(57) **CLAIM**

The ornamental design for a floodlight projector, as shown and described.

DESCRIPTION

FIG. 1 is a side and front perspective view of the floodlight projector showing my design;
FIG. 2 is a top plan view thereof;
FIG. 3 is a side elevation view thereof showing the base in a first orientation with respect to the upright member of the floodlight projector;
FIG. 4 is a side elevation view thereof showing the base in a second orientation with respect to the upright member of the floodlight projector; and,
FIG. 5 is a side elevation view thereof showing the base in a third orientation with respect to the upright member of the floodlight projector.
The floodlight projector is primarily, but not exclusively used for road-traffic signs. The broken line showing in FIGS. 1-5 is for the purpose of illustrating that the floodlight projector has no specific length or height and forms no part of the claimed design.

See application file for complete search history.
