(57) **CLAIM**

The ornamental design for a securing device for a teether or pacifier, as shown and described.

DESCRIPTION

FIG. 1 is a top and side perspective view of a securing device for a teether or pacifier according to the present disclosure; FIG. 2 is a bottom side perspective view of the securing device of FIG. 1;

FIG. 3 is a top view of the securing device of FIG. 1; FIG. 4 is a bottom view of the securing device of FIG. 1; FIG. 5 is a side view of the securing device of FIG. 1, the opposite side being a mirror image thereto;

FIG. 6 is a front view of the securing device of FIG. 1; and, FIG. 7 is a rear view of the securing device of FIG. 1.

The broken lines in the drawings illustrating environmental structure or boundaries form no part of the claimed design. The strap connecting the clip to the teether is shown broken away to indicate no specific length.
