(57) **CLAIM**

The ornamental design for a pneumatic tire, as shown and
described.

DESCRIPTION

FIG. 1 is a front perspective view of a pneumatic tire showing
my new design.

FIG. 2 is a front view thereof; and,

FIG. 3 is a side view thereof.

In the drawings, the broken lines defining the sidewall, inner
bead and the unclaimed sidewall depict environmental sub-
ject matter that forms no part of the claimed design. The
dash-dot lines represent the peripheral boundary between the
claimed tire tread and unclaimed sidewall.

The tread pattern is understood to repeat uniformly through-
out the circumference of the tire, as shown schematically in
solid lines.
