(57) **CLAIM**

The ornamental design of an extendable adhesive photocard prop, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an embodiment of an extendable card, photo or photocard prop with the leg in a retracted state according to the present invention;

FIG. 2 is a front view of the embodiment of the extendable prop shown in FIG. 1;

FIG. 3 is a back view of the embodiment of the extendable prop shown in FIG. 1;

FIG. 4 is a right side view of the embodiment of the extendable prop shown in FIG. 1;

FIG. 5 is a left side view of the embodiment of the extendable prop shown in FIG. 1;

FIG. 6 is a top view of the extendable prop shown in FIG. 1;

FIG. 7 is a bottom view of the extendable prop shown in FIG. 1;

FIG. 8 is a back perspective view of the extendable prop shown in FIG. 1 with the leg in an extended state according to the present invention;

FIG. 9 is a front perspective view of the extendable prop shown in FIG. 8;

FIG. 10 is a front view of the extendable prop shown in FIG. 8;

FIG. 11 is a back view of the extendable prop shown in FIG. 8;

FIG. 12 is a right side view of the extendable prop shown in FIG. 8;

FIG. 13 is a left side view of the extendable prop shown in FIG. 8;

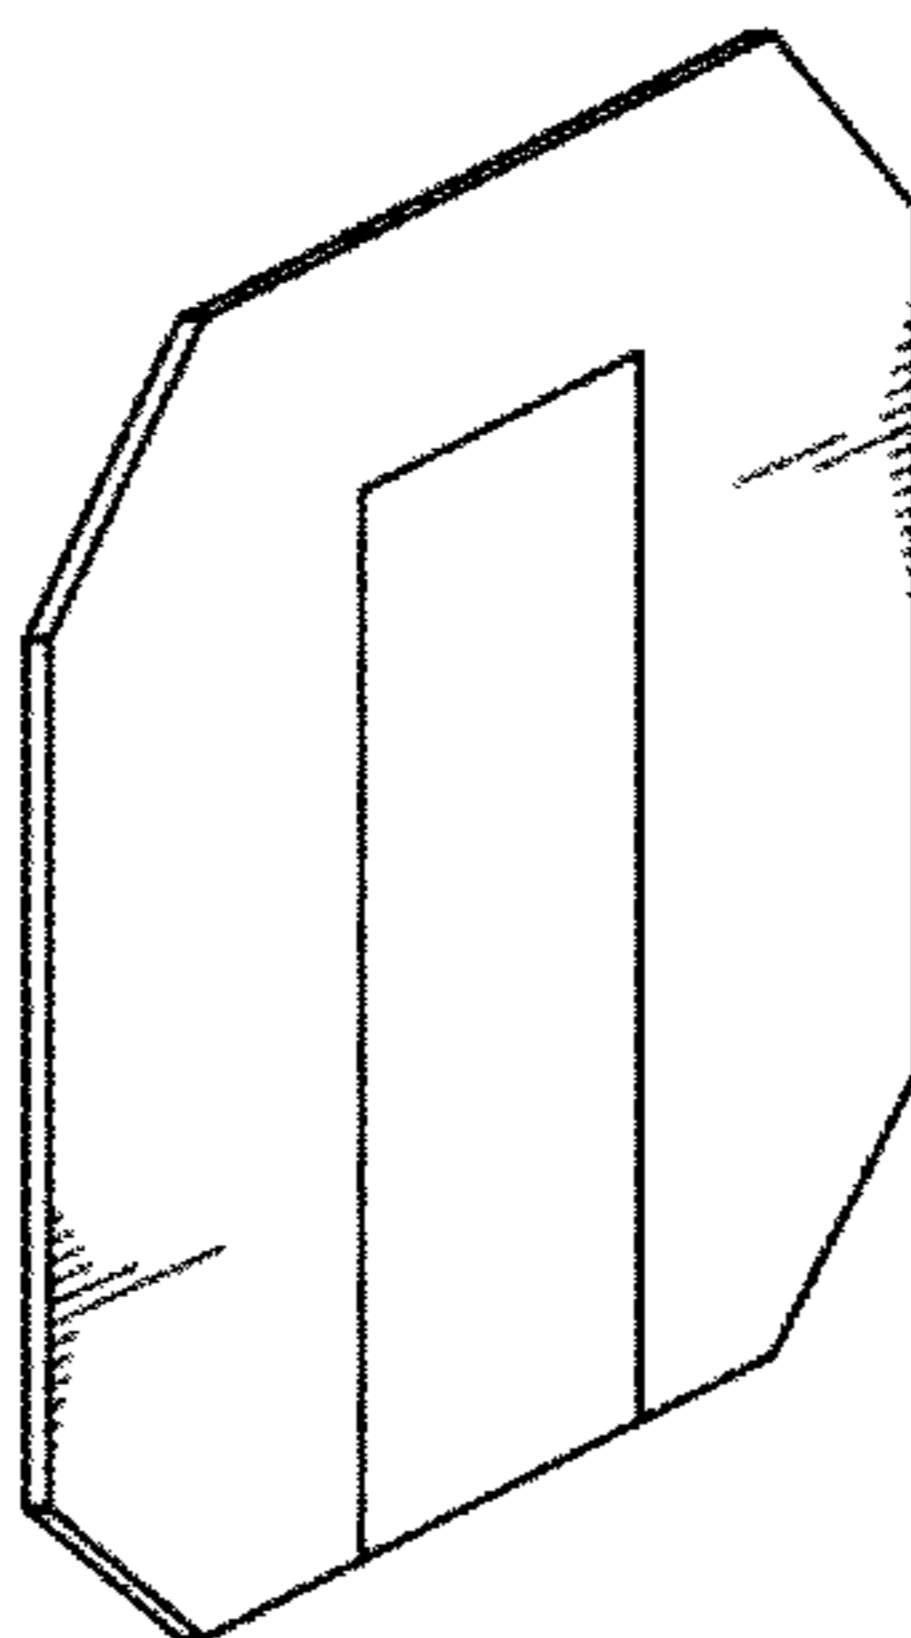

FIG. 14 is a top view of the extendable prop shown in FIG. 8;

FIG. 15 is a bottom view of the extendable prop shown in FIG. 8; and,

FIG. 16 is a perspective back view of the extendable prop which embodies the design and illustrates the designs intended use.

The following figures show a card, photo or photocard prop that may be adhered to the back of the card or photo and includes a flip-out leg. In addition, the card, photo or photocard prop can be made of any suitably stiff material, including but not limited to paper, cardboard, plastic, etc. In all figures, elements shown in broken lines are for illustrative purposes only and form no part of the claimed subject matter.
