(57) **CLAIM**

The ornamental design for a support for truck shell gas props and the like, as shown and described.

DESCRIPTION

FIG. 1 is a right side perspective view of the first embodiment of my design of a support for truck shell gas props, the opposite side being a mirror image.

FIG. 2 is a right side elevation view of the first embodiment of my new design for a support for truck shell gas props, the opposite side being a mirror image.

FIG. 3 is rear perspective view of the first embodiment of my new design.

FIG. 4 is rear view of the first embodiment my new design.

FIG. 5 is a front elevation view of the first embodiment my new design.

FIG. 6 is a top plan view of the first embodiment my new design.

FIG. 7 is a bottom plan view of the first embodiment my new design.

FIG. 8 is a right side perspective view of a second embodiment of my design of a support for truck shell gas props, the opposite side being a mirror image.

FIG. 9 is a right side elevation view of the second embodiment of my new design for a support for truck shell gas props, the opposite side being a mirror image.

FIG. 10 is rear perspective view of the second embodiment of my new design.

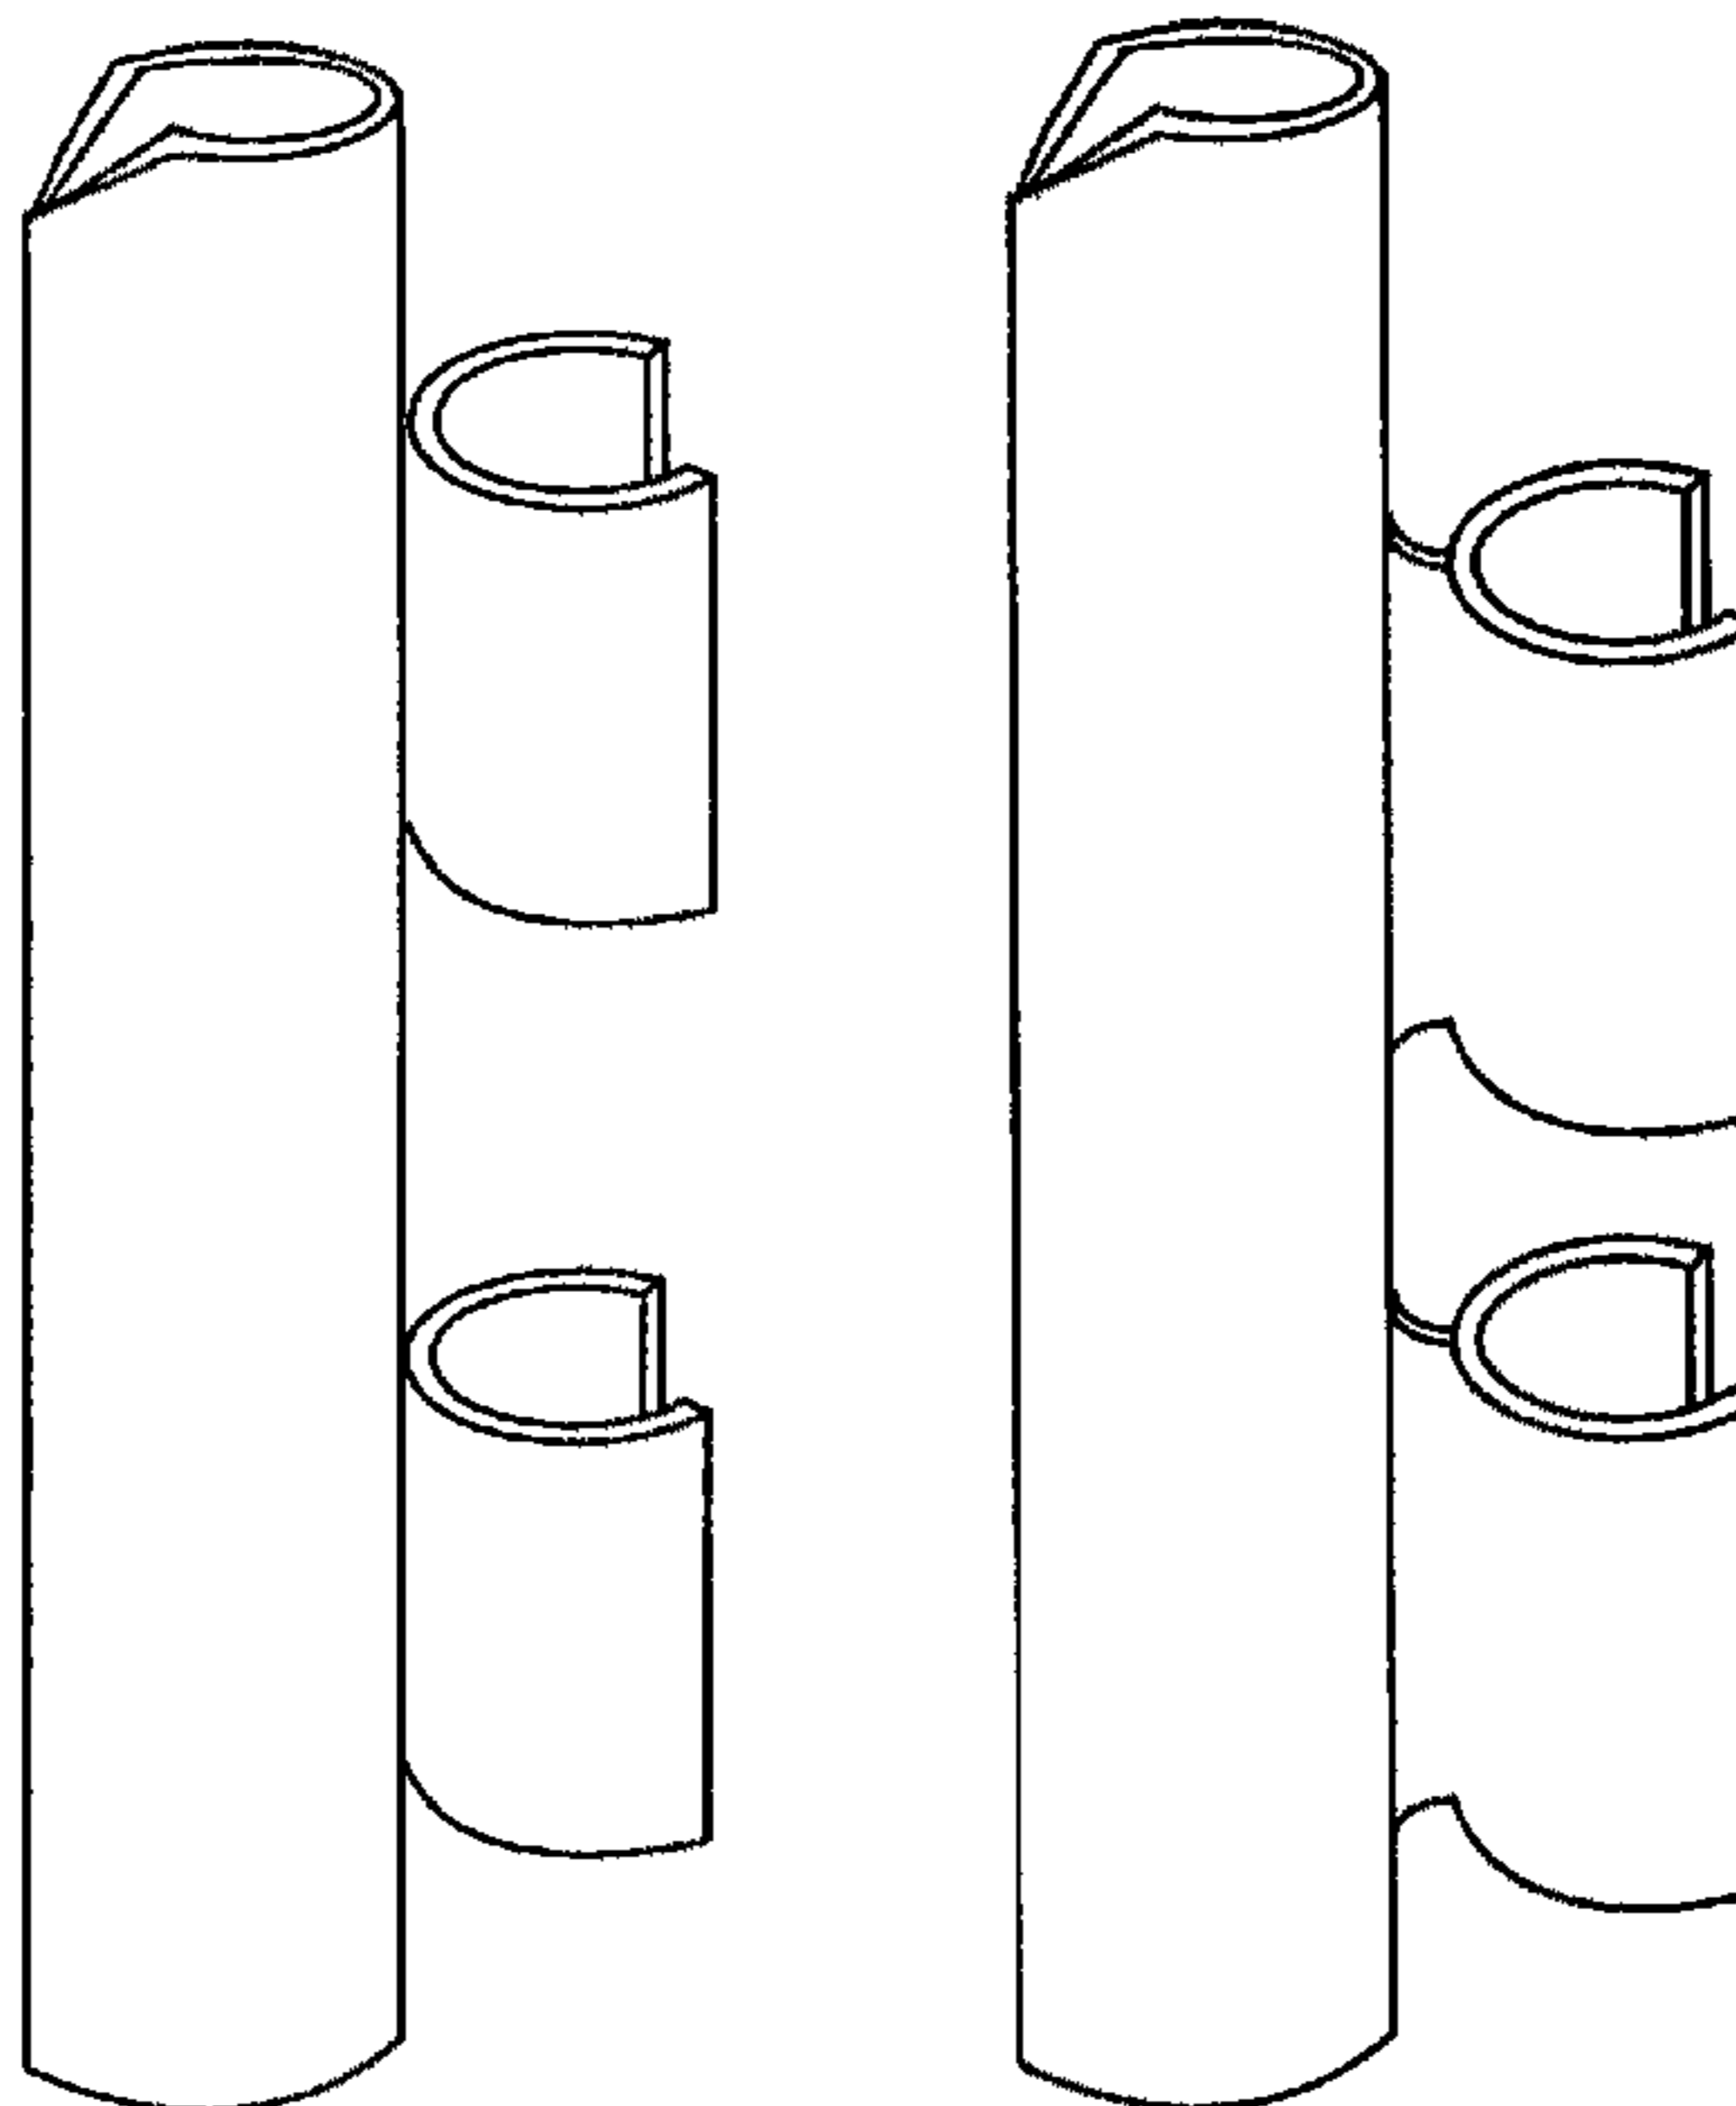

FIG. 11 is rear view of the second embodiment my new design.

FIG. 12 is a front elevation view of the second embodiment my new design.

FIG. 13 is a top plan view of the second embodiment my new design; and,

FIG. 14 is a bottom plan view of the second embodiment my new design.
