(57) **CLAIM**

The ornamental design for a support for a truck shell gas prop, as shown and described.

DESCRIPTION

FIG. 1 is a right side perspective view of a support for truck shell gas prop showing my new design, the opposite side being a mirror image.

FIG. 2 is a right side elevation view of a support for truck shell gas prop showing my new design, the opposite side being a mirror image.

FIG. 3 is rear perspective view of my new design.

FIG. 4 is rear view of my new design.

FIG. 5 is a front elevation view of my new design.

FIG. 6 is a top plan view of my new design.

FIG. 7 is a bottom plan view of my new design.

FIG. 8 is a right side perspective view of a second embodiment of my design of a support for truck shell gas prop, the opposite side being a mirror image.

FIG. 9 is a right side elevation view of the second embodiment of my new design for a support for truck shell gas prop, the opposite side being a mirror image.

FIG. 10 is rear perspective view of the second embodiment of my new design.

FIG. 11 is rear view of the second embodiment my new design.

FIG. 12 is a front elevation view of the second embodiment my new design.

FIG. 13 is a top plan view of the second embodiment my new design.

FIG. 14 is a bottom plan view of the second embodiment my new design.

FIG. 15 is an environmental view of the first embodiment being used as a support for a truck shell gas prop; and,

FIG. 16 is an environmental view of the first embodiment in a stored position on a truck shell gas prop.

The dashed lines showing the vehicle, window and gas prop of FIGS. 15 and 16 are for illustrative purposes only and form no part of the claimed design.
