(57) **CLAIM**

The ornamental design for a marking and fastening device, as shown and described.

DESCRIPTION

FIG. 1 is a side view of the male member portion of the marking and fastening device shown in FIG. 5 (in exploded form);

FIG. 2 is a bottom view of the male member shown in FIG. 1; FIG. 3 is a perspective view of the male member shown in FIG. 1;

FIG. 4 is a side plan view of the female member shown in FIG. 7;

FIG. 5 is an exploded view of the marking and fastening device shown in FIG. 9 showing a male member, a female member and a base;

FIG. 6 is a perspective view of the marking and fastening device shown in FIG. 9 illustrated within its environment, namely a material, the broken line showing is for environmental purposes only and forms no part of the claimed design;

FIG. 7 is a top plan view of the female member of the marking and fastening device shown in FIG. 5, in exploded form. The portions of the article shown in broken lines form no part of the claimed design;

FIG. 8 is a bottom plan view of the female member shown in FIG. 7, the portions of the article shown in broken lines form no part of the claimed design;

FIG. 9 is a perspective view showing the marking and fastening device shown in FIG. 5 (in exploded form);

FIG. 10 is a bottom plan view of the marking and fastening device shown in FIG. 9; and,

FIG. 11 is a top view of the male member shown in FIG. 1. The broken line showing of the material in FIG. 6 is included for the purpose of showing environment and forms no part of the claimed design. The broken lines shown in FIGS. 7 and 8 are included for the purpose of showing portions of the article and form no part of the claimed design.
