FIG. 1 is a front view of a first state in a sequence for a portion
of a display with a transitional user interface, showing my
new design;

FIG. 2 is front view of a second state in the sequence;

FIG. 3 is an enlarged front view of the first state in the
sequence;

FIG. 4 is a front view of a second embodiment showing the
first state in a sequence for a portion of a display with a
transitional graphical user interface;

FIG. 5 is a front view of a second state in the sequence of the
second embodiment; and,

FIG. 6 is an enlarged front view of the first state in the
sequence of the second embodiment.

The appearance of the portion of the display with a transi-
tional graphical user interface sequentially transitions
between the images shown in FIGS. 1-2. The appearance of
the second embodiment of the portion of the display with a
transitional graphical user interface sequentially transitions
between the images shown in FIGS 4-5. The process or period
in which any image transitions to another image forms no part
of the claimed design.

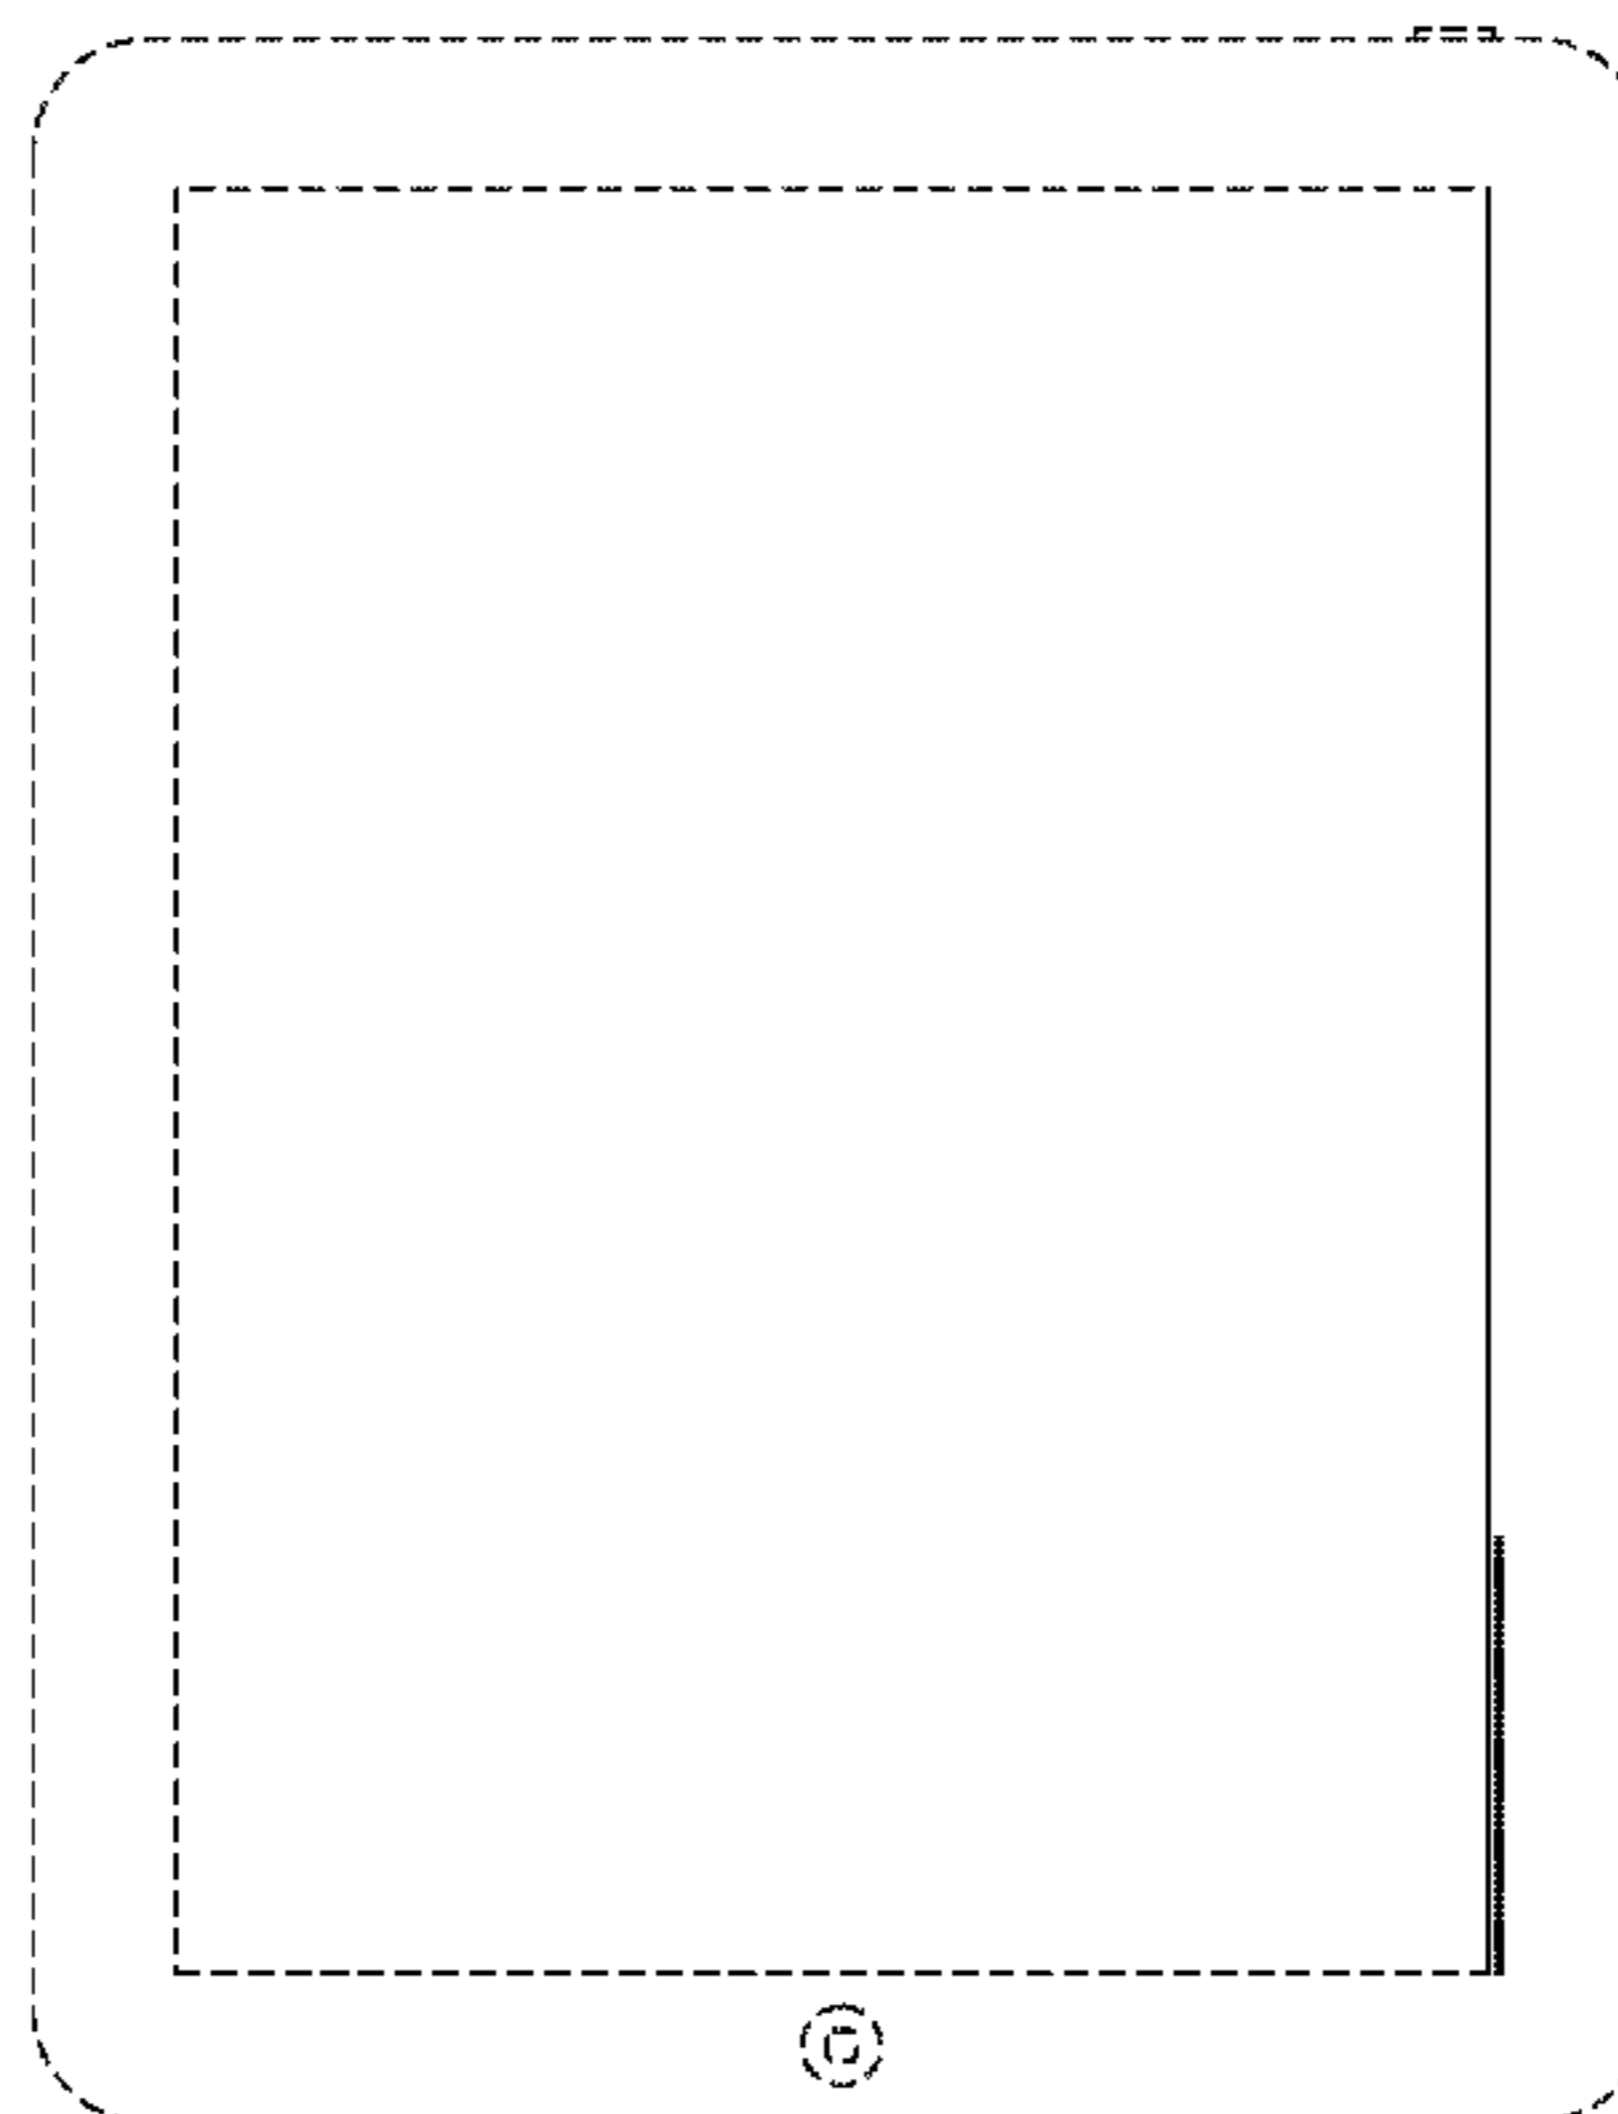

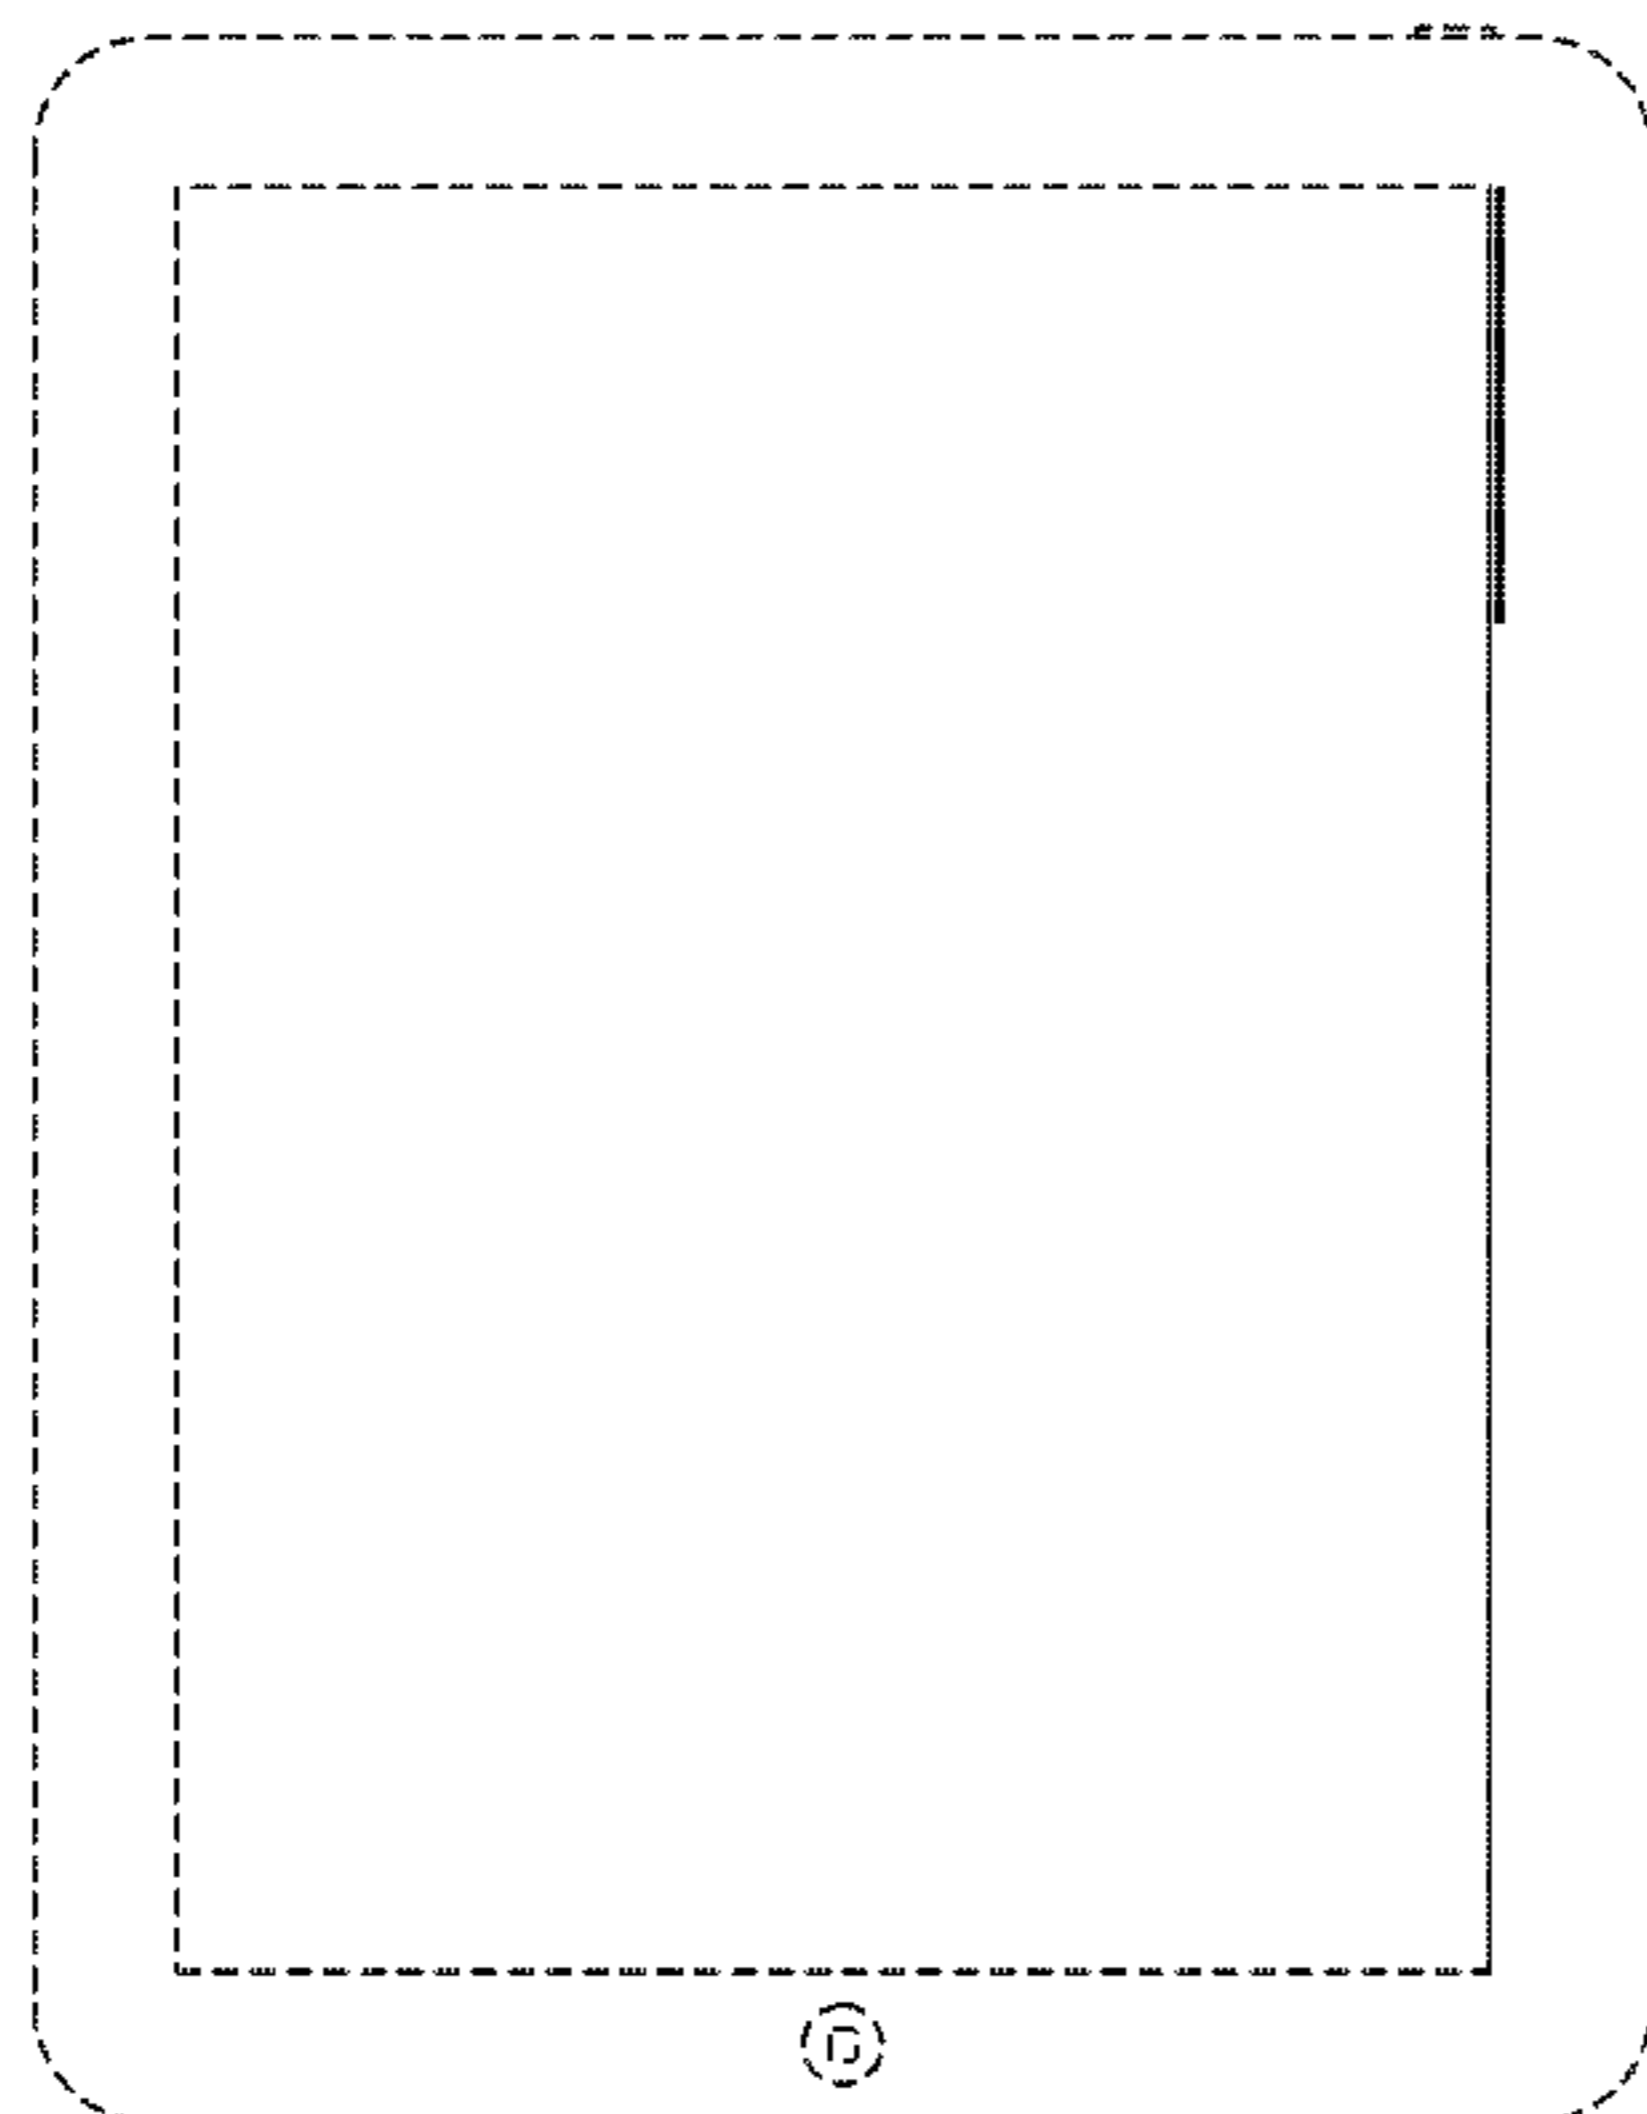

The broken line showings of the portion of a display are for
the purpose of illustrating environmental structure and form
no part of the claimed design.
