(57) **CLAIM**

The ornamental design for a laparoscopic access port, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevational view of a laparoscopic access port according to a first embodiment of the present invention. FIG. 2 is a right side elevational view of the laparoscopic access port of FIG. 1.

FIG. 3 is a front elevational view of the laparoscopic access port of FIG. 1.

FIG. 4 is a rear elevational view of the laparoscopic access port of FIG. 1.

FIG. 5 is a top plan view of the laparoscopic access port of FIG. 1.

FIG. 6 is a bottom plan view of the laparoscopic access port of FIG. 1.

FIG. 7 is a three quarter view of the laparoscopic access port of FIG. 1.

FIG. 8 is a left side elevational view of a laparoscopic access port according to a second embodiment of the present invention.

FIG. 9 is a right side elevational view of the laparoscopic access port of FIG. 8.

FIG. 10 is a front elevational view of the laparoscopic access port of FIG. 8.

FIG. 11 is a rear elevational view of the laparoscopic access port of FIG. 8.

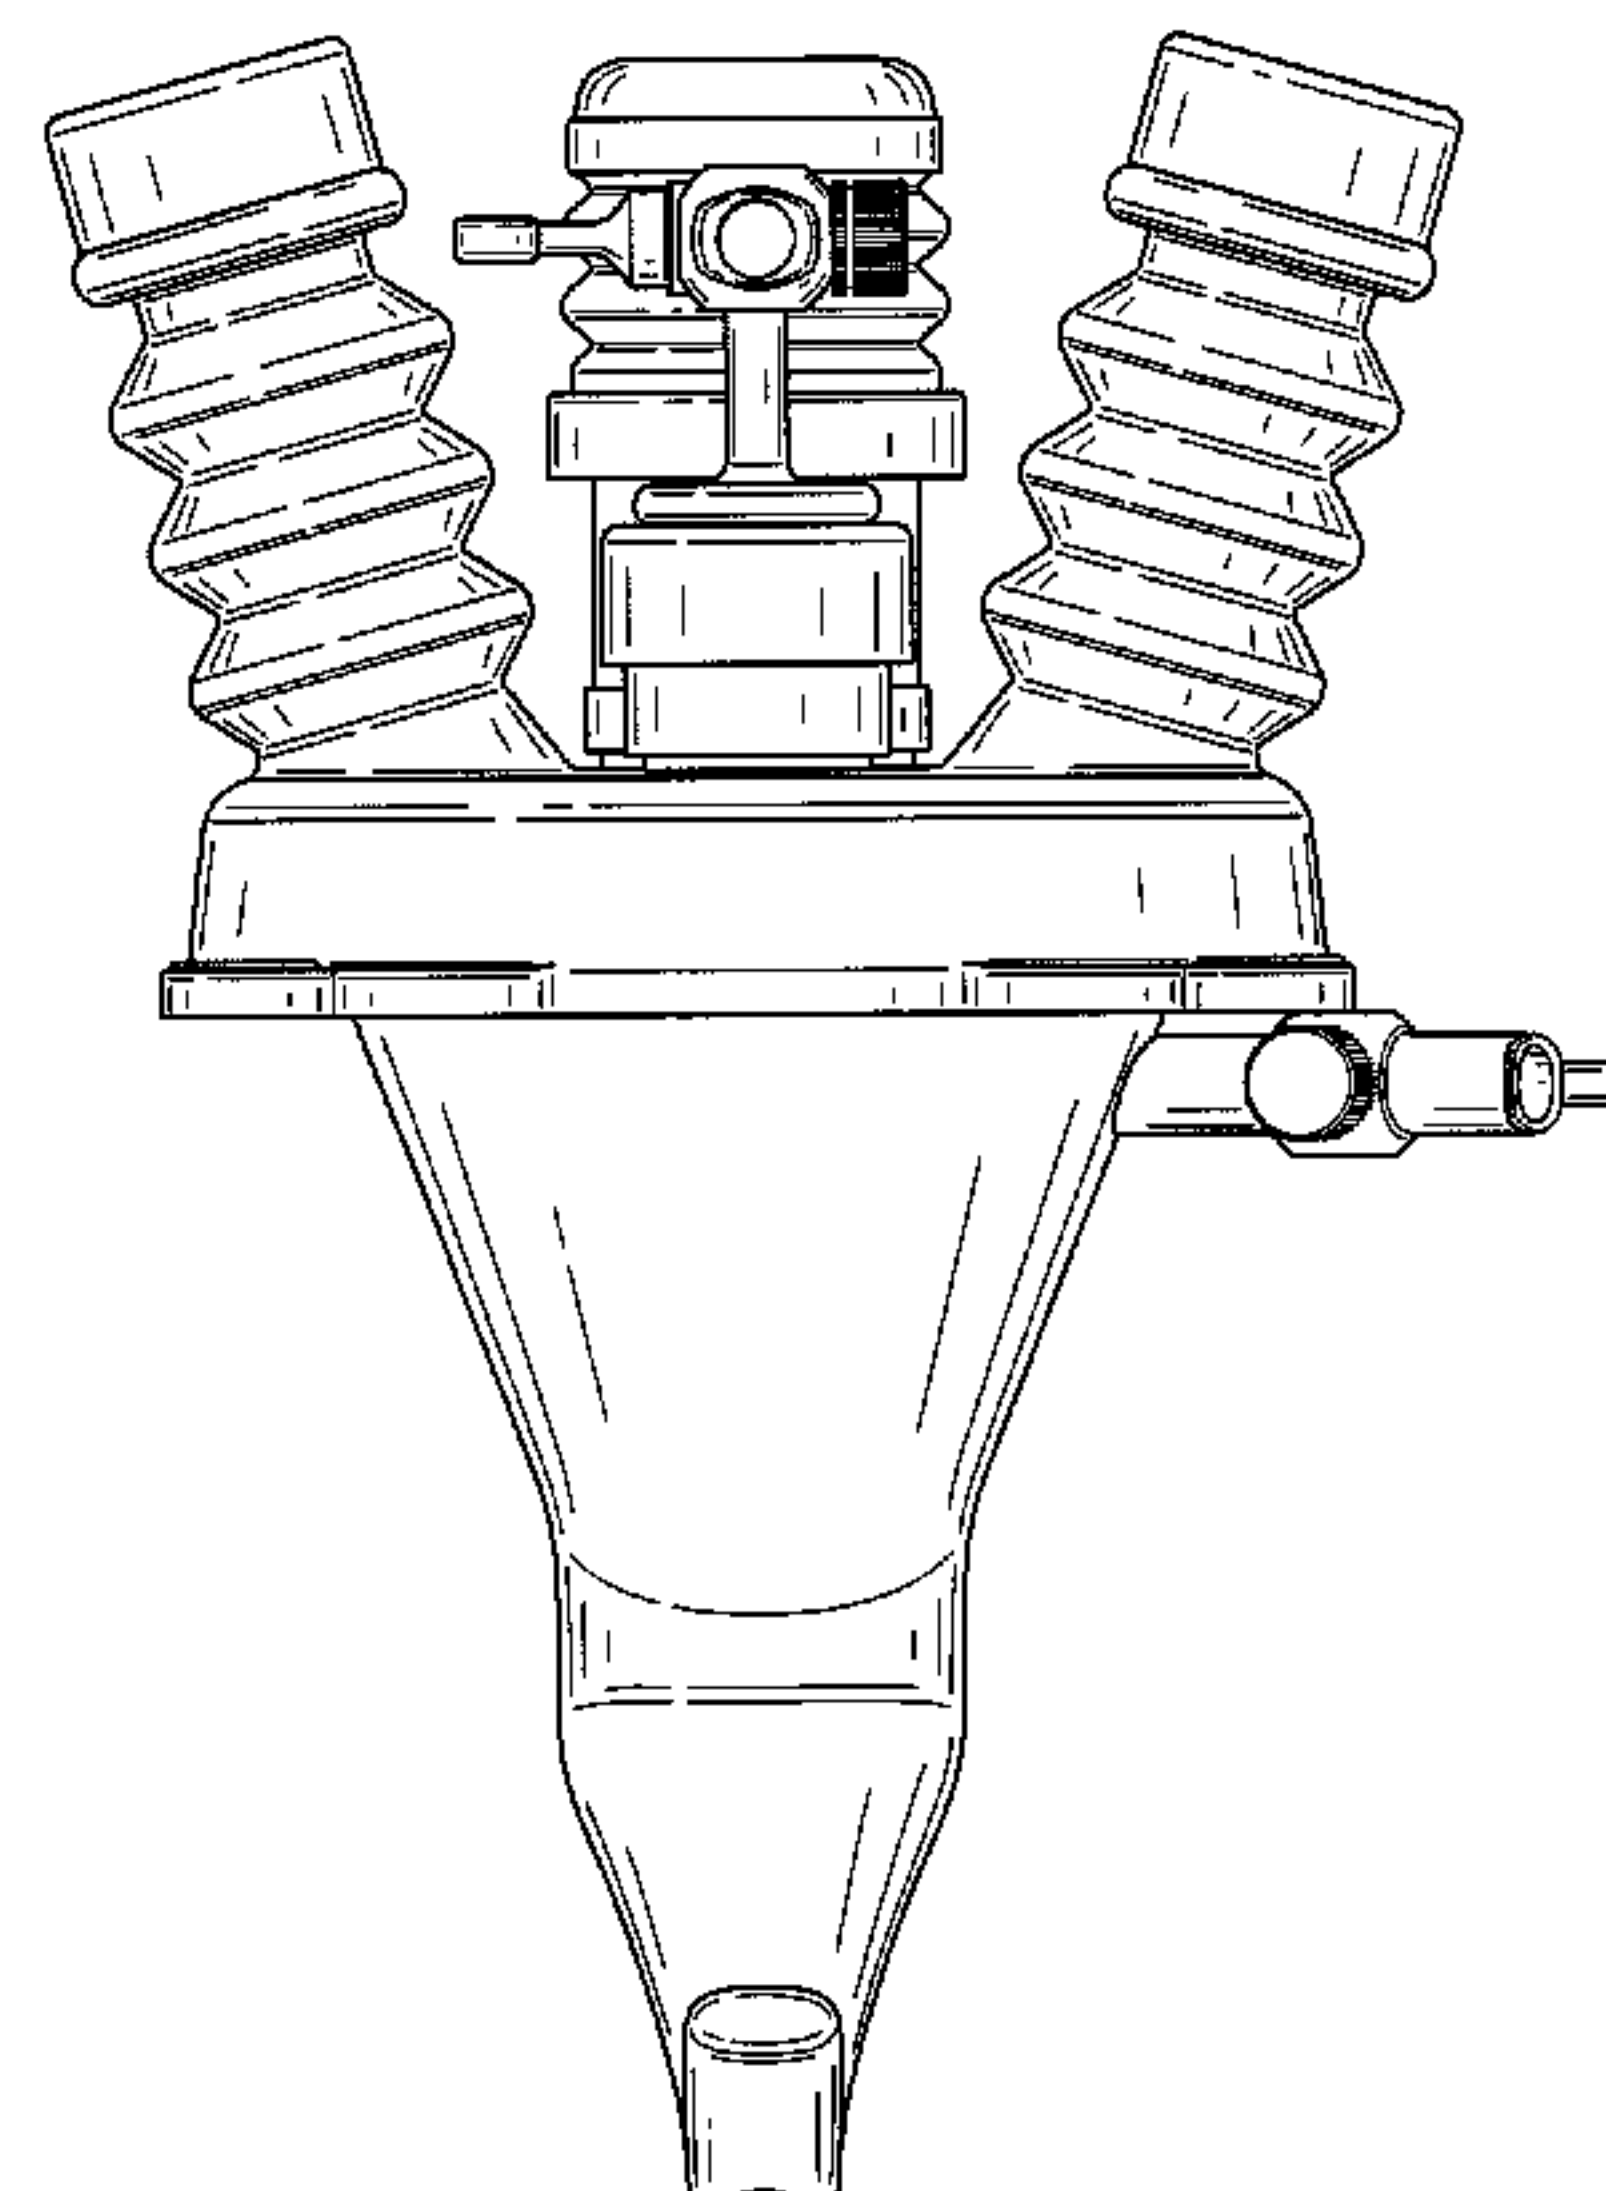

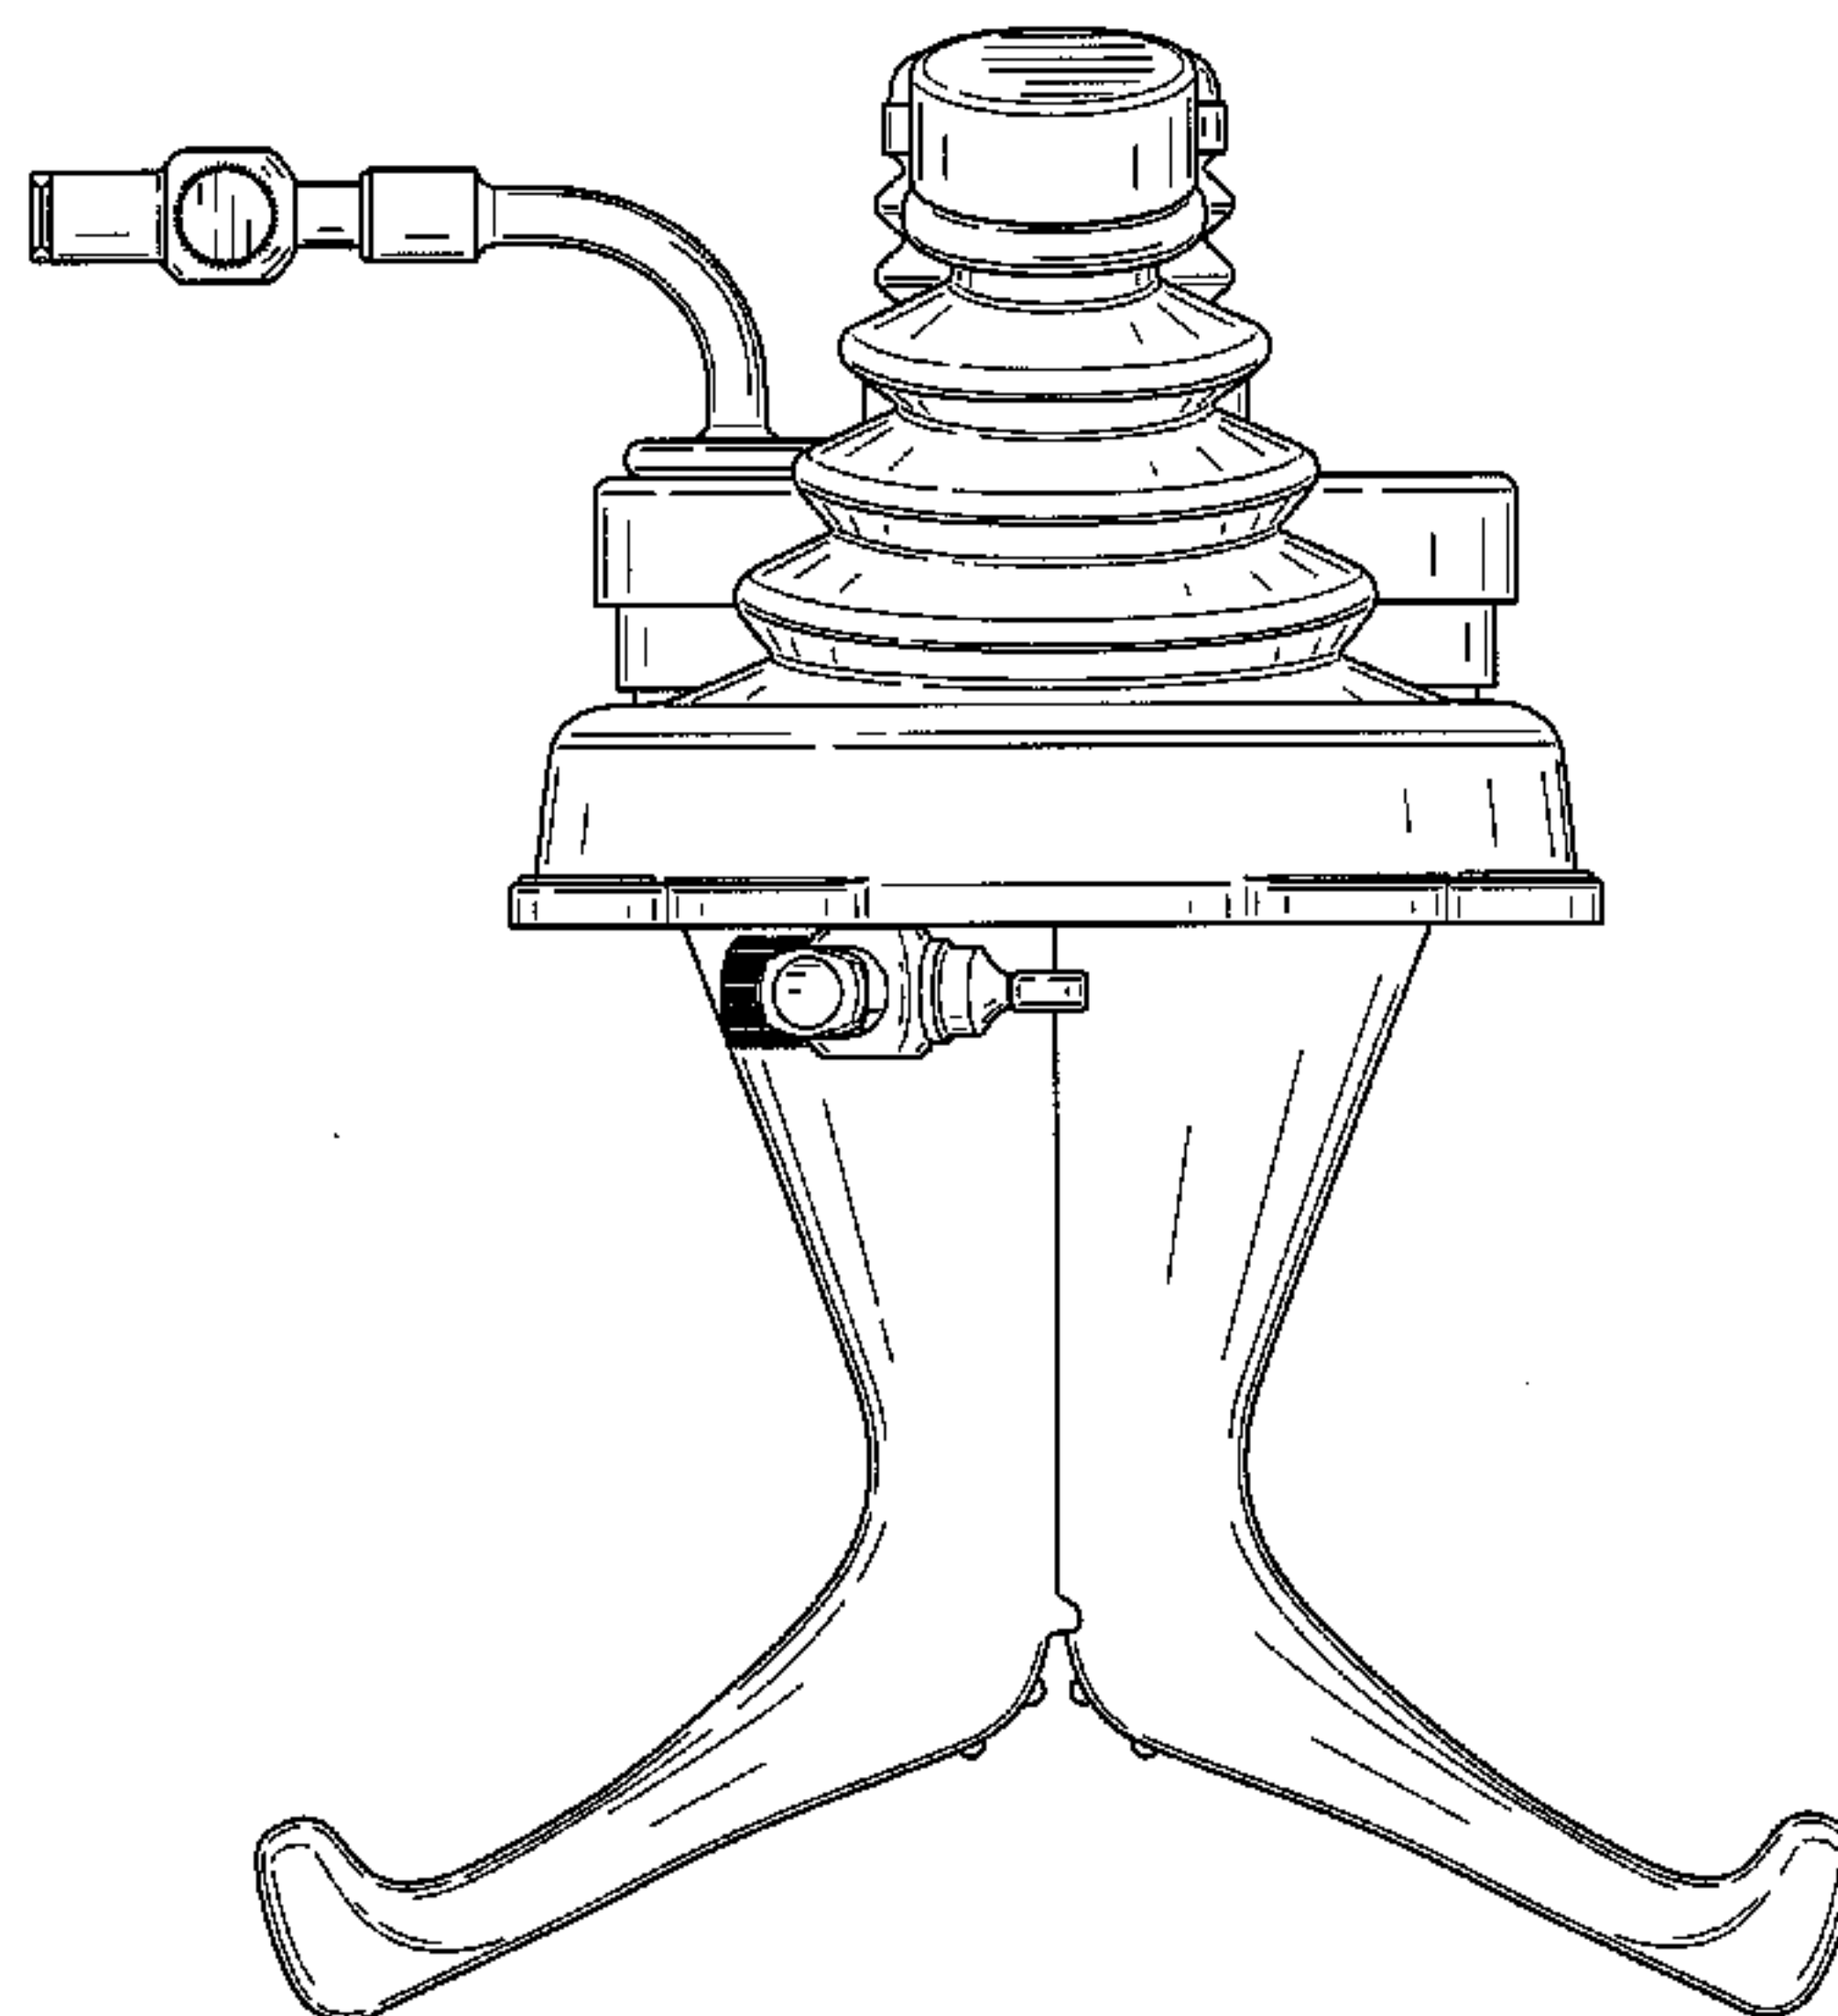

FIG. 12 is a top plan view of the laparoscopic access port of FIG. 8.

FIG. 13 is a bottom plan view of the laparoscopic access port of FIG. 8; and,

FIG. 14 is a three quarter view of the laparoscopic access port of FIG. 8.

The broken lines immediately adjacent the shaded areas represent the bounds of the claimed design while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
