(57) **CLAIM**

I claim an ornamental design for a display screen with a transitional user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which as claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a front view of a display screen with a transitional user interface having a first image;

FIG. 2 is a front view thereof having a second image; and,

FIG. 3 is a front view thereof having a third image.

The broken line drawing of a display screen forms no part of the claimed design. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
