(57) **CLAIM**

The ornamental design for a shape measuring tool, as shown and described.

DESCRIPTION

FIG. 1 shows a front perspective view of a first embodiment of a design of a shape measuring tool. The buckle, numbers of the ruled tape, and fasteners on the panel are entirely unclaimed.

FIG. 2 shows a back perspective view of the design of FIG. 1. The ruled tape on the back of panel and backs of the fasteners are entirely unclaimed.

FIG. 3 shows a front view of the design of FIG. 1.

FIG. 4 shows a back view of the design of FIG. 1.

FIG. 5 shows a close-up view of a portion of the design indicated by the circle in FIG. 3.

FIG. 6 shows the first embodiment of the design when used to measure the shape of a person. The broken lines depicting a person in FIG. 6 are for environmental purposes only and are entirely unclaimed.

FIG. 7 shows a view of a second embodiment of a design of a shape measuring tool. The buckle, ruled tape and graduated tape markings, and fasteners on the panel are entirely unclaimed.

FIG. 8 shows a close-up view of a portion of the design indicated by the circle in FIG. 7.

FIG. 9 shows a view of a third embodiment of a design of a shape measuring tool. The buckle, edges and numbers of the ruled tape, and fasteners on the panel are entirely unclaimed; and,

FIG. 10 shows a view of a fourth embodiment of a design of a shape measuring tool. A portion of the buckle, edges and numbers of the ruled tape, and fasteners on the panel are entirely unclaimed.

Pairs of closely spaced, jagged broken lines on the strap in the figures are to indicate an indeterminate length. These and other broken-line features and text in the figures are for illustrative purposes only and form no part of the claimed design.

1 Claim, 10 Drawing Sheets
