(57) **CLAIM**

The ornamental design for a pipette body, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a pipette body according to my new design;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof;

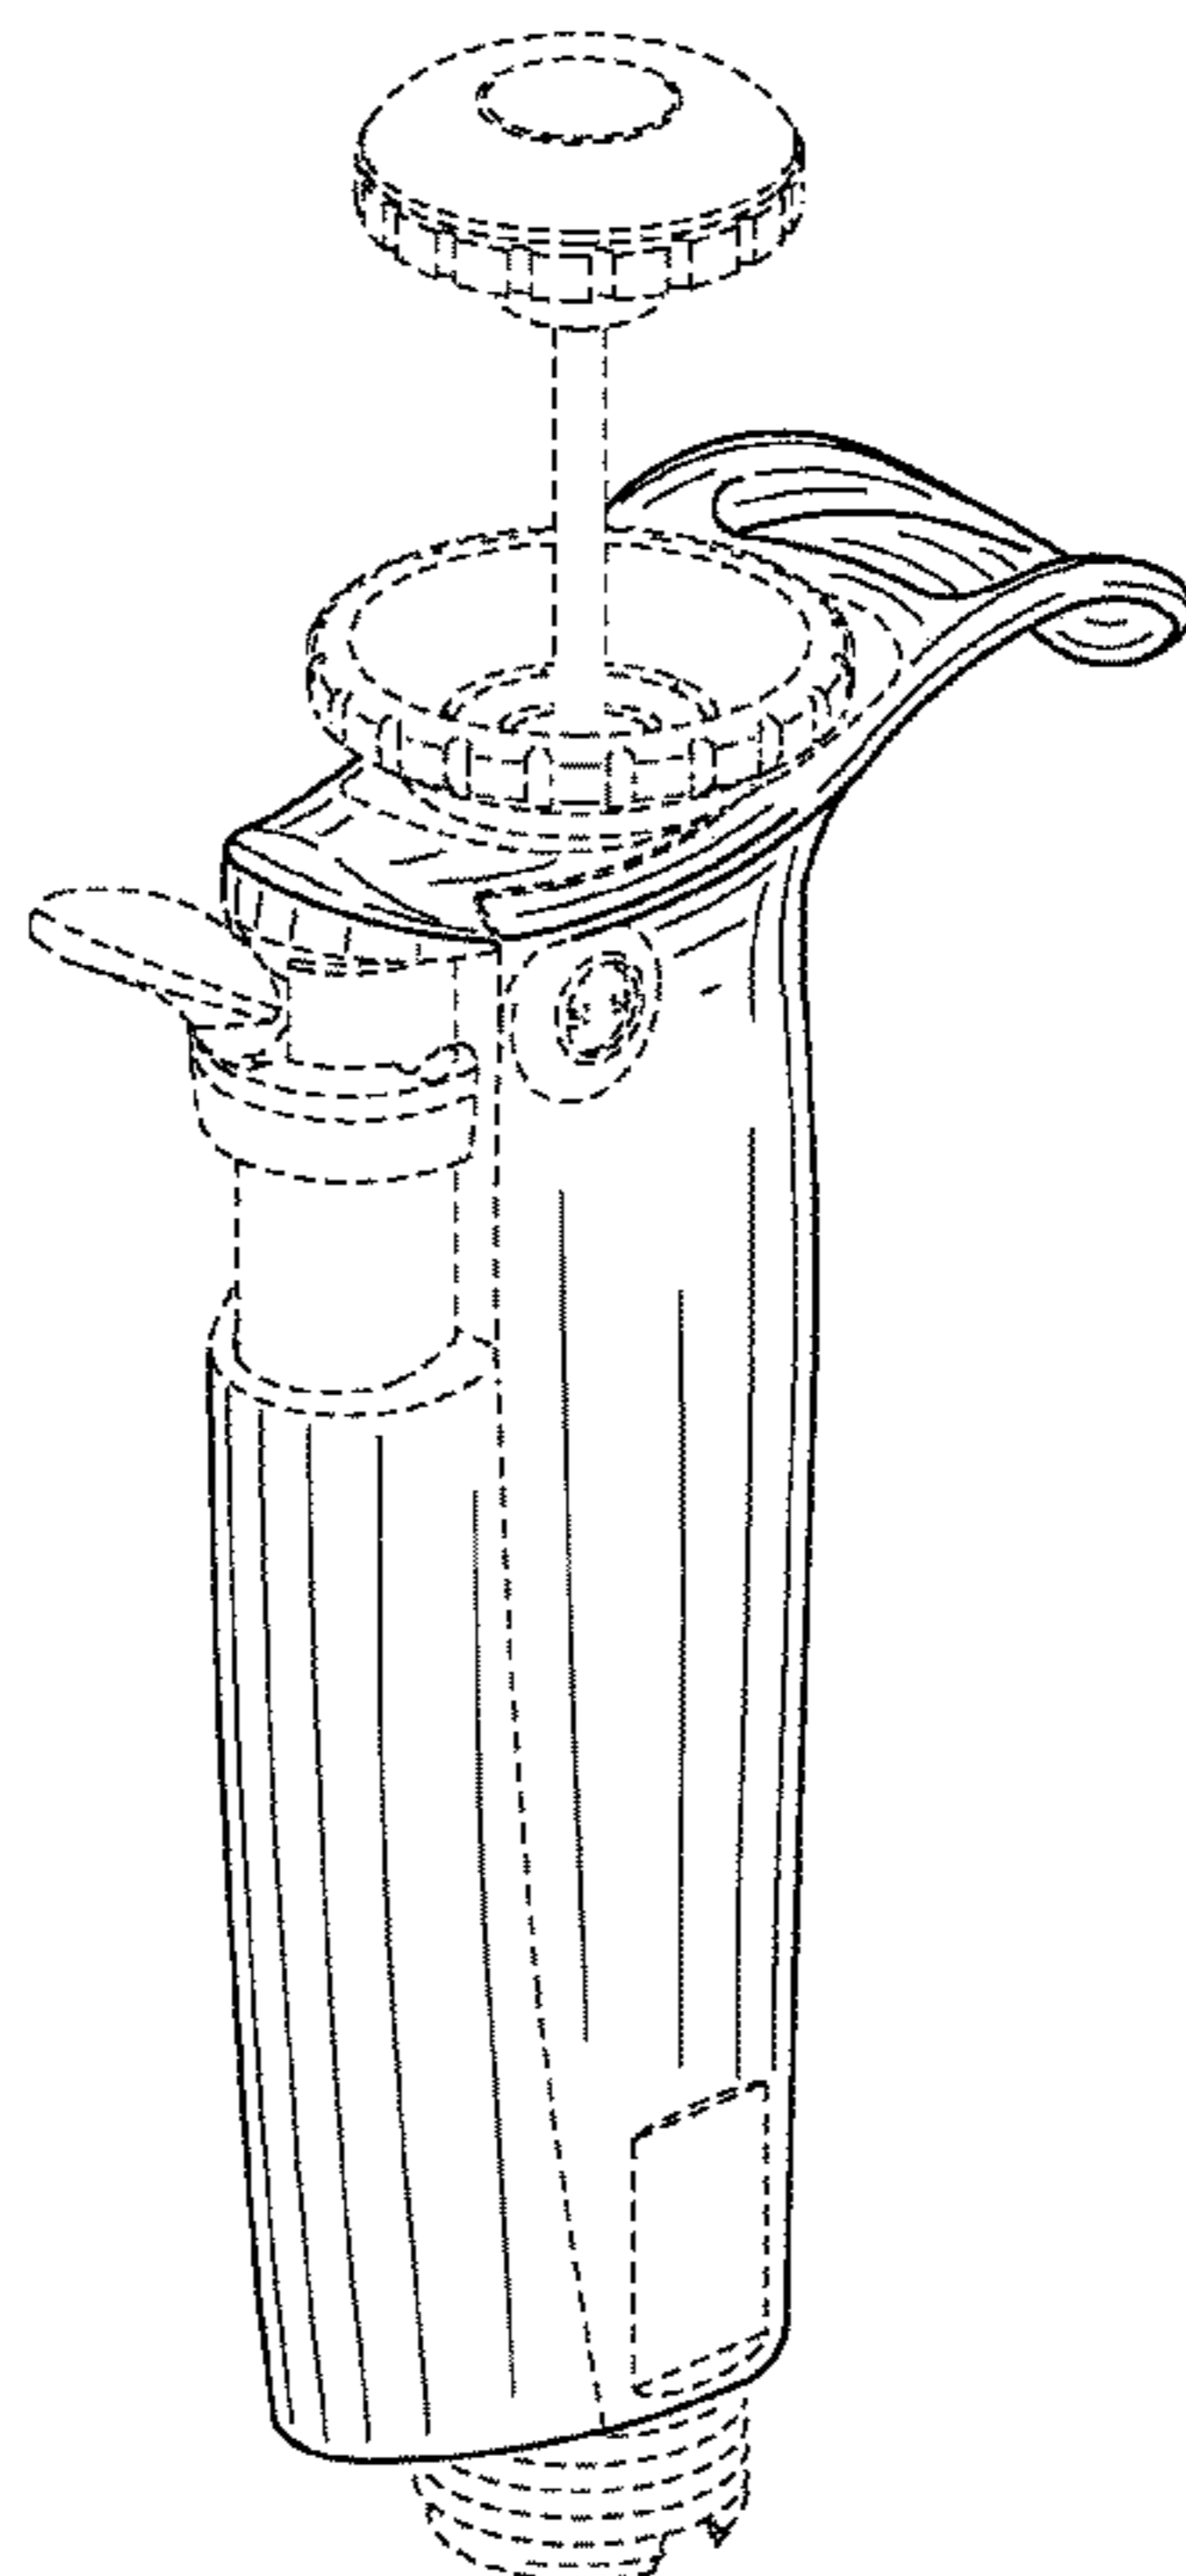

FIG. 7 is a left, top, rear perspective view thereof; and,

FIG. 8 is a left, top, rear perspective view thereof shown with locking feature environment in a raised position, the view depicting the same design as shown in FIGS. 1-7 except for the position of the locking feature environment.

The broken lines immediately adjacent the shaded areas represent the bounds of the claim, and all other broken lines represent the unclaimed portions of the pipette body. None of the broken lines form a part of the claimed design.

The nature of this product is an upper part, such as a grip or handle body portion, of a pipette for use in analyzing liquid samples.
