation.
