(57) **CLAIM**

The ornamental design for a LED lens, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the LED lens according to a first embodiment of my new design;
FIG. 2 is a front elevational view of the first embodiment of the design, the rear elevational view being identical;
FIG. 3 is a left side elevational view of the first embodiment of the design, the right side being identical;
FIG. 4 is a top plan view of the first embodiment of the design;
FIG. 5 is a bottom plan view of the first embodiment of the design;
FIG. 6 is a bottom perspective view according to the first embodiment showing my new design;
FIG. 7 is a cross-sectional view taken along line 7-7 of FIG. 4;
FIG. 8 is a cross-sectional view thereof, shown in a position of use;
FIG. 9 is a top perspective view of the LED Lens according to the second embodiment showing my new design;
FIG. 10 is a front elevational view of the second embodiment of the design, the rear elevational view being identical;
FIG. 11 is a left side elevational view of the second embodiment of the design, the right side elevational view being identical;
FIG. 12 is a top plan view of the second embodiment of the design;
FIG. 13 is a bottom plan view of the second embodiment of the design;
FIG. 14 is a bottom perspective view according to the second embodiment of the design;
FIG. 15 is a cross-sectional view taken along line 15-15 of FIG. 12; and,
FIG. 16 is a cross-sectional view thereof, shown in a position of use.
The broken lines shown in the figures illustrate environmental structures that form no part of the claimed design.
