(57) **CLAIM**

The ornamental design for an expandable mobile display sales cart, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the expandable mobile display sales cart in the mobile/storage position showing my new design;

FIG. 2 is a front elevation view of an expandable mobile display sales cart thereof; the view is the same for the display position and the mobile/storage position;

FIG. 3 is a left side elevation view of an expandable mobile display sales cart in the mobile/storage position thereof, with the opposite side being a mirror image;

FIG. 4 is a top plan view of an expandable mobile display sales cart in the mobile/storage position thereof;

FIG. 5 is a bottom plan view of an expandable mobile display sales cart in the mobile/storage position thereof;

FIG. 6 is a rear elevation view of an expandable mobile display sales cart thereof; the view is the same for the display position and the mobile/storage position;

FIG. 7 is a perspective view of an expandable mobile display sales cart in the display position with the lower container crates not pulled out thereof;

FIG. 8 is a left side elevation view of an expandable mobile display sales cart in the display position with the lower container crates not pulled out thereof, with the opposite side being a mirror image;

FIG. 9 is a top plan view of an expandable mobile display sales cart in the display position with the lower container crates not pulled out thereof;

FIG. 10 is a perspective view of an expandable mobile display sales cart in the display position with a one lower container crate pulled out to the expanded position thereof; and,

FIG. 11 is a left side elevation view of an expandable mobile display sales cart in the display position with a one lower container crate pulled out to the expanded position thereof; with the opposite side being a mirror image.
