(57) **CLAIM**

The ornamental design for a roll holder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a roll holder;

FIG. 2 is a front elevational view of the roll holder of FIG. 1, the rear elevational view being identical to that shown in FIG. 2;

FIG. 3 is a top elevational view of the roll holder of FIG. 1, the bottom elevational view being identical to that shown in FIG. 3;

FIG. 4 is a right side elevational view of the roll holder of FIG. 1, the left side elevational view being identical to that shown in FIG. 4;

FIG. 5 is a perspective view of a second embodiment of a roll holder;

FIG. 6 is a front elevational view of the roll holder of FIG. 5, the rear elevational view being identical to that shown in FIG. 6;

FIG. 7 is a top elevational view of the roll holder of FIG. 5, the bottom elevational view being identical to that shown in FIG. 7; and,

FIG. 8 is right side elevational view of the roll holder of FIG. 5, the left side elevational view being identical to that shown in FIG. 8.

The broken-line disclosure of apertures in the first embodiment is understood to represent a portion of the article in which the claimed design is embodied, but which forms no part of the claim. The remaining broken line disclosure represents environment which is shown for illustrative purposes only and forms no part of the claimed design.
